Vonage Test Fax

To:	From:
Fax:	Fax:
Phone:	Phone:
Subject: Test Fax	Date:

Fax Settings

Reference your Owner's Manual for help adjusting the settings below:

ECM (error correction mode)	Off
Baud Rate	9600
International	On (this is set on a per-call basis)
Resolution	Standard
Answer mode	Fax Only
Rings to Answer	Zero (0)
Call Waiting	Off
Bandwidth Saver	High (90 kbps)
Distinctive Ring	Off

Troubleshooting Steps

The steps below will help you resolve common faxing problems

- Switch off fax machine and unplug power adapter from device and from wall outlet.
  - Let fax machine remain off for 60 seconds.
- Try a different phone cord between the fax machine and the Vonage device.
- Eliminate any splitters between the fax machine and the Vonage device
- Connect Fax machine directly to the Vonage device, bypassing any home wiring.
- If using an All-In-One device temporarily disconnect device from PC.

Further Assistance

If you need further assistance using your Vonage fax service, we are always available to help.

Call us at 1-VONAGE-HELP (1-866-243-4357) or visit www.vonage.com

IUN

is convenient with every NIC.

For any client to join a WLAN, it should know the SSID of the WLAN, therefore, the access points usually broadcasts their SSID to let the clients know that an AP is in range.

Data devices, known as packets, are sent between the Access Point, and K1 clients. You need an physical access to the network in order to pick up these packets and decrypt them. It is with the transmission of these packets that pose the largest security threat to any wireless network

Wireless Encryption

The majority of home and small business networks are encrypted using the two most popular methods.

1. WEP
2. WPA

WEP – Wired Equivalent Privacy – comes in 2 different key lengths: 64, 128, and 256 bits, known as WEP 64, WEP 128, and WEP 256 respectively. WEP provides a sound level of security but is more compatible with older devices, therefore it is still used quite extensively. Each WEP key contains a 24 bit initialization Vector (IV), and a user-defined or automatically generated key. For example, WEP 128 is a combination of the 24 bit IV and a user entered 26 digit hex key (26*4=104+24=128)

FAX OUT TEST 4

Test

8/20/12

Things to improve on

- Go over F Way (what was done)
- Did not run spore test
- Papers not filed
- EOB's not scanned in
- Cindy Griswold's radiographs not mailed
- Did not send batch recall
- Did not check claim status
- Did not update monthly referral reports
- Scheduled Carol Harrison and did not verify as portion for appointment
- Put wooden wedges in the wrong place
- Files the wrong size. Files length 25mm was in length 31mm and length 21mm was in length 28mm.

Things Improved.

- Sent web post op eval emails
- Sent appointment confirmations 2 days ahead of time
- Opened the office early before appointment time
- Mixed amalgam for treatment
- Autoclaved towels under sink
- Able to schedule pot calls in
- Restocked Files/ Gr 35

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero, this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

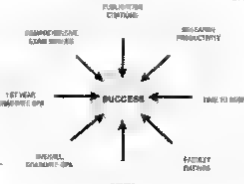
The *Graduate Record Examinations*® (GRE®) *General Test* measures skills that faculty at graduate deans have consistently said are essential to graduate school success. These skills of verbal reasoning, quantitative reasoning, and critical thinking and analytical writing are foundational skills for applicants to all U.S. graduate programs, regardless of educational or linguistic background or country of origin.

Although the GRE Program has many studies of the predictive validity of the GRE *General Test* (which are available on the GRE website: **www.ets.org/gre**), a recent meta-analysis by Dr. ETS researchers Nathan Kuncel, Sarah Hezlett and Dr. Ron Dr. ETS provides additional positive evidence of the validity of the GRE *General Test* overall as a tool of graduate school success. This meta-analysis is important because previous validity studies were often difficult to conduct for a variety of reasons (e.g., insufficient data, test scores or predictors of success that do not vary greatly scores and others). Kuncel, with Dr. Hezlett, the Kuncel et al meta-analysis improved on these studies by examining the validity of the GRE *General Test* for multiple disciplines using multiple measures of success, and by addressing statistical artifacts, such as range restriction.

Figure 1. The criteria for success



One strength of the Kuncel et al. research is that this meta-analysis analyzed data from a very large data set involving more than 75% independent samples based on a pool of more than 80,000 students. In addition, the study looked at five predictors of success and eight criteria of success. The predictors included the three measures of the GRE *General Test* (verbal reasoning, quantitative reasoning and analytical reasoning), GRE Subject Test scores and undergraduate grade point average (UGPA). The criteria for success are shown in the figure to the left.

Each of these studies can be considered a different dimension of successful performance in graduate school.

Results of the Kuncel *et al* study

Results from this study show that:

1. The GRE *General Test* is a generally valid predictor of first-year graduate GPA, overall graduate GPA, comprehensive exam scores, publication citation counts and faculty ratings.
2. The GRE *General Test* also correlates positively with degree attainment and research productivity.
3. The GRE *General Test* has better predictive validity than undergraduate grades or letters of recommendation.
4. The GRE *Subject Tests* are better predictors of success than either the GRE *General Test* or undergraduate GPA.

This meta-analysis study is important because these results apply across a range of intended academic majors, across native speakers of English and nonnative speakers of English, across traditional and nontraditional students and across master's and doctoral programs.

Kuncel, N. R., Hezlett, S. A., & Ones, D. S. (2001). A comprehensive meta-analysis of the predictive validity of the Graduate Record Examinations: Implications for graduate student selection and performance. *Psychological Bulletin, 127*, 162–181.
For more information on the GRE® tests and the Graduate Record Examinations Board, visit www.ets.org/gre/grad. For more research on the GRE tests, visit www.ets.org/gre/research.

Top reasons to switch to XFINITY.

Every service provider thinks they're the best...but at Comcast, we're prepared to back it up.

ON DEMAND

Catch what you missed, On Demand! At the touch of a button, get the most On Demand choices with access to over 75,000 shows and movies, or TV and streaming online. Plus, get many movies the same day they're released on DVD and 28 days before they're available from Netflix and Redbox.

XFINITY STREAMPIX

With XFINITY Streampix™ you can stream hit movies and entire past seasons of your favorite shows instantly on your laptop, iPad,® iPhone® or iPod touch.®

PC Mag has named XFINITY® the fastest Internet provider in the nation, so even with a house full of laptops, smartphones and tablets you'll get the speed you need to do more of what you want online.

With the free XFINITY™ TV app, you can watch On Demand shows and movies from your iPad,® iPhone® or iPod touch.®

Stop worrying about cell phone coverage or paying for expensive home phone company service. XFINITY Voice delivers service that's affordable and reliable.

Satisfaction is our top priority. That's why we stand behind all of our services with the 30-Day Money-Back Comcast Customer Guarantee.**

On-demand available with Digital Starter TV and above. Must subscribe to premium channel to receive that channel's On Demand content. Additional charge may apply to XFINITY Streampix, depending on level of service. 5mm rating by PC Mag based on review of customer data from www.speedtest.net. Text messaging from laptop or PC requires XFINITY Internet subscription. Standard data charges may apply. Check with your carrier. Money-Back Guarantee applies to one month's recurring service and standard installation charges up to $50. ©2012 Comcast. All rights reserved. PC Mag logo is a trademark of ZM Events, Inc. Used under license. ©2012 ZM Events, Inc. All rights reserved. iPad, iPhone and iPod touch are trademarks of Apple Inc., registered in the U.S. and other countries. App Store is a service mark of Apple Inc.

Offer ends 6/6/12 and is limited to residential customers meeting eligibility requirements. XFINITY service not available in all areas. Availability of bundle packaging for current Comcast customers may vary depending upon current level of service. Offer includes HD Preferred Plus, XF Triple Play with Digital Preferred Plus TV with HD, Blast! Internet for Performance Plus, (depending on the area) and Unlimited Voice service. After promotional period, or if any service is cancelled or downgraded, regular rates apply. Comcast's current monthly charge for the HD Preferred Plus XF Triple Play is $178.95. TV and Internet service levies a single bulk fee payment; customers taxes, franchise fees, the Regulatory Recovery Fee and other applicable charges (e.g., per call or per-minute charges) extra. May not be combined with other offers. TV Basic service subscribers in order to receive other levels of service. HD choices include HD channel lineup and HD programming available On Demand; not all programming available in all areas. **Internet:** Speed comparison between Blast! Internet and standard 3.0 DSL; download only. Actual speeds vary and are not guaranteed. Not all features compatible with Macintosh systems. **Voice:** $25 HI activation fee may apply. Not all features available in all areas. Service (including 911 emergency services) may not function after an extended power outage. Savings based on comparison of XFINITY Voice Unlimited service with XFINITY TV or internet services at comparable features/ standard phone service as of January 26, 2012. V. Self Determination. A mediator shall respect and encourage self-determination by the parties in their decision whether, and on what terms, to resolve their dispute, and shall refrain from being directive and judgmental regarding the issues in dispute and options for settlement.

A. A mediator is obligated to leave to the parties full responsibility for deciding whether and on what terms to resolve their dispute. He/She may assist them in making informed and thoughtful decisions, but shall not impose his/her judgment or opinions for those of the parties concerning any aspect of the mediation.

B. A mediator may raise questions for the participants to consider regarding their perceptions of the dispute as well as the acceptability of proposed options for settlement and their impact on third parties. Furthermore, a mediator may suggest for consideration options for settlement in addition to those conceived of by the parties themselves.

C. A mediator shall not impose his/her opinion about the merits of the dispute or about the acceptability of any proposed option for settlement. A mediator should resist giving his/her opinions about the dispute and options for settlement even when he/she is requested to do so by a party or attorney. Instead, a mediator should help that party utilize his/her own resources to evaluate the dispute and the options for settlement.

This section prohibits imposing one's opinions, advice and/or counsel upon a party or attorney. It does not prohibit the mediator's expression of an opinion as a last resort to a party or attorney who requests it and the mediator has already helped that party utilize his/her own resources to evaluate the dispute and options.

D. Subject to Standard IV. E. above, if a party to a mediation declines to consult an independent counsel or expert after the mediator has stated this option, the mediator shall permit the mediation to go forward according to the parties' wishes.

E. If in the mediator's judgment, the integrity of the process has been compromised by for example inability or unwillingness of a party to participate meaningfully, inequality of bargaining power or ability, unfairness resulting from non-disclosure or fraud by a participant or other circumstance likely to lead to a grossly unjust result, the mediator shall inform the parties of the mediator's concern. Consistent with the confidentiality required in Standard III, the mediator may discuss with the parties the source of the concern. The mediator may choose to discontinue the mediation in such circumstances but shall not violate the obligation of confidentiality.

Tested Tips for Interviewing and Hiring Great Employees

By Bob Levey

The hiring of employees is the single most important management task you do because of the tremendous impact they have on your productivity, morale and profitability growth.

Action steps of it is easy but often overlooked. Start with an up-to-date, written job description of the duties and responsibilities the position entails. Next, profile yourself the ideal employee. Know what is expected of them, and provide personal examples with a guidelines for performance reviews.

Identify "Musts" and "Preferreds". The "musts" are those characteristics the ideal person must have to accomplish the job. Does this have experience, knowledge and skills necessary to fit the job, proper personality or will.

Keep in mind that many people're flexible, time wants are inflexible and unacceptable. There are absolute minimum requirements. Having these items on your profile save some labor & job application for all the resumes he or she doesn't qualify for the job. It's that simple.

Next, identify the qualifications you'd prefer the ideal job applicant have. Include things that wouldn't be helpful and demands but aren't absolutely essential for the job. If the job is lengthy, assign relative weights to each item before you begin interviewing. These will help you choose among job applicants will come all the "musts".

The numerous of human resource professionals with about Personalities, is that there should be no more than two straight cards. Advise them that visitors you have either included some "preferreds" in your evaluation most of the possibilities.

To attract out the list, identify the personality and behavioral areas that are necessary among your best employees. Add to what from your "wish list." Then select five for you to make the most important and rank order them.

The Interview

The salary matters, restaurants and hospital managers in addition to human resource specialists is a wide range of professions and businesses to share the broad tips and interview questions they've found most helpful in judging job applicants. The following are a few of them.

The purpose in these questions is to ascertain if job applicants are as capable, determined and interested as they say they are. They're all open-ended, allowing candidates an attempt to practice as little as they speak. Also, the questions that can only possibly pose ways of the "ideal" employee the job owner is good to meet the themes of your practice:

As an ice-breaker in the mood or an interesting, easy question with us, "Can you tell me something about your life such as what you did, with whom you worked, etc." The assumption is that when the job applicant, put him or her at ease with a non-business question, and gave the way for better questioning.

The following questions are set to ease to answer with short, prepackaged responses. Hopefully, job applicants will answer them in an honest and straightforward manner.

What do you like about your current job?
With follow-up questions to discover more important than the first question because of people have a tendency answer in what they question, you're more likely to get a truthful answer with extensive responses. For example, they might say flexible hours, paid continuing education, exciting staff, time or a boss or other parts or benefits that may be looking to your position.

What are you looking for in your next job that's missing from your present one?
It's going to be difficult for a job people get or know the best answer to such a question, but always be sure they avoid these responses, too. If the present position is one that may say "none" these good responsibilities" or "management responsibilities" or something else that will be with no less than ideal for your practice.

What aspects of your last job did you like least?
Again, it will be with no answer to guess what you're looking for. For the this may say, "nothing, there's no money" or "weather" or something like that would make this person and for the job you're trying to fill.

What aspects of your last job did you like best?
Hopefully, there will be good for the open job to your practice.

On a scale of 1 to 10, how reliable are you?
It can be looking for someone to do appointment scheduling or the work for example. You'll want someone who says 8, 9 or 10. Replace "sometimes" with other traits, and before-up with "Think interesting, be interested, let me know."

What do you consider your greatest strength? Don't be conflicts:
Depending on your type of practice, "good" answers might include: I have cats. I'm great with kids. I learn quickly.

Take such answers a step further by asking, "Please give me an example." Name the five most common words in an interviewer's manual and they can't be used other people. They're polishing what's important, finding an extraordinary statement in your notes for which there is not a chord of supporting evidence.

Beware of asking job questions about these "restrictions." If they're done any preparation for the interview, they've learned how to name a weakness into a positive. For example, "What's your biggest weakness?" answers "I tend to be a perfectionist."

Here's another failed question:
Have you ever acted responsible, voluntary orientation an advocates position for which the person is applying one especially your judgment? If so, please tell me about it.

For hundred job applicants, who would, for example, have simply voluntary associations that deals with grieving events or completion. Even others about what they question or increase changes — among other things, you can't about client relations and positive growth. These kinds of recollections are spend a lot about a person's value and sensitivities to employees.

In terms of your principal you leave the state?
A home state says a lot.

How do you feel about asking people for money?
You want to make sure the person you hire for making payment arrangements with clients could follow-up collection words doesn't have struggling about the task. A surprising number of people do.

What am I likely to hate, positive and negative, when I call your references?
This question gives job applicants an opportunity to brag about their strengths and achievements in previous jobs. It also enables them to tell their side of any negative story you might have or may likely thank you might have.

Per based aspects of your staffing situations by job applicants when were asked their questions.

Behavior-Based Interviewing
Widely used in industry, behavior-based interviewing aims at pinpointing job applicants' future performance — based on how they've handled past work situations.

Carol Quinn, a management consultant in Orlando, Florida, suggests using action words. CEAE questions that get the candidate to reveal an Obstacle, Situation, Action and Example. Quinn words like this:

- Have you ever Chronic situation that relates to the job you need to fill. For example, "Tell me about a time when you had to deal with an angry customer."
- Describe a Action question. "How did you deal with it?"
- Next, find out the Detail result. "What eventually happened?" These are the sight or wrong answers to behavior-based questions. — They emphasize that may or may not be relevant to the job for all this simple listing.
- A "Did you attend a what emergency or what of some kind to which you were invited?" What was the date? What time was it? What did you do?

One of the questions that Southwest Airlines look for is a sense of humor in the interview process, prospective employees, or typically asked, "Tell me how you recently used your sense of humor in a work environment" or "Tell me how you used your humor to defuse a difficult situation" because "sense of humor" with other personality traits of interest. What you want in hires if specific examples of problem to the person found, the answer to be the best and the results that were achieved.

A value of statistics in revealing to you applies for both questions and answers to its candidates. Applicants can be told that individualizing to some people and not all candidates are going to be accountable to answering them. So use such questions with discretion and answers to other questions as the situation warrants.

Ineffective Interview Questions

- Never use unanswer whose first question is, "What are the benefits?"
- Never have someone you don't care — such as friends and relatives
- Never hire someone merely just right but the job with the expectation he or she will change. Dr. L.L. Bean said it best. You can change people — but not very much.
- Beware of a person of with hopping. Three jobs in 5 years may be too many unless the change were a sensible process such as higher pay or more responsibility.
- Dr. James L. Baxter Chaney Hill recommends that you pay attention to be found five minutes. Someone enough that "We've just about set in time," he says, Many candidates will wear their most impressive accessories or questions until the were read. You may have a question until is "Is or ever have to work overtime?" The closing minutes can relay the element insights to your candidate's concerns.
- Real estate person Hannah Thompson said it best: "There are many people who give great interviews and are lousy employees, and there are lots of nice who give terrible interviews and are fabulous employees.

To sum up, getting the right people on board is a win/win matches for your clients, your current employees, and yourself.

Bob Levey is an Illinois-based human resources and research consultant for veterinary businesses. He is the author of 7 books including: It Answer at a High Performance Veterinary Practice (Veterinary Medicine Publishing Group) and 222 Secrets of Hiring, Managing, and Motivating Great Employees in Veterinary Medicine (Jones & Bartlett, 2003).

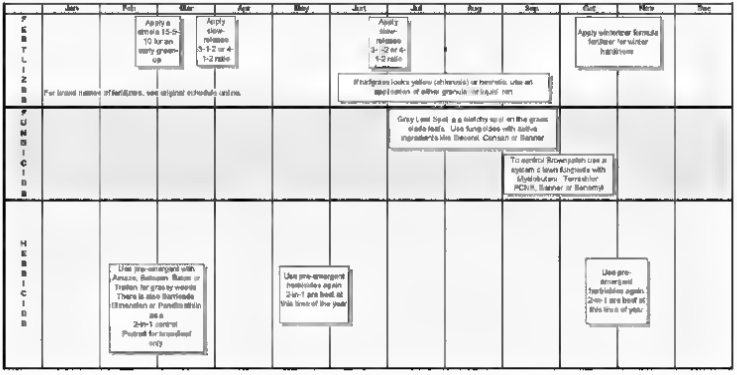
Randy Lemmon's Lawn Fertilization Schedule



Jan
Feb
Mar
Apr
May
Jun
Jul
Aug
Sep
Oct
Nov
Dec
FERTILIZER
Apply a straw 15-5-10 for an early green-up
Apply slow-release 3-1-2 or 4-1-2 ratio
Apply slow-release 3-1-2 or 4-1-2 ratio
Apply winterizer formula fertilizer for winter hardiness
For broad native of fertilizers, see original schedule online.
If bahiagrass looks yellow (chlorosis) or nematode, use an application of either granular or liquid iron
FUNGICIDE
Gray Leaf Spot is a patchy spot on the grass blade leafs. Use fungicides with active ingredients like Tebucal, Contact or Banner
To control Brownpatch use a system a lawn fungicide with Myleketurn - Terrashor PCNB, Banner or Benomyl
HERBICIDE
Use pre-emergent with Amaze, Balloon, Balan or Treflan for grassy weeds There is also Barricade (Prodiamine or Pendimethin as a 2-in-1 control Pretrol for broadleaf only
Use pre-emergent herbicides again. 2-in-1 are best at this time of the year
Use pre-emergent herbicides again. 2-in-1 are best at this time of year

ACCESS FAMILY HEALTH/ WELLNESS PRACTICES OF AMERICA

Influenza Vaccine Consent Form (4 YEARS to Adult) 2016-2017

Name _____
Print First Middle Last

SSN # _____ DOB: _____

You should not receive the influenza vaccine if:
You have had a serious allergic reaction to eggs, thimerosal preservative, or to a previous dose of influenza vaccine
You have a h story of Guillain-Barre Syndrome (GBS)
You are ill
Speak to your doctor if you are pregnant
Possible reaction
Mild: Soreness or redness at the site of the shot
Fever
Body Aches
Severe: Acute allergic reaction-high fever confusion, difficulty breathing, hives, and rapid heartbeat would occur within a few minutes of the shot
Guillain-Barre Syndrome- progressive muscle weakness and paralysis may occur a week after the vaccine. This occurs in 1-2 cases per million persons vaccinated.

**Are you ill (today? Yes/No
**Are you allergic to eggs? Yes/No
**Have you ever had a severe reaction to a flu vaccine? Yes/No
**Have you had Guillain-Barre Syndrome? Yes/No
**Are you allergic to latex? Yes/No

Consent
I have read the current influenza vaccine information sheet. I have been provided an opportunity to ask questions about the disease and the treatment. I understand the risks and benefits of the vaccination. I understand that the vaccination I am about to receive is single shot for adults and for children who have received a flu vaccine in the past. A child who has never received a flu vaccine should receive 2 vaccinations one month apart to develop the greatest immunity
I understand that it will not be fully effective for approximately two weeks. However as with all vaccines there is no guarantee that I will become immune or that I will not experience side effects. I understand that one should not receive this vaccine if they have a severe allergy to eggs, have had a severe reaction to a previous influenza vaccine or if they had Guillain Barre Syndrome. I hereby request the influenza vaccine for 2016-2017 flu season, be given to myself or the person for whom I am to authorize to give consent

PDF INFO & TEST FILE

HOW TO USE PDF FILES ON THE INTERNET

Viewing PDF Files On-Line

It is possible to "download" PDF files within your Internet browser using the Adobe Acrobat PDF Viewer plug-in for browsers. If you have an Acrobat plug-in installed, clicking on the PDF hot link will automatically start downloading the file and will show you the first page as soon as it is ready. The Acrobat plug-in will display the first page of the document as soon as it is downloaded, that usually takes several seconds to a minute--depending on the quality and speed of your network connection.

The files must be navigated and printed using the Acrobat PDF Viewer's icons and not the browser's menu items. The PDF document MUST be printed using the Acrobat Viewers print icon on the upper left corner of the viewer. If the browser's print menu is used, the document may not print clearly, or not print at all.

Viewing PDF Files Off-Line

The best place to view and use PDF file is off line. While viewing PDF files on line is a great feature, it does limit some user interface options and is somewhat impractical for large PDF files on the Internet. It may be wiser to download the file for with the Adobe's Acrobat Reader or Acrobat Exchange applications. The benefit of this is each of these applications allows for faster navigation, use of the search function and index services if the file is included in a detached index.

Downloading Limitations of the Internet

It appears that some service providers place limits on the size of files that they will allow their users to attach to e-mail (usually less than 1 megabyte) or download directly. While the PDF version of a document may appear to be a large file compared to many HTML and graphic files, the PDF file is frequently one-half to one-tenth the size of the parent files! The collection of parent resources would be more difficult to download and would not provide the high level of services available in the Acrobat PDF format.

PRINTING PDF FILES

The Acrobat Reader is capable of printing to a variety of printer types, including PostScript, HPGL and PCL, without any additional software. Choosing the "Print..." menu item in Acrobat will call up the standard print dialog box found on your system. In general, choose "Shrink to Fit" option to allow the PDF page images to fit on your paper. There is no required "paper size" for a PDF file and it is common for the contents of a PDF file be used as virtual slide show in a landscape format.

Return Test

This fax was sent using the FaxZero.com free fax service. FaxZero.com has a zero tolerance policy for abuse and junk faxes. If this fax is spam or abusive, please e-mail support@faxzero.com or send a fax to 866-330-1238, or phone 757-490-0860. Specify fax #1555 7150. We will send your fax number to the black list.

Q: Why are hawks such great football fans? **A. They're always watching the game on the field!**	**Q: What has more lives than a cat?** **A. A frog — it croaks every night!**
Q: Why are basketball players sloppy eaters? **A. Because they always dribble!**	**Q: How do you know when you're built upside down?** **A. When your feet smell and your nose runs!**
Q: Why does Santa have so many gardens? **A. So he can hoe hoe hoe!**	**Q: Why did the mouse dance on the peanut butter jar?** **A. Because it said twist to open!**
Q: What did the salad say to the refrigerator? **A. Close the door, I'm dressing!**	**Q: What did one eye say to the other?** **A. There is something between us that smells!**
Q: What do termites eat for breakfast? **A. Oak meal!**	**Q: What do you get when you cross a bell and a chicken?** **A. An alarm clock**
Q: What do you get when you cross Lassie and a rose? **A. A collie-flower!**	**Q: Which part of a hen has the most feathers?** **A. The outside!**
Q: Why weren't apples allowed on Noah's ark? **A: Only pears were allowed!**	**Q: Why did the little skunk listen to the big skunk?** **A. Because it was older and wiser!**
Q: What kind of bird can lift heavy things? **A. A crane!**	**Q: What does a 2,000-pound mouse say?** **A. Here, kitty kitty!**

AdChoices

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1 888-877 1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

Troubleshooting

directv.com/help

TRY THIS FIRST! An easy solution for most problems: **reset your receiver.**
From the red **RESET** button next to the card slot on the receiver

Technical Issue	Possible Causes	Quick Solutions
No Internet Connection Detected	Ethernet or coax cable is loose or disconnected •Network settings on the receiver have been changed Receiver is unable to connect to the router	1. Check that the router is plugged in and its lights are on. 2. Verify Internet service is active by checking your home computer For additional step-by-step visual instructions, visit directv.com/connect
Frozen/ Pixelated Screen	•Your receiver is having trouble communicating with your satellite dish	1. Check all connections on the back of your receiver, starting with the SAT IN connection, and make sure they're secure. 2. You may have a SWiM Power Inserter (pictured below) attached to the DIRECTV cable coming from your dish. Unplug Inserter from electrical outlet and wait for 15 seconds, then plug Inserter back in. *Note: Do not plug SWiM Power Inserter into a power outlet that can be turned off. Avoid plugging into a power strip.*
No Signal/ Snowy Screen	•TV is on the wrong input, channel or audio/visual connection	1. Verify that both TV and receiver are on. 2. On your DIRECTV® Remote, press TV **INPUT** or ⊟, OR on your TV remote, press the **INPUT** or **SOURCE** button. On the RC71 remote, press and hold ⊟ for 3 seconds. › Cycle through inputs slowly until picture returns. › If you see a snowy/static screen, press 03 or 04 on your TV remote. 3. Check that all video cables between receiver and TV are not loose and are plugged into matching ports

Your system may include the following components:

Wireless CIR

Wired CIR

A/V - RCA (Video 1, 2, 3)

HDMI (HDMI 1, 2, 3)

High-Definition Component Cables

SWiM Power Inserter

ICSA Labs division indépendante de Verizon Business propose des services d'essai et de certification sans lien avec les fournisseurs pour des produits de sécurité Des centaines de fournisseurs chefs de file mondiaux demandent à ICSA Labs de vérifier leurs produits de sécurité et de les certifier Les utilisateurs finals des technologies de sécurité et d'autres domaines comptent sur ICSA Labs pour définir et appliquer de manière définitive des critères d'essai et de certification objectifs afin de mesurer la conformité et la fiabilité des produits

Le centre de contrôle IntelliLinkMD compatible à Ethernet de Pitney Bowes, qui utilise le logiciel Mega a satisfait à tous les critères de certification De plus il a été certifié Premier Services par ICSA Labs ICSA Labs a vérifié que le centre de contrôle utilise une connexion Ethernet sécurisée qu'il n'est pas vulnérable à l'exploitation et qu'il ne rendait pas le réseau d'essai ouvert à toute nouvelle vulnérabilité en matière de sécurité ICSA Labs a aussi été en mesure de valider que le centre de contrôle réussissait, de manière exacte à effectuer des recharges de fonds d'affranchissement et de télécharger des logiciels de mise à jour tout en offrant une fonctionnalité «prêt à l'emploi»

A propos de ICSA
ICSA Labs Premier Services propose des services d'essai à des fins d'évaluation et de certification pour des produits et des solutions dans le secteur de la technologie de l'information Dans le cas de chaque produit faisant l'objet d'un essai à des fins de certification ICSA Labs crée une méthodologie d'essai et des critères de certification adaptés aux qualités uniques du produit ou de la technologie Les critères adaptés se fondent sur des critères existants des programmes de certification d'ICSA ainsi que sur des commentaires du fournisseur du produit mis à l'essai d'experts de l'industrie et de nos partenaires *Premier Services Alliance Partners* ICSA Labs évalue en fonction de certains critères le produit fourni La Société utilise un plan d'essai défini pour déterminer si le produit satisfait aux critères Si le produit satisfait à tous les critères d'essai ICSA Labs certifiera le produit ou la technologie
Pour consulter les rapports d'essais des produits certifiés Premier Services d'ICSA Labs allez à **http //www icsalabs com** et cliquez sur le lien « Premier Services »

Congratulations! You just scheduled the TimesDigest Daily Printable!

About this Printable

TimesDigest delivers The New York Times top stories, editorial comment, sports, weather, business news and even the crossword puzzle on your schedule. Please keep this page for future reference.

You're in control!

To customize your delivery options:

On your printer: Click "Apps" or "Printables" on the control panel, select your Printable, and click the Settings button to turn off automatic printing or change your preferences.

On the web (not available in all countries): Log in to your account at **Printables.HPConnected.com**. Choose your Printable, select "Settings" and customize your delivery times, days and which sections you receive. You can also turn off automatic printing here.

On your mobile device (not available in all countries): The **HP Printables** mobile app allows you to choose, view, schedule, print, or turn off your Printables. Download it by searching for **HP Printables** in your device's application store (look for the image at left).

To pause or stop your Printable:

For instructions, visit **hp.com/go/manageprint**.

Looking for more?

You can schedule these types of Printables and more online at **Printables.HPConnected.com**, from your mobile device or on your printer's front panel.

Business / News
Keep up with the latest news and info

Education
Choose grade level and subjects

Recipes
Find new ideas for meals and treats

Entertainment
Puzzles, games and fun things to do

To ensure delivery, your printer must be connected to the Internet and either powered on or in sleep mode.

This Printable may not use several offers.

The NSA Is Building the Country's B iggest Spy Center (Watch What You Say)

BY JAMES BAMFORD03 15 12 7 24 PM

Photo Name Withheld Digital Manipulation Jesse Lenz

The spring air in the small sand-dusted town has a soft haze to it and clumps of green-gray sagebrush rustle in the breeze Bluffdale sits in a bowl-shaped valley in the shadow of Utah s Wasatch Range to the east and the Oquirrh Mountains to the west It's the heart of Mormon country where religious pioneers first arrived more than 160 years ago They came to escape the rest of the world to understand the mysterious words sent down from their god as revealed on buried golden plates, and to practice what has become known as "the principle," marriage to multiple w ves.

Today Bluffdale is home to one of the nation's largest sects of polygamists, the Apostolic United Brethren, with upwards of 9 000 members The brethren s complex includes a chapel a school, a sports field, and an archive Membership has doubled since 1978—and the number of plural marriages has tr pled—so the sect has recently been looking for ways to purchase more land and expand throughout the town

But new pioneers have quietly begun moving into the area secretive outsiders who say little and keep to themselves Like the pious polygamists, they are focused on deciphering cryptic messages that only they have the power to understand Just off Beef Hollow Road, less than a mile from brethren headquarters, thousands of hard-hatted construction workers in sweat soaked T-sh rts are laying the groundwork for the newcomers' own temple and archive a massive complex so large that it necessitated expanding the town's boundaries Once built it w ll be more than five times the size of the US Capitol

Rather than Bibles prophets, and worshippers this temple will be filled with servers, computer intelligence experts and armed guards And instead of listening for words flowing down from heaven These newcomers will be secretly capturing, storing, and analyzing vast quantities of words and images hurtling through the world s telecommunicat ons networks In the little town of Bluffdale Big Love and Big Brother have become uneasy neighbors.

The NSA has become the largest most covert, and potentially most intrusive intelligence agency ever

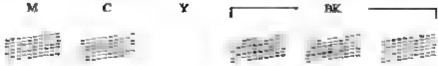
FACTS

The Print Quality Check Sheet

Check that the dotted lines forming the four color blocks are all visible with no gaps.



This Brother Inkjet machine has been finely tuned to provide excellent, accurate and long lasting printed pages when using Genuine Brother Innobella(TM) Ink.

The use of non-Brother inks in this machine may potentially result in inferior output quality and/or machine damage.

Any required repairs for damages proven to result from using non-Brother inks in this machine may not be covered by the original machine limited warranty

We strongly suggest you use only Genuine Brother Innobella(TM) Inks when it is time for you to replace the Ink cartridge(s)

Fax Test Report for

Oct 15 2012 2:48PM

Fax Hardware Test	PASS
Fax Connected to Active Telephone Wall Jack	PASS
Phone Cord Connected to Correct Port on Fax	PASS
Using Correct Type of Phone Cord with Fax	PASS
Dial Tone Detection	FAIL
Fax Line Condition Test	PASS

A dial tone was not detected

Please check the items below then rerun this test

Other equipment sharing the fax line can reduce the signal strength

Disconnect any equipment which is sharing the fax line (including extension phones answering machines, and dial up PC modems).
If you are using a splitter or some other device between the fax and the wall jack, remove it and connect the fax directly to the wall jack

If your HP device is connected to a Private Branch Exchange (PBX) rather than the public telephone system the Dial Tone Detection test may fail
However you should be able to successfully send and receive faxes.

Refer to your User Guide for more information on the fax test and settings

Instructions on how to rerun this test

Step 1 Press the "Setup" button
Step 2 Choose the "Tools" menu
Step 3 Choose the "Run Fax Test" item

MWM2FN1040AR

TEST

Welcome to

Windows® Fax and Scan

One place to scan and fax your documents

FAX You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax.**

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan.**

3. On the toolbar, click **New Scan.**

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

TEST

1 Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here?s how to do both

To test the send functionality of your fax machine send a one-page fax to 1-510-545-0990 (a number in Northern California) When it?s finished transmitting point your web browser to Fax Toy http://faxtoy.net/ ? it?s a fun web site that displays whatever is faxed to that number Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero http://faxzero.com/ this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring ? hopefully, it will automatically answer and spit out the test fax.

answers to your questions about faxing

« How to Stop a Calls from a Fax Machine?
How to Fix Vertical Stripe On Faxes I Send »

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it. Just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax.Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring, — hopefully, it will automatically answer and spit out the test fax.

See if they're Cheating on You

Step 1) Enter Phone Number

Step 2) View Graphic Details

AT&T 8525 Software Downloads

Welcome to the Windows Mobile 6 upgrade for the AT&T 8525. Please Update the following prior to downloading and installing the ROM update on your device.

This ROM update is intended for the **AT&T 8525** only and users should not load or attempt to load this version on any other device as it may cause version unavailability.

- **GOOD MOBILE MESSAGING USERS - IMPORTANT INFORMATION:**
  The latest version of Good Mobile Messaging (version 5.0.3) is the only version of the Good Client that has been certified for use with the AT&T 8525 running Windows Mobile 6. It is recommended that Good Mobile Messaging Users that have not yet updated to the latest version of the Good client not upgrade their software at this time but rather download the WM6 update and save it until after the user has obtained a copy of Good Mobile Messaging version 5.0.3. Please note that the final Windows Mobile 6 firmware is a permanent update and has been loaded on your AT&T 8525. There is no way to roll back the AT&T 8525 to Windows Mobile 5 once the Windows Mobile 6 upgrade has been applied!
- **CORPORATE USERS: CHECK WITH YOUR IT DEPARTMENT BEFORE INSTALLING THIS UPGRADE!!**
- HTC strongly suggests that users create a back up copy of the ROM and keep it in a secure locale as all new and refurbished 8525 devices (including those received via Warranty Exchange) will users install with **Windows Mobile 6** rather than **Windows Before 6**.

Please look the following important notes before starting the upgrade

Before you proceed, update confirm that this software upgrade is a newer version than what is currently Before on your device. If it is the same version and your device is operating normally there is no what to update the software. To determine what version is running on your device refer to the image left and note the ROM version, CPU and Radio Version and then on your device go to Home > Settings > Device Information

Before you run the ROM Upgrade Utility (RUU), make sure you check look do the following first:

1. USB sync cable is connected to your device and PC to establish a connection with ActiveSync/Windows Mobile Device Center
2. The standby lead hibernation modes are disabled on the computer
3. All running applications on the computer back basic basic Mobile
4. Ensure that you device has a battery level of at least 60% (Start > Settings > System Tab > Power > Battery tab). If the battery "dies" during the upgrade process, there is a chance that it will not recover and will lead to be sent to AT&T/HTC for repairs
5. The update can lead up to 25 minutes so set aside time when you will not be interrupted.
6. All data will be Before from the version during the upgrade (music, pictures, 3rd party applications, etc); be sure to back

FRONT

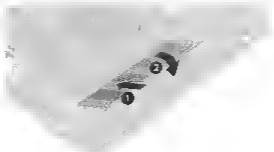
SODIMM upgrade

Use the following procedure to upgrade or replace the SODIMM module.

CAUTION: If necessary, back up any data before modifying the configuration.

In addition to following these instructions, follow the detailed instructions that accompany the module.

1. Complete steps 1 through 4 of the "General hardware installation sequence" on page 2-1.
2. Remove the existing SODIMM module.
3. Install the module into the socket at a 45° angle ❶ and then lower the module ❷ until it clicks into place.



Installing an optional SODIMM

4. Complete steps 6 through 10 of the "General hardware installation sequence" on page 2-1.

Love Poem of the South

Susie Lee done fell in love
She planned to marry Joe
She was so happy 'bout it all
She told her Pappy so

Pappy told her, Susie gal
You'll have to find another
I'd just as soon yo' Ma don't know
But Joe is yo' half brother

So Susie put aside her Joe
And planned to marry Will
But after telling Pappy this,
He said, There's trouble still...

You can't marry Will, my gal
And please don't tell your Mother
But Will and Joe and several mo'
I know is yo' half brothers

But Mama knew and said my child
Just do what makes yo' happy
Marry Will or marry Joe
You ain't no kin to Pappy

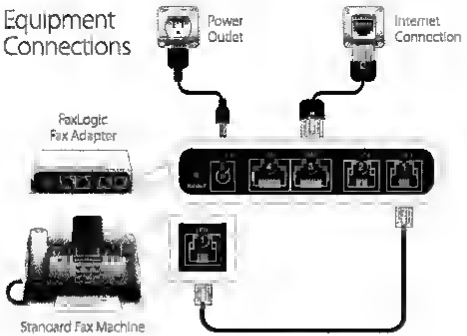
Equipment Connections



1. If your fax machine is already connected to a telephone wall jack, disconnect the telephone cable from the wall jack and connect that end of the cable to the Fax Adapter's **PHONE 1** port.

   Otherwise, connect the telephone cable that came with your fax machine from the fax machine's **LINE** port to the Fax adapter's **PHONE 1** port.

2. The Fax Adapter's **PHONE 2** port is not used and should not be connected to anything. Please do not remove the protective cover from the **PHONE 2** port.

3. Connect the network cable (supplied with the Fax Adapter) from the Fax Adapter's **WAN** port to an available network wall jack (or directly to an available port on a network hub, switch or router) so the Fax Adapter can access the Internet.

4. If there are no open network wall jacks or ports available the Fax Adapter can share a network port with a computer, printer, or other device.

   To do this, first disconnect the network cable from the network wall jack or port, then follow Step 3 above, and finally, connect the other device's network cable to the Fax Adapter's **LAN** port (if necessary remove the protective cover).

5. Connect the supplied A/C power adapter to the Fax Adapter's **DC/12V** port and plug the power adapter unit into an electrical outlet. *As with any sensitive electronic equipment, we highly recommend using a computer-grade surge protector or battery backup unit.*

Troubleshooting Steps

The steps below will help you resolve common faxing problems

- Switch off fax machine and unplug power adapter from device and from wall outlet
  - Let fax machine remain off for 60 seconds
- Try a different phone cord between the fax machine and the Vonage device
- Eliminate any splitters between the fax machine and the Vonage device
- Connect Fax machine directly to the Vonage device bypassing any home wiring
- If using an All-In-One device temporarily disconnect device from PC

TEST

Monthly Income Deductions for Determining Countable Income	Generally the SSI income counting rules apply with certain exceptions ▪ **Special Income Deduction** All disability based income *does not count* (workmen's compensation, SSA state and private disability income) ▪ $20 from income (earned or unearned) ▪ **Earned Income Deductions** 1) $65 from earnings + any unused portion of the $20 deduct on above 2) Any impairment related work expenses that you pay for yourself (Those no out-of pocket expenses that the applicant need to become or remain employed, like maintenance of a specialized van special clothing attendant care services transportation costs medical devices, work related equipment, residential modifications etc.) 3) half of any remaining earned income. Example Mary receives $1000 a month in SSDI benefits She works 8 days a month and grosses $600 She pays a neighbor $10 per day to drive her to work She cannot use a bus because of her panic attacks Her SSDI does not count. Only $217 50 of her earned income counts ($600 – $20 – $65 = $515 $515 – $80(8 X $10) = $435 ÷ 2 = $217 50) Mary is eligible because her countable income ($217) is well below the $2,167 limit Her monthly premium is $20 (see chart on page 1)
Property Limits	Generally SSI property rules apply ▪ **Property limits** ▪ **Adults** only the property of the applicant and their spouse counts Single adults or one have more than $2000 in *countable* property Married couples cannot have more than $3000 in *countable* property ▪ **Children** only the applicant's property and some of the applicant's parents property counts Applicant cannot have more than $2000 in countable property (A child is defined as someone who is unmarried and not the head of the family and either under age 18 or under age 22 and a student attending school or a vocational training program) ▪ **Exempt property** Applicant's home, clothing one car and certain other things such as items necessary for self-employment (building inventory bank account) or used on the job (tools second car etc). ▪ **Special Property Deduction** Individual retirement accounts (IRA) or other retirement plans (like KEOGH or 401(k) plans) do not count even if the applicant has access.
Special Factors	▪ Except for the special income and property exemptions above, a beneficiary would be eligible for SSI ▪ Beneficiaries may be terminated with a notice of action if they fail to pay premiums for two consecutive months but the county must redetermine their eligibility (under SB 87) ▪ Undocumented immigrants are not eligible. 'Qualified aliens' (lawful permanent residents, refugees, asylees persons granted withholding of deportation conditional entry paroled for at least one year Cuban Haitian entrants, or certain battered spouses and children) are eligible, regardless of their date of entry Immigrants who are permanently residing under color of law (PRUCOL) are eligible only if they are lawfully residing in the U S and receiving SSI on August 22 1996 ▪ People over 65 may also be in this program

Troubleshooting Steps

The steps below will help you resolve common faxing problems

- Switch off fax machine and unplug power adapter from device and from wall outlet.
  - Let fax machine remain off for 60 seconds
- Try a different phone cord between the fax machine and the Vonage device.
- Eliminate any splitters between the fax machine and the Vonage device.
- Connect Fax machine directly to the Vonage device, bypassing any home wiring.
- If using an All-In-One device, temporarily disconnect device from PC

Further Assistance

If you need further assistance using your Vonage Fax Service, we are always available to help

Fums Bo Wo

Features some of the best explorers of sound poetry and general transformers of the spoken word. Is this nonsense? Is it music? Are we serious? Ultimately we don't know but we really enjoy it and this is a fun introduction to a kind of audio art that all too often is alienating. Features, amongst others: the work of Jaap Blonk, Leif Elggren & Thomas Lilfenberg, Christian Bok and Stanley Unwin

Sound-Poetry is a form of art where the human voice is used as an exploratory instrument, and language is subjected to the death of rationality. It can sound powerful and ludicrous, often both at the same time.

One of the main reasons for creating a sound-poetry based episode is that sound poetry is often considered in "avant garde music circles" as something of a sacred cow, and it is completely unacceptable to find amusing the screaming man spluttering saliva and nonsense invective before the microphone. But more fool them squares in the music circles. Bad line that, like a 1980s T shirt.

I have always found sound-poetry and much music that is put under the umbrella of the avant-garde very very funny. It makes me smile and laugh. Sometimes out loud. Sometimes a wry smirk like a disgruntled accountant silently farting in a meeting with the bosses.

One of the principal reasons we wanted to look at this was to convey the much hidden fact that it's alright to laugh at this kind of work. And equally important, that humour in art (or to respond to art with humour whatever the intention of the artist) does not detract whatsoever from the quality of the art.

In fact humour in art can often greatly enhance the quality and accessibility of a production. It is, after all, arguably far more difficult to create something amusing than something deadly serious.

Try both and see it can.

A partial financial hardship is an eligibility requirement for the IBR and PAYE plans. You have a partial financial hardship when the annual amount due on all of your eligible loans (or, if you are also required to provide documentation of your spouse's income, the annual amount due on all of your eligible loans and your spouse's eligible loans) exceeds 10% (for the **PAYE** plan and for new borrowers under the IBR plan) or 15% (for those who are not new borrowers under the IBR plan) of the amount by which your adjusted gross income (AGI) exceeds 150% of the annual poverty guideline amount for your family size and state of residence. The annual amount due is calculated based on the greater of (1) the total amount owed on eligible loans at the time those loans initially entered repayment, or (2) the total amount owed on eligible loans at the time you initially request the PAYE or IBR plan. The annual amount due is calculated using a standard repayment plan with a 10-year repayment period, regardless of loan type. When determining whether you have a partial financial hardship for the PAYE plan, the Department will include any FFEL Program loans that you have into account even though those loans are not eligible to be repaid under the PAYE plan, except for (1) a FFEL Program loan that is in default, (2) a Federal PLUS Loan made to a parent borrower or (3) a Federal Consolidation Loan that repaid a Federal or Direct PLUS Loan made to a parent borrower.

The **standard repayment plan** has a fixed monthly payment amount over a repayment period of up to 10 years for loans other than Direct or Federal Consolidation Loans, or up to 30 years for Direct and Federal Consolidation Loans.

DEFINITIONS FOR THE REPAYE PLAN:

The **Revised Pay As You Earn (REPAYE) plan** is a repayment plan with monthly payments that are generally equal to 10% of your discretionary income, divided by 12.

Discretionary income for the REPAYE plan is the amount by which your adjusted gross income exceeds 150% of the poverty guideline amount for your state of residence and family size. If you are married, your AGI generally includes your spouse's income, regardless of how you file your federal income tax return.

Eligible loans for the REPAYE plan are Direct Loan Program loans other than: (1) a loan that is in default, (2) a Direct PLUS Loan made to a parent borrower, or (3) a Direct Consolidation Loan that repaid a Direct or Federal PLUS Loan made to a parent borrower. FFEL Program Loans, Federal Perkins Loans, HEAL loans, or other health education loans, and private education loans are not eligible to be repaid under the REPAYE plan.

DEFINITIONS FOR THE PAYE PLAN:

The **Pay As You Earn (PAYE) plan** is a repayment plan with monthly payments that are generally equal to 10% of your discretionary income, divided by 12, but will never be more than what you would have paid under the standard repayment plan with a 20-year repayment period based on what you owed when you entered the PAYE plan.

Discretionary income for the PAYE plan is the amount by which your adjusted gross income exceeds 150% of the poverty guideline amount for your state of residence and family size. To initially qualify for PAYE and to continue making payments based on your income under this plan, you must have a partial financial hardship (see definition). If you are married and file a joint federal income tax return, your AGI includes your spouse's income.

Eligible loans for the PAYE plan are Direct Loan Program loans received by a new borrower other than: (1) a loan that is in default, (2) a Direct PLUS Loan made to a parent borrower, or (3) a Direct Consolidation Loan that repaid a Direct or Federal PLUS Loan made to a parent borrower. FFEL Program Loans, Federal Perkins Loans, HEAL loans, or other health education loans, and private education loans are not eligible to be repaid under the PAYE plan.

You are a **new borrower for the PAYE plan** if: (1) you have no outstanding balance on a Direct Loan or FFEL Program loan as of October 1, 2007 or have no outstanding balance on a Direct Loan or FFEL Program loan when you obtain a new loan on or after October 1, 2007; and (2) you receive a disbursement of a Direct Subsidized Loan, Direct Unsubsidized Loan, or a Direct PLUS Loan made to a student borrower on or after October 1, 2011, or you receive a Direct Consolidation Loan based on an applicant received on or after October 1, 2011. However, you are not considered a new borrower if the Direct Consolidation Loan you receive repays loans that would make you ineligible under part (1) of this definition.

Goals

1. Identify exactly what you want, and write it down
2. Spell out why you want to reach that goal
3. List the obstacles that you have to overcome, in order to get there
4. Identify the people, the groups, and the organizations, that you need to work with in order to get there
5. Identify what you need to know to reach your goal
6. Develop a plan of needs to reach the goal
7. Set a date that you plan to get there

Goals Process:

1. You must make commitments to reach your goals
   - A. You need to keep daily detailed accountability
   - B. Each evening evaluate your plans for tomorrow
   - C. Each evening before going to bed, list the six most important things that you have to do tomorrow
   - D. Once a week, look at all the goals that are on your list and evaluate
   - E. Know your time. Become a time miser. Focus on the contribution that you are make

2. To reach your goals, you've got to start with a solid foundation (Honesty, Character, Integrity, loyalty, Trust, Love, and Faith)

3. To reach your goals you must change your vocabulary

4. To reach your goals, you must divide them into a series of small bites. It's a series of small things that determine whether you get there or not

5. Shape up physically, shape up mentally, shape up spiritually

6. If you are going to reach your goals, you have to know how to respond to disappointment. If someone else drops the ball

7. You must discipline yourself

8. When obstacles arise, you change direction are your decision to get there

9. You need to share some goals and not share others

10. To reach your goals, you must become a team player

11. To reach your goals, you can't allow others to put limits on your dreams

12. The distance between winning and being second is very small

13. It's not a good idea to be looking back when you should be looking ahead

14. You need to see the reaching. You need to see yourself as already reaching and achieving your objectives

Don’t use foul or abusive language. Let everything you say be good and helpful, so that your words will be an encouragement to those who hear them. Ephesians 4:29

JUST 27 WORDS

GOD OUR FATHER,
WALK THROUGH MY HOUSE
AND TAKE AWAY ALL MY WORRIES AND ILLNESSES;
AND PLEASE WATCH OVER AND HEAL MY FAMILY
IN JESUS ' NAME.. AMEN

This prayer is so powerful.
Pass this prayer to all your friends.

Video provides a powerful way to help you prove your point. When you click Online Video, you can paste in the embed code for the video you want to add. You can also type a keyword to search online for the video that best fits your document.

To make your document look professionally produced, Word provides header, footer, cover page, and text box designs that complement each other. For example, you can add a matching cover page, header, and sidebar. Click Insert and then choose the elements you want from the different galleries.

Themes and styles also help keep your document coordinated. When you click Design and choose a new Theme, the pictures, charts, and SmartArt graphics change to match your new theme. When you apply styles, your headings change to match the new theme.

Save time in Word with new buttons that show up where you need them. To change the way a picture fits in your document, click it and a button for layout options appears next to it. When you work on a table, click where you want to add a row or a column, and then click the plus sign.

Reading is easier, too. In the new Reading view, you can collapse parts of the document and focus on the text you want. If you need to stop reading before you reach the end, Word remembers where you left off - even on another device.

13321 North Outer Forty Road - Suite 700 - Chesterfield MO 63017 - 636-532-4244

Question: I'm scanning into my old XP pc (its all I have left with a modem!) to fax but a lot of my faxes appear on faxtoy as illegible -- broken up text etc. The text is small to begin with and the scans look ok on my pc before sending but this is not a problem when sending from standalone fax machines.

I'm scanning at 200 dpi bw to tiff. Can you recommend a more optimum setting for fax scanning?

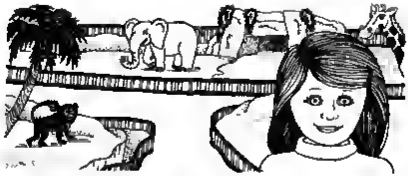
Untitled

just checking my fax machine

hope it works!!

Hello World!

FAX
TEST
PAGE



Birthday at the Zoo

It was Sunday.
I got out of bed and went to eat.
Mom said, "Today is your birthday, Pat. What do you want to do?"
I wanted a party but I did not tell Mom.
I said, "I just want to play."
Mom said, "Come take a ride with me."
I got in the car and soon we were in the city.
The car stopped. We got out.
We walked past some trees and I saw a sign that said "City Zoo."
All my friends were at the gate.
I was all smiles. Mom had planned a party for me.
It was the best birthday ever.

Some conservatives are already trying to pop the Paul Ryan-for-speaker boomlet

For some conservatives, Rep. Paul Ryan (R-Wisconsin) isn't the savior they're looking for to end the House GOP's gridlock.

A wide swath of Republicans are urging Ryan to run to replace outgoing House Speaker John Boehner (R-Ohio) after his heir apparent stunned Washington on Thursday by ending his own bid for the job.

Everyone from Boehner himself to 2012 Republican presidential nominee Mitt Romney, with whom Ryan ran as his vice-presidential pick, is reportedly urging Ryan to step up.

Ryan initially refused to even consider the possibility but is now apparently mulling it over.

But some Boehner antagonists are letting it be known that Ryan, the chairman of the powerful Ways and Means Committee, is not their ideal alternative.

The Hill documented some of this dissent on Friday.

Rep. Tim Huelskamp (R-Kansas) criticized one of Ryan's biggest legislative achievements, a budget agreement he once reached with Sen. Patty Murray (D-Washington), then the chair of the Senate Budget Committee.

Rep. John Fleming (R-Louisiana) insisted that Ryan is more of a speaker contender in the minds of the media than in the legislative chamber itself.

"I think that's more media-driven. I think that's you guys who keep talking about Paul Ryan," Fleming told The Hill. "Paul has made it clear he's not interested."

Some conservative news websites also criticized Ryan's conservative credentials. Breitbart News ran a pair of stories Friday titled "FLASHBACK: Paul Ryan Worked For John Boehner In College" and "Rep. Paul Ryan Backed Soviet-Style Law To Decide Workers' Wages." The Conservative Review published a piece titled, "Paul Ryan is the Absolute Worst Choice for Speaker."

And RedState's Erick Erickson warned that Ryan would be a "dangerous pick" for conservatives.

"In a world of modern media, Ryan would make an attractive Speaker with a young, fresh face and a comfortable demeanor in front of the camera. But he would make it very difficult for House conservatives because to oppose Ryan is, in the minds of much of the press, to oppose conservatism itself," Erickson wrote while detailing Ryan's work with establishment-oriented Republicans.

"That's not true. But that story line is already baked in."

Others conservatives aren't as critical. Rep. Justin Amash (R-Michigan), part of his chamber's right flank, told The Hill that Ryan would be better than either Boehner or House Majority Leader Kevin McCarthy (R-California), who shocked Washington by withdrawing his speaker bid on Thursday.

"I think that Paul Ryan would be a more acceptable candidate than the current leadership team primarily because he is not in the current leadership team," Amash said. "And I believe he'd provide a different approach."

It woiks, it woiks!!!!

USE YOUR SmartSet® CLOCK RADIO? READ THIS!
2. The clock will automatically set the time, month, date and day correctly for the Eastern Time Zone (Zone 7).
3. If you live in different time zone, hold the TIME ZONE button and press either the "CHIME" or "UP" button to select your own zone number, as follows:

Zone 1 Alaska Time	Zone 6 Central Time
Zone 2 Hawaiian Time	Zone 5 Eastern Time
Zone 4 Yukon (Canada)	Zone 7 Atlantic Time

When the correct time zone number appears in the display, release the buttons and the correct time, month, date and day are stored.

To fully utilize your SmartSet® Clock Radio, please read the owner's manual carefully.

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere.

Bishop of Trenton

#4 15

136 Celine

CELINE DION LYRICS

"O Holy Night"

O Holy night, the stars are brightly shining
It is the night of our dear Savior's birth
Long lay the world in sin and error pining
Til He appeared and the soul felt its worth
A thrill of hope the weary world rejoyces
For yonder breaks a new and glorious morn
Fall on your knees

O hear the angel voices
O night divine!
O night when Christ was born
O night divine!
O night, O night divine!

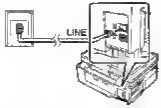
LEAD
~~And in His Name, all oppression shall cease~~
Sweet hymns of joy in grateful chorus raise we
Let all within us praise his holy name
Christ is the Lord!
Their name forever praise we

Noel, Noel
O night O night Divine
Noel Noel

Fall

6 Connect the phone cord

To fax, connect the included phone cord to a telephone wall jack and to the **LINE** port on your product. To connect a telephone or answering machine, see the *Quick Guide*.



Note: If you're connecting to a DSL phone line, you must use a DSL filter or you won't be able to fax. Contact your DSL provider for the necessary filter.

7 Choose your connection

You can connect your printer to your existing network (**wireless** or **wired**) or **directly** to your computer using a USB cable (not included). See below for details on each connection method.

Wireless Connection

You must install the software on every computer from which you want to print. For the first installation, we recommend using a USB cable (not included) to simplify wireless setup. After the printer is connected to the network, you will be prompted to remove the cable.

If you do using Mac OS® X 10.6 or don't have a USB cable you will need to use the buttons on the printer to select wireless settings.

Make sure you know your **network name** (SSID) and network password:

- Network name: _____
- Network password: _____

If you don't have the information, contact the person who set up your network.

Direct USB Connection

Make sure you have a USB cable (not included). Do not connect the printer to your computer until you're instructed to do so.

Wired Ethernet Connection

Make sure you have an Ethernet network cable (not included). You must install the software on every computer from which you want to print.

8 Install software

1 Make sure the printer is **NOT CONNECTED** to your computer.

Windows: If you see a **Found New Hardware** screen, click **Cancel** and disconnect the USB cable. You can't install your software that way.

2 Insert your product CD.

Windows: If you see the **AutoPlay** window, click **Run Setup.exe**. If you see the **User Account Control** screen, click **Yes** or **Continue**.

3 **Mac users:** Double-click the **Epson** icon.

4 Click **Install** and follow the on-screen instructions.

Any questions?

Quick Guide

See instructions for network setup, copying, printing, faxing and scanning.

On screen help with your printer

Select **Help** or **?** when you're using your software.

Who's The Boss?

The boss complained in a staff meeting that he didn't get any respect.

The next morning he taped a small sign to his door that read, "I'm The Boss."

When he returned from lunch, he found that someone had stuck a Post-It onto his new sign:

"Your wife called. She wants her sign back!"

There's just no getting around it. Everyone, no matter how important, has a boss.

What is Zoomitz?

Zoomitz is an easy way for Hematologists and Oncologists to take simple healthcare surveys right on their smartphone, tablet or computer.

What kind of surveys?

We will periodically survey you on how you treat your patients.

Why should I participate?

Zoomitz is a great way for you to share your expertise and earn honoraria.

I'M BUSY
Why is this worth my time?

Our surveys are specifically designed to fit into the busy schedule of physicians. Each survey only takes 10-15 minutes to complete and easy to understand.

Also through our partnership with Alliance charity organization Watsi, you can donate part of your honoraria to patients in need from developing countries. This transforms a simple survey into an opportunity to fund medical care. Visit www.zoomitz.com/watsi for more information.

Sounds interesting. How do I get started?

It's as easy as two steps.

1. Go to www.zoomitz.com/download to download the app!
2. Enter the activation code.

SFVNYO

Voila! You are now a part of Zoomitz!

PLEASE DO NOT PUT YOUR GARBAGE ON THE FLOOR !!!

PUT IT INSIDE THE CHUTE.

BRING BIG BOXES OUTSIDE IN THE BIG BROWN GARBAGE BIN.

FLOODING WOES UNITE RESIDENTS PLAINS AND WILKES-BARRE TOWNSHIP CITIZENS CLAIM THE JADE HILLS DEVELOPMENT CAUSING WATER WOES

Times Leader, The (Wilkes Barre PA) Friday December 15 2006

Author: STEVE MOCARSKY smocarsky@timesleader.com

After passing a balanced budget and taking care of other regular business township commissioners on Thursday heard from residents of a neighboring township and their own residents about flooding problems associated with storm water

Homeowners from the Summit Place and Wilkeswood developments in Wilkes-Barre Township blamed flooding problems they have been experiencing mostly on infrastructure problems at the Jade Hills development in Plains Township

A February inspection by the Luzerne Conservation District at Jade Hills found three incomplete detention basins and an erosion problem violations of the state's Clean Streams Law

"We were flooded in June with 3 1/2 inches of water I got 3 1/2 to 4 inches of water in my yard every time it rains and it is all coming from Jade Hills " said Rose Watkins of Summit Place

Debby Harhay president of Summit Place Home Owners Association said development there was completed in 1978 and residents never had a water problem until Jade Hills was built

Solicitor Stephen A. Menn acknowledged problems at Jade Hill But he said it's the commissioners position that Jade Hill while probably a contributor to the storm water problem is not the entire cause despite what you may have been told by other people "

Wilkes-Barre Township Manager Michael Revitt who said he was speaking on behalf of township residents with flooding damage said it appears that a retention pond for Jade Hills is not functioning properly and some curbing around it has been cut away Resulting storm-water flow has turned Coal Brook Creek into something that looks like the Lehigh River "

Revitt suggested officials from both townships and the engineer they share Pesenteli Engineering – try to see what could be done to rectify the problem

Commissioner Chairman Ronald Filippini agreed noting that Thursday was the first time anyone from Wilkes-Barre Township contacted the commissioners about flooding problems there

Commissioners also said they would address flooding concerns raised by residents of Thomas Street and Briar Creek Road in Plains Township, and by a representative from InterMetro Industries

In other business commissioners hired Kevin Brennan and Jason Zielkowski as full-time police officers and appointed township Emergency Management Agency director Charles Kemmies on temporary fire captain/fire inspector

answers to your questions about faxing

« How to Stop a Calls from a Fax Machine?
How to Fix Vertical Stripe On Faxes I Send »

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Try Fax.com Free

Get an internet fax number that sends and receives faxes online

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one page fax to 1 855-330 1239 (a toll free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

H: how it going?

The request for him to take a leave and Ford's admission that he had purchased drugs while serving as mayor were just two key moments in a council meeting that also saw a separate petition presented that said the mayor should take a break from his job.

Ford took questions from councillors, including some pointed ones from Minnan-Wong, about the mayor's views on drugs and crime.

"Do you have zero tolerance of guns, drugs and gangs?" Minnan-Wong asked Ford on Wednesday morning.

The mayor said he does. Minnan-Wong then asked: "Have you purchased illegal drugs in the past two years?"

After a long pause, Ford replied, "Yes I have."

"I'm humiliated by it, but I can't change the past," said Ford. "All I can do is move on and that's what I'm doing."

At one point during Wednesday's council meeting, Coun. Giorgio Mammoliti floated the idea of having drug testing for all members of council.

The mayor later unsuccessfully attempted to move a motion demanding that his colleagues be tested.

Mayor accused of 'moving in threatening way'

It was just one of many dramatic moments during the morning session. Things had become heated earlier when Minnan-Wong alleged Ford stood in front of him in "a threatening way" as debate on the motion got underway.

The councillor asked for an apology. Heckling and shouting ensued, prompting the chair to call a five-minute recess.

After the recess, Speaker Frances Nunziata asked Ford to apologize. Ford refused. Insisting he had merely asked the councillor to take his seat.

"I did not threaten him in any shape or form," said Ford. "He knows that. I asked him to take his seat. I have nothing to apologize for."

After that exchange, councillors used the debate to ask Ford about his behaviour, hammering him with questions about his admitted use of crack cocaine and his drinking. Ford continued to deny he is an addict and side-stepped questions about whether he will seek professional help.

Ford indicated he would take time off, most, a few days off during the holiday season. Ford has defied all calls to take a break from his job, despite his crack use and other high-profile "mistakes," some of them alcohol related.

NUANCE

Welcome to Dragon NaturallySpeaking 11.5

For the latest User's Guide and other resources, please see
http://support.nuance.com/users/guides

The User's Guide is also available on your installation disk in the directory:
\Documentation\enu\User Guide.pdf

INSTALLING AND ACTIVATING DRAGON

Exit any open applications. (If you're running an anti-virus program, turn it off until after the installation completes.) Note: There can only be one version of Dragon installed on your computer at a time.

1) Put the Dragon DVD into your DVD drive and follow the on-screen prompts.
2) Enter the serial number that is printed on the DVD sleeve.
3) Choose a Setup type. We recommend **"Typical/Complete."** Click **Next**.
4) Continue to click **Next**, taking all the recommended options.

To start Dragon, double-click its desktop icon.

When prompted to activate your software, first click **"Activate Now"** and then **"Activate Automatically."** You must be connected to the Internet to activate automatically. For details see
http://support.nuance.com/productactivation

CREATING OR UPGRADING A USER PROFILE

IF YOU ARE NEW TO DRAGON

The first time you start Dragon, a series of screens will walk you through the process of creating the best possible User Profile for your situation. Don't rush through it. It's very important, since it will influence your initial accuracy!

One of the screens will offer to perform a basic personalization of the vocabulary based on your email and documents to help Dragon prepare

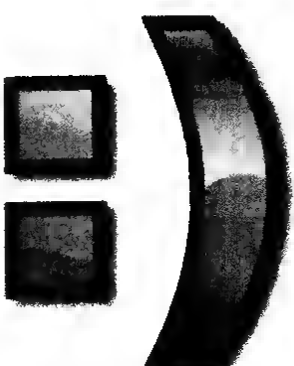
FAX!!!



Hello World!

TEST

* The Light Came On!

Recently a customer called thinking that the alarm system was causing phone line access problems with her computer. She could not get online before the sun came up or after it went down. The phone company had been out said all was OK - a technician ran a new line to the office which ran trouble free for a couple hours. She was at wits end. I went out to investigate. I made all the necessary checks and found absolutely nothing irregular. While preparing to leave I kept discussing the various scenarios of the problem and I commented that the problem seemed to be following an automatic timer of sorts.

Bingo! the light came on... She said they had installed an energy saving fluorescent lamp on a photocell for the front entry about the time the problem started. After checking we found that when the lamp came on it caused the interference that prevented her getting and/or staying online.

Fluorescent lamps are known for generating signal noises, but I have never seen a case to this extent. *This is a classic example of how important it is for a problem solver and a client to be able to communicate.*

TEST
FA+

The New York Times

November 8, 2006

Recipe: No-Knead Bread

Adapted from Jim Lahey, Sullivan Street Bakery
Time: About 1½ hours, plus 14 to 20 hours' rising

3 cups all-purpose or bread flour, more for dusting
¼ teaspoon instant yeast
1¼ teaspoons salt
Cornmeal or wheat bran as needed

1. In a large bowl, combine flour, yeast and salt. Add 1 5/8 cups water, and stir until blended; dough will be shaggy and sticky. Cover bowl with plastic wrap. Let dough rest at least 12 hours, preferably about 18, at warm room temperature, about 70 degrees. to 24

2. Dough is ready when its surface is dotted with bubbles. Lightly flour a work surface and place dough on it; sprinkle it with a little more flour and fold it over on itself once or twice. Cover loosely with plastic wrap and let rest about 15 minutes.

3. Using just enough flour to keep dough from sticking to work surface or to your fingers, gently and quickly shape dough into a ball. Generously coat a cotton towel (not terry cloth) with flour, wheat bran or cornmeal; put dough seam side down on towel and dust with more flour, bran or cornmeal. Cover with another cotton towel and let rise for about 2 hours. When it is ready, dough will be more than double in size and will not readily spring back when poked with a finger. Do not poke.

4. At least a half-hour before dough is ready, heat oven to 450 degrees. Put a 6- to 8-quart heavy covered pot (cast iron, enamel, Pyrex or ceramic) in oven as it heats. When dough is ready, carefully remove pot from oven. Slide your hand under towel and turn dough over into pot, seam side up, it may look like a mess, but that is O.K. Shake pan once or twice if dough is unevenly distributed; it will straighten out as it bakes. Cover with lid and bake 30 minutes, then remove lid and bake another 15 to 30 minutes, until loaf is beautifully browned. Cool on a rack.

Yield: One 1½ pound loaf

This a test fax from JIVE Customer Service

If you have any questions you can contact us at 801-737-1556 opt 1
or email us at cust(one) care@getjive.com

As 2012 is wrapping up and reflecting upon the events of the last year, I can't help but think how blessed our family had been. Don changed jobs two times with Intuit and was still awarded as a top producer receiving a no-expenses-spared trip to New Orleans for the both of us which happened to fall on my 50th birthday. Corinne graduated from high school, among the top of her class and just completed her first semester at Colorado School of Mines. She lifeguards at the campus pool and is proud to be an Alpha Phi. I was fortunate to spend quality time with my mother who passed in April and juggle my real estate business around my trips. In September, I went to Asteria to celebrate our 50th birthdays with girlfriends I have known from grade school. It was fabulous spending time with such an amazing group of women.

Don's parents are doing well, but are unable to travel to Colorado so we do not see them as much as we would like to. Merv/Desmond/Butch has officially retired from flying. Phil and Anne are still busy with school, careers and traveling. My Dad and Ann have adopted a wild horse. They're busy all the time. Eric has a new position at Microsoft (still with their phone) and doesn't travel to China so he is happy spending more time with Lynda and Rohr. Rohr is 13 now and probably the tallest Hautala! Jim came out to visit in November, sandwiching Denver around his New Mexico trip. We got to see the Vincent Van Gogh exhibit, play some cribbage and tackle some of my home repair projects.

I hope everyone finds the time to enjoy a moment of love and laughter with their family and friends.

Big hugs! Ann

As 2012 is wrapping up and reflecting upon the events of the last year, I can't help but think how blessed our family had been. Don changed jobs two times with Intuit and was still awarded as a top producer receiving a no-expenses-spared trip to New Orleans for the both of us which happened to fall on my 50th birthday. Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1 888 877 1655 (a toll-free number in the United States). When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

TRANSCRIPT INFORMATION

The Pasadena Independent School District Student Services Department retains copies of high school transcripts dating back to courses/work completed. We do not keep copies of diplomas.

Transcript Processing – Due to the tremendous volume of transcript requests received daily, it is impossible to process a transcript request immediately. All transcripts are processed within 24 to 48 hours of receipt of the request. They are processed in order of receipt.

Official vs. Non-Official Transcripts – Texas Education Agency ("A transcript copy should be marked or stamped Official Copy only if the transcript is authorized release from the school district directly to another institution or student-approved recipient, excluding parents/guardians. Official transcripts must be sent directly to other institutions.

Any transcript given directly to an individual for personal use is considered an unofficial transcript.

Third Party Distribution – Written permission, with a photo identification attached, must be received in order for a third party, to pick up a copy of an unofficial transcript.

Transcript Requests – To request a copy of your high school, a limited printable form is provided below. The completed form can either be dropped off at the office of Student Services or mailed to the address below.

Transcript Fee – $3 per transcript requested, payable in cash or money order

Mailing Address – All transcript requests should be mailed to:
Pasadena Independent School District
Attention: Student Services
1515 Cherrybrook Ln.
Pasadena, Texas 77502

Additional Information – If you have any questions regarding transcripts, contact the office of Student Services at 713-740-0000.

БОРОДИНО

«Скажи-ка, дядя, ведь не даром
Москва, спаленная пожаром
Французу отдана?
Ведь были ж схватки боевые?
Да, говорят, еще какие!
Не даром помнит вся Россия
Про день Бородина!»

— Да, были люди в наше время,
Не то, что нынешнее племя
Богатыри — не мы!
Плохая им досталась доля
Немногие вернулись с поля —
Не будь на то господня воля,
Не отдали б Москвы!

LETTER OF AUTHORIZATION

1 **Customer Name** (your name should appear **EXACTLY** as it does on your local telephone bill.)

First Name:_____ Last Name: _____

Business Name (required only if phone account is in your Company's Name): _____

2 **Service Address** (primary address where the telephone service(s) is/are located. Not Post Office Boxes)

Address:_____ City:_____ State:_____ Zip Code:_____

3 **Billing Address** (if different from your service address, should appear **EXACTLY** as it does on your local telephone bill)

Address:_____ City:_____ State:_____ Zip Code:_____

4 List below all Telephone Number(s) for which you authorize change from your current phone service provider to Comtel Connect, LLC. Please note that your telephone and/or associated service(s) will be changed to Comtel Connect.

Telephone Number(s) (use all numbers to be ported)	Current Service Provider
_____	_____

* Billing Telephone Number (BTN): _____
(BTN BILL TO # to be provided if number(s) to be ported is a Business Account)

☐ *Check this box, if you have additional numbers on your Business Account that you do NOT want ported.*

5 If the number(s) to be ported is a mobile number, please provide the following information:

Mobile Number _____ Mobile Account Number:_____

VERIFICATION - PLEASE READ BEFORE SIGNING BELOW

By signing below, I verify that I am (or represent) the Customer(s), the above-named local service customer authorized to change the primary carrier(s) for the telephone number(s) listed and am at least 18 years of age. The name and address I have provided is the name and address on record with my local telephone company for each telephone number listed. I warrant that the address that I have provided above is the address where I will be using this service. I authorize and designate Comtel Connect to act as my agent and notify my current carrier(s) to change my preferred carrier(s) for the listed number(s), to obtain any information Comtel Connect deems necessary to make the carrier change(s), including, for example, an inventory of telephone lines billed to the telephone number(s), carrier or customer identifying information, billing addresses, and any of the features I am/they are receiving. I further understand that after this process is completed my telephone and/or associated service(s) will be changed to Comtel Connect as indicated above.

I understand that I am authorizing change(s) of my primary carrier(s) for my telephone and/or associated service(s), and that I may select only one primary carrier per service, per number. I understand that my local telephone company may bill me a one-time charge for requested service change(s) for each telephone number.

8 TRUNKS TO THE OUTSIDE WORLD

Making and receiving calls between internal extensions is one thing but a telephony installation isn't really an installation if you can't receive and make calls to the outside worlds.

To be able to do these, you will need at least one trunk in the outside world.

This is a simplified guide to give the budding Elastix users some understanding in setting up Trunks.

Points to keep in mind.

Beware!!! *If you are using an ATA please allow for what the ATA will be sending to asterisk when you are preparing you rules and patterns. If you want asterisk to take care of all the rules, it is best to ensure that your ATA is sending exactly what you dialled to Asterisk – just delete your dialling rule from your ATA and replace it with (*'*'x.|xx.)*

8.1 WHAT IS A DIAL PATTERN?

Dial patterns are part of Outbound Routing. They act like a filter for matching numbers dialled with trunks.

The various patterns you can enter are similar to Asterisk's definition of them.

- **X** — Refers to any digit between 0 and 9
- **N** — Refers to any digit between 2 and 9
- **Z** — Any digit that is not zero (E.g. 1 to 9)
- **[Various]** — Match **only a** single character that matches any of the one in the square brackets (E.g. [02-68*#] would match 0, any number between 2 and 6 inclusive, 8, * and #. Or another way of saying this would be: Match * or # or a number that isn't 1 7 or 9) – ***Avoid using this notation in your Trunk Dial Rule as it does not seem to work. Use this only in your Outgoing Route Dial Pattern.***
- **.** — Wildcard. Match any number of anything. Must match something*
- **|** — This lets you use a "0 to dial out" (or "9" in the US) by matching anything before the line, **but not sending it to the trunk.**

8.2 WHAT IS A TRUNK?

A trunk is the telephony service line that you will be using to make an external call on, e.g. the Telstra telephone line that you have at home is a trunk (or it can be used as a trunk if you wish but not necessarily so). A VOIP service provider (VSP) that you have signed up with is also a trunk.

If you have paid for VOIP service to enabled you to make calls out through PSTN you can use this as a trunk for that purpose otherwise you can only use it for making calls using VOIP between subscribers of the VSP only (unless there are peering arrangements with other VSPs)

You can have several trunks if you want to. You can have Telstra and/or Optus telephone lines and use them as trunks and you can also have a few VSPs that you subscribed to as additional trunks.

Department of Consumer Affairs

Debt Collection: Money Judgments and Frozen Bank Accounts

Information for Consumers

Debt collection was the #1 complaint category for the Department of Consumer Affairs (DCA) in 2008, with complaint volume increasing nearly 70% compared to 2007. Although DCA can mediate many of the complaints we receive, we cannot mediate issues that involve money judgments and frozen bank accounts. To help you protect yourself—and your money—DCA created this fact sheet, which includes where to turn when you need assistance.

Money Judgments

What is a money judgment?
If a person or company (known as the "creditor") sues you, claiming that you owe a certain amount of money, and the judge decides in the creditor's favor, the judge awards a "money judgment." The creditor has a right to try to collect that money from you or "satisfy the judgment." If a creditor has a money judgment against you, that creditor may try to take money directly from your bank account to pay off the debt.

If I have a money judgment against me, what happens to the money in my bank account?
One way a creditor can try to collect on a money judgment is to serve legal papers to the bank or credit union requiring it to restrain or "freeze" a consumer's bank account. This allows a creditor to take money directly from the account.

Can a creditor take all of my money to satisfy a money judgment?
In New York State, as of January 1, 2009, even if a creditor has a judgment against you, the creditor cannot take, restrain or freeze all of the money in your account—*no matter how much you owe*.

Exempt Funds

Under State and Federal law, certain money may *never* be taken by creditors to satisfy money judgments. (See *Are there exceptions to the Exempt Income Protection Act?*) This money is considered "exempt funds." You may choose to use exempt funds to pay a debt you owe, but a creditor cannot freeze or forcibly take those funds from you or your bank account to pay off a debt.

Exempt funds include the following:

- ✓ Supplemental Security Income (SSI)
- ✓ Social Security retirement
- ✓ Social Security Disability (SSD)
- ✓ Public assistance (Temporary Assistance for Needy Families, TANF)
- ✓ Income earned while receiving SSI or public assistance
- ✓ Disability benefits
- ✓ Workers' compensation benefits
- ✓ Veterans' benefits
- ✓ Black lung benefits
- ✓ Spousal support, maintenance (alimony), or child support
- ✓ Railroad retirement
- ✓ Unemployment benefits

- ✓ **Wages.** Ninety percent (90%) of your wages earned during the past 60 days are exempt if you need them for basic needs such as shelter (rent or mortgage), food and medicine. This means that if you earn $500 per week, up to $3,600 would be exempt from an account freeze, if you need that money for essential expenses like rent or mortgage, food or medicine.

- ✓ **Most public or private pensions.** Public or private pensions are usually exempt from collection.

Exempt Income Protection Act of 2008

On Jan a new law effective January 1, 2009—the Exempt Income Protection Act of 2008—some money held in bank accounts is protected to ensure that consumers have sufficient funds available to meet their basic needs, such as rent, food and medicine.

UNIVERSAL LARGE HUTCH

PRE-ASSEMBLY:

- Please read all instruction before beginning assembly. The illustrations provided allow for easier assembly when used in conjunction with the assembly instructions.
- Remove all parts and hardware from box and lay out on a carpeted or soft surface. We work to make sure that will prevent damaging any parts during assembly. The shipping box provides an ideal work surface. Do not dispose of any contents until assembly is completed to avoid accidentally discarding small parts or hardware.
- For your safety and ease, adult assembly by two people is recommended.
- Save all packing materials until assembly is complete to avoid accidentally discarding smaller parts or hardware.
- Use the parts and hardware lists to identify and separate each of the pieces included prior to starting assembly.
- Note: Do not fully tighten all bolts until all parts are in place. Failure to follow these instructions may cause the bolts to strip or begin cross threading.
- If using power tools to aid in assembly please use caution. Power tools can damage hardware, or split wood.

PARTS INCLUDED

(A) Top Panel- 1pc
(B) Left Side Panel – 1pc

Interpage INTERPAGE NETWORK SERVICES INC.

Phone: +1 (510) 315 2750 • Fax +1 (650) 292 1600 • www.interpage.net

Hello!

This is a sample test file which is being sent to you as per your request via the Interpage FreeFax(sm) Service!

This service is intended to provide a preliminary evaluation as to the quality and timeliness of Interpage's subscription fax service(s).

If you review the cover sheet which was transmitted with this fax, you will note the first letter of the name you had indicated in the TO: field of the FreeFax request page. This letter serves to correlate the fax request which you had sent with this trial fax transmission result.

This file is a sample MS Word file; many other file types are supported.

If you have any questions regarding Interpage's OutFax(sm) Service, including the FaxUnlimited(sm) service with no-per or per-minute charges, please feel free to contact us at:

Phone. +1 (510) 315 2750 9AM to 5.30 PM M-F Pacific Time

E-Mail insl-support@interpage.net

Web. http://www.interpage.net

Thank you for your interest!

Notes: 1. Due to the malicious use of the FreeFax service, Interpage will no longer transmit personalized text messages, only the above fixed sample message will be transmitted. You may establish a trial account for evaluative purposes by filling out the form located at *http://www.interpage.net/toll-fax-trial.html*, entering any billing information, and clearly indicating a valid e-mail address and contact telephone number. Please call (510) 315-2750 for additional details.

2. This fax is not a solicitation nor is it an offer. It was sent by a visitor to Interpage's web site who entered your destination number as a recipient of this test fax. As right destinations may not receive more than two tests in a given week, however, if you find that someone is sending you faxes in a continuous and abusive manner, please call us at (510) 315-2750 and we will block your fax number from the FreeFax service.

Rules and Regulations

1. **Applications**
   Applications shall be made on official District forms available at the Civic Center Office at 400 E. James Road, Thousand Oaks or online at www.conejousd.org
   Applications shall be submitted at least two weeks in advance of the desired date of use.
   All organizations or groups seeking use of the school premises must designate an individual who shall be held responsible for the group or organization and for the signing of the application.
   Applications will be denied if past history of use by organization or similar use has resulted in violation of these rules, noncompliance for school use, unpaid District invoices, or unpaid costs for damages.
2. **Open to the Public**
   All meetings under the Civic Center Act shall be open to the general public.
3. **No Monopoly**
   No use shall be granted in such a manner as to constitute a monopoly for benefit on any private or organization.
4. **Interference with Educational Programs**
   Permission to use facilities may be granted only when the property is not needed for educational purposes. A permit may be cancelled whenever a need for the facilities for educational purposes arises after issuance of a permit. No use shall be inconsistent with the use of the buildings or grounds for school purposes, or interfere with the regular conduct of school work.
5. **Scheduling**
   Use of any facilities will be scheduled only after they are available on a first-come first-served basis.
6. **One Year Limit**
   No privilege of using school facilities shall be granted for a period exceeding one year. All permits expire at the end of June of each year or earlier depending upon the validity date and expiration of the organization's insurance.
7. **Closing Time**
   Facilities shall not be used later than 10:30 PM except upon special permission of the Assistant Superintendent, Business Services.
8. **Charges**
   All charges for use of facilities shall be remitted to the District's Business Office prior to use of the facilities.
9. **Custodian Assignment**
   The District shall assign a Custodian to open and close the buildings and grounds, and who shall have the power of a peace officer in enforce regulations, prevent disturbances. School facilities shall be under the direct charge of the Custodian assigned and shall be under the general supervision of the Principal of the school.
10. **Kitchen Facilities**
    A member of the District cafeteria staff must be present. Kitchen equipment is to be used unless requirement waived by Business manager.
    Kitchen facilities are available only after 6:00 PM on days school is in session.
    Serving of beverages only in which no cafeteria equipment, utensils, or supplies are used, need not have a cafeteria employee present.
11. **Special Equipment**
    Electric stoves and ovens: use of any other District equipment requires the approval of the building Principal and must be operated by a District employee.
12. **Protection of Facilities**
    All permits will be issued for specific rooms and for specific hours. It shall be the responsibility of the permittee using the building to see that the unauthorized portions of the building are not used by its attendees.
13. **Open Meeting**
    Immediately following the opening of the meeting, a statement shall be read in writing open to attendance that the Board of Education, prior connecting the meeting to it, neither approving nor disapproving what is to be said at the meeting and also informing them as to the nature of the organization holding the meeting and the purpose for which the meeting is held.
14. **No Violation of Law**
    No activity shall be conducted which constitutes a violation of any federal, state, or local law.
15. **Profanity, etc.**
    The use of profanity, possession or use of intoxicating liquors, drugs or narcotics, quarreling or fighting, betting or other forms of gambling, conducting a raffle or lottery are prohibited and shall be enforced by the permittee.
16. **Safety Regulations**
    The user at all times during the use and occupancy of the premises shall thoroughly comply with all ordinances, laws and regulations affecting the use and occupancy thereof, including all state and local fire, health, and safety laws, ordinances, and regulations. User agrees to enforce "No Smoking" rules within any building, also on any other place if such a place is posted against smoking.
    Lighted candles and any devices having any form of open flame are prohibited; any material or device which constitutes a fire hazard is expressly prohibited.
17. **Gym Floor**
    No person wearing street shoes of any type shall be permitted to walk on the gym floor when participating in basketball, volleyball, badminton, and similar types of activities.
18. **Erection of Structures, etc.**
    No structures may be erected or assembled on school premises, nor may any electrical, mechanical or other equipment be brought thereon unless authorized.
19. **Damages**
    All set out property shall be left in the same order, condition and degree of cleanliness as existed at the time of entry. Any organization or group using school facilities shall reimburse the District the actual cost of repair or replacement due to any damage to facilities or equipment associated with the use of the facilities.
20. **Gratuities**
    No money shall be paid to any school employee in the form of a "tip" or "gratuity".
21. **Neighbors**
    All groups are responsible to ensure that their participants and spectators protect the privacy of residents adjacent to facilities and play fields. Activities of any type that disturb or cause adverse annoyance to neighbors are prohibited.

Failure to comply with District Rules and Regulations may result in the denial of future use of school facilities.

MEDICATION GUIDE

Gabapentin Capsules, USP

(gab" a pen' tin)

Read the Medication Guide before you start taking gabapentin capsules and each time you get a refill. There may be new information. This information does not take the place of talking to your healthcare provider about your medical condition or treatment.

What is the most important information I should know about gabapentin capsules?

Do not stop taking gabapentin capsules without first talking to your healthcare provider.

Stopping gabapentin capsules suddenly can cause serious problems.

Gabapentin capsules can cause serious side effects including:

1. Suicidal Thoughts. Like other antiepileptic drugs, gabapentin capsules may cause suicidal thoughts or actions in a very small number of people, about 1 in 500.

Call a healthcare provider right away if you have any of these symptoms, especially if they are new, worse, or worry you:

- thoughts about suicide or dying
- attempts to commit suicide
- new or worse depression
- new or worse anxiety
- feeling agitated or restless
- panic attacks
- trouble sleeping (insomnia)
- new or worse irritability
- acting aggressive, being angry, or violent
- acting on dangerous impulses
- an extreme increase in activity and talking (mania)
- other unusual changes in behavior or mood

How can I watch for early symptoms of suicidal thoughts and actions?

- Pay attention to any changes, especially sudden changes, in mood, behaviors, thoughts, or feelings.
- Keep all follow-up visits with your healthcare provider as scheduled.

Call your healthcare provider between visits as needed, especially if you are worried about symptoms.

Do not stop taking gabapentin capsules without first talking to a healthcare provider.

- Stopping gabapentin capsules suddenly can cause serious problems. Stopping a seizure medicine suddenly in a patient who has epilepsy can cause seizures that will not stop (status epilepticus).
- Suicidal thoughts or actions can be caused by things other than medicines. If you have suicidal thoughts or actions, your healthcare provider may check for other causes.

2. Changes in behavior and thinking. Using gabapentin capsules in children 3 to 12 years of age can cause emotional changes, aggressive behavior, problems with concentration, restlessness, changes in school performance, and hyperactivity.

Fish my Mind up and I am by the best Vacations on Lac Seul

Our Fishing Boats

Northern Pike
VIP Fishing Boat $510/week Alumacraft Classic Camp 165
Muskie
Walleye
Smallmouth Bass
Fishing Limited Availability: We only have 4 VIP Fishing boats so please
reserve when you reserve your basecabin.
Map of Lac Seul

These are great boats and our customers love them. They are fast and
stable so you can safely fish standing up and safely get back to the
Floating mainland if the weather gets rough. This is especially nice when you
Family like standing on a big Muskie spot year per-person is standing on the
Juices same side of the boat. We don't have to worry about tipping and
losing your balance.

Hooks Keepers equipped with personal storage compartments, rod holders
Anchors and bait well. They have electric lights and electric bilge
Lines there are very comfortable pedestal seats with back support.
Grease aluminum be moved from the main floor to the front casting deck

Rates An electric-start 4 stroke Yamaha 40 HP motor powers this lighter
weight aluminum boat so they really move. This is a fisherman's
boat. With its wide...

Standard Fishing Boat...$325/week

Our standard fishing boat is a 16-foot aluminum boat with a 15 HP Honda Motor. Each
Basecabin rental includes one of our standard 16-foot boats. These boats are big and
roomy with bench seats. The 15 HP motor is very fuel efficient and can still get 25 miles
per hour with two average size adults.

THANKS
Richie

Test Print

This machine is now ready for printing

Quick Menu for smooth access to Canon's web service and to various functions for photo printing and video printing

(1) Shortcut Menu

(2) Image Display

After this, Quick Menu opens automatically

When you click the (CREATIVE PARK PREMIUM) icon on the shortcut menu, My Image Garden opens. You can then download artworks of famous artists and print them for various uses.

*CREATIVE PARK PREMIUM is a premium content service available exclusively to customers who use genuine Canon ink for all colors. To use this service, you must have My Image Garden installed on your computer.

When My Image Garden is installed, Image Display also opens.

Image Display displays a slide show of artwork images that were created automatically by the recommended artwork functions of My Image Garden, as well as other images saved on your computer.

FASTENAL

Our Father, which art in heaven,
hallowed be thy name;
thy kingdom come,
thy will be done,
on earth as it is in heaven
Give us this day our daily bread
And forgive us our trespasses,
as we forgive them that trespass against us
And lead us not into temptation,
but deliver us from evil
[For thine is the kingdom,
the power, and the glory,
for ever and ever]
Amen

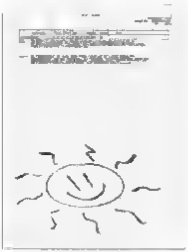
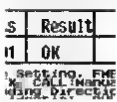
Instructions on how to reprint this log:

Step 1: Press the [Setup] button.
Step 2: Select "Service."
Step 3: Select "Fax Service."
Step 4: Select "Run Fax Test."





3) Once you are done with the Fax dialog box, click **OK** to send the fax.

- You can check out the progress of your fax by going to the copier you selected and click on **Job List** at the top
- Keep in mind that the copiers will attempt to send faxes multiple times before giving up
- If your fax was successful a confirmation page will print out with Result **OK** at the top.
- Sorry there is no option to print out an additional confirmation page
- If your fax was unsuccessful, the copier will print out a confirmation with something other than **OK** under Result at the top of the printout

Also

- Your logon or name do not appear on the confirmation page
- The first page of your fax will be printed in miniature below the technical notes
- If you print a cover sheet it will be printed instead of the first page of your fax

---

- If you cancel the Fax dialog box, you may get a message in your system tray Ignore it You did NOT send a fax.

Other Lim tations

- Sorry you cannot move a fax job from one copier to another

NETGEAR WIRELESS EXTENDER

username: admin
password: password

Set up the extender like you would a normal computer by accessing the Netgear Extender via wireless computer. Once connected, set up via browser user interface at:

www.mywifiext.net

Once you enter in all the IP info (IP, subnet mask, gateway, primary DNS), hit the "APPLY" button

Then set up your wireless device as yet another computer with it's own independent IP address in the same way you did to the Netgear Extender

This document will assist you in testing your HP Fax machine using the HP Fax Test Service

Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page

Test your fax machine

To test the capability of your fax machine follow the directions below

NOTE Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax Pressing ***82** before dialing the toll free number will unblock the Caller ID blocking feature in most areas Other phone company services can prevent you from receiving a fax including voice mail, call blocking, or call privacy features.

Figure 1

I was leading this session for our students and I am telling them that based on the chart, there was plenty of supply in this s risk to a market that he was very strong. The plan was to either exit any positions at the supply level and/or initiate new s at the supply level in the S&P (stock market).

Before we figured out where the profit target was below (downward), I want over something else with our students that I wa you because it is so important. Take a close look at the price action on the right side of the chart where price is reaching th (circled area). This picture is the start of what some rational technical analysts call a "Head and Shoulders" pattern. It's a trading book ever written. Try and find a book that talks about technical analysis that doesn't cover and promote this trade hard to do. While this pattern has been forming, I have been hearing that because this pattern is so popular it must work money right? Think again. I would argue that this conventional chart pattern is one of the most ridiculous things I have h of trading and here is why. Think about the rules of the pattern which are the same in all the books. The pattern traders-t have the two shoulders, the head and then when price declines in the form of the pivots in between the shoulders which is also called a "neck line." Then, once price trades below that line, you are supposed to sell short. In other words, money m were selling short at when price is high and into the supply zone. You're supposed to wait for a big price decline and then s any sense to you??? This goofy pattern goes completely against how you make money buying and selling anything. As a tr pattern because I know that the masses who learn an trade reading the books will get sold after we do at lower prices whi higher profit. As someone who cares deeply about people and share financial well-being. It is dangerous way to speculate high risk and very low reward. I can go on the on with how irresponsible it is to promote this conventional chart pattern, b the point. To start this chart and analysis up, I deeply used our simple rule-based market timing strategy to help our studen investment capital from a major downside move and also profit from it.

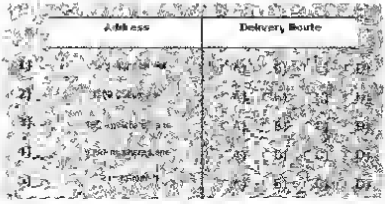
Sample Memory Questions

In this section of the test, you will assign codes based on your memory of the Coding Guide you used as part of the ordering sample questions. Take five minutes to memorize the Coding Guide on page 7 and then determine your responses to the sample questions below.

Work through the items and assign codes to each based upon your memory of the Coding Guide. Work as quickly and as accurately as possible. Do NOT refer back to the Coding Guide as you work through the sample items. The Coding Guide will be available to you during the examination.



The correct responses to sample questions 1 through 5 are 1A, 2C, 3J, 4D, and 5D.

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

Make a copy of a CD or DVD

The following explains how to make a copy of an existing CD or DVD. If you want to make a CD or DVD using files from your computer hard disk drive, refer to Burn a CD or DVD in CyberLink Power2Go. If you want to make more than one copy of a CD or DVD, or an image of a CD or DVD so you can back it up on your hard disk drive, refer to Burn a disc image.

Before you begin

- Save all work and close all open software programs
- Turn off your screen saver

Here's how

Copy a CD or DVD

Note

- HP supports the lawful use of technology and does not endorse or encourage the use of our products for purposes other than those permitted by copyright law

If you have two disc drives, CyberLink Power2Go can automatically copy a CD or DVD directly from one drive to the other. If you have one disc drive, CyberLink Power2Go automatically copies the CD or DVD image to the hard disk drive, prompts you to insert the blank disc, and then burns the disc image to the disc. To copy a CD or DVD:

1. To copy with two drives, insert a writeable CD or DVD into a disc-burning drive. Insert the disc you want to copy into the other disc drive.

   To copy with one drive, insert the disc you want to copy into the disc drive, and, when prompted, insert a writeable CD or DVD.

2. Click to open CyberLink Power2Go.

3. Select the Copy Disc icon , and then click Copy Disc .

4. Select the From drive, and the To drive.

   Ensure a disc-burning drive is selected under To.

5. Click Copy to copy the CD or DVD.

SELF-REPAIR MANIFESTO:

REPAIR IS BETTER THAN RECYCLING.

MAKING OUR THINGS LAST LONGER IS BOTH MORE EFFICIENT AND MORE COST-EFFECTIVE THAN MINING THEM FOR RAW MATERIALS.

REPAIR SAVES THE PLANET.

EARTH HAS LIMITED RESOURCES AND WE CAN'T RUN A LINEAR MANUFACTURING PROCESS FOREVER. THE BEST WAY TO BE EFFICIENT IS TO REUSE WHAT WE ALREADY HAVE!

REPAIR SAVES YOU MONEY.

FIXING THINGS IS OFTEN FREE, AND USUALLY CHEAPER THAN REPLACING THEM. DOING THE REPAIR YOURSELF SAVES SERIOUS DOUGH.

REPAIR TEACHES ENGINEERING.

THE BEST WAY TO FIND OUT HOW SOMETHING WORKS IS TO TAKE IT APART!

IF YOU CAN'T FIX IT, YOU DON'T OWN IT.

REPAIR CONNECTS PEOPLE AND DEVICES, CREATING BONDS THAT TRANSCEND CONSUMPTION.
SELF-REPAIR IS SUSTAINABLE

REPAIR CONNECTS YOU WITH YOUR THINGS ○ REPAIR EMPOWERS AND EMBOLDENS INDIVIDUALS
REPAIR TRANSFORMS CONSUMERS INTO CONTRIBUTORS ○ REPAIR INSPIRES PRIDE IN OWNERSHIP
REPAIR INJECTS SOUL AND MAKES THINGS UNIQUE ○ REPAIR IS INDEPENDENCE
REPAIR REQUIRES CREATIVITY ○ REPAIR IS GREEN ○ REPAIR IS JOYFUL
REPAIR IS NECESSARY FOR UNDERSTANDING OUR THINGS ○ REPAIR SAVES MONEY AND RESOURCES

WE HAVE THE RIGHT:

TO OPEN AND REPAIR OUR THINGS WITHOUT VOIDING THE WARRANTY
TO DEVICES THAT CAN BE OPENED ○ TO ERROR CODES AND WIRING DIAGRAMS
TO TROUBLESHOOTING INSTRUCTIONS AND FEEDBACK'S
TO REPAIR DOCUMENTATION FOR EVERYTHING ○ TO CHOOSE OUR OWN REPAIR TECHNICIAN
TO REMOVE DO NOT REMOVE STICKERS ○ TO REPAIR THINGS IN THE PRIVACY OF OUR OWN HOMES
TO REPLACE ANY AND ALL CONSUMABLES OURSELVES
TO HARDWARE THAT DOESN'T REQUIRE PROPRIETARY TOOLS TO REPAIR
TO AVAILABLE, REASONABLY PRICED SERVICE PARTS

Diocese of Pensacola-Tallahassee

November 5, 2016

True Life... of a Catholic Teen

A one day diocesan conference for middle and high school youth...PLUS parents too!

God wants us to base our lives on TRUTH; not the "reality" we see on TV! So how do you do that? Together let's learn from some great speakers, interesting workshops and time spent together with our God!

For more information contact Barb Younger @ 226-4884 or by email Barbara.younger@saintmarychurchfwb.org

OVER

Registration Deadline:

Return fee & paperwork

No later than November

~Workshop Topics~

- What is God's plan?
- What is the TRUTH?
- Communicating with the WORLD & each other!
- Living the life long virtue of chastity
- Battling the negative influences of a media driven culture
- A TRUE LIFE is a HAPPY LIFE!

Vonage Test Fax

To	From
Fax	Fax
Phone	Phone
Subject: Test Fax	Date

Fax Settings

Reference your Owner's Manual for help adjusting the settings below

ECM (error correction mode)	Off
Baud Rate	9600
International	On (this is set on a per-call basis)
Resolution	Standard
Answer Mode	Fax Only
Rings to Answer	Zero (0)
Call Waiting	Off
Bandwidth Saver	High (90 kbps)
Distinctive Ring	

Troubleshooting Steps

The steps below will help you resolve common dialing problems

- Switch off fax machine and unplug power adapter from device and from wall outlet.
  - Let fax machine remain off for 60 seconds
- Try a different phone cord between the fax machine and the Vonage device
- Eliminate any splitters between the fax machine and the Vonage device.
- Connect Fax machine directly to the Vonage device, bypassing any home wiring
- If using an All-In-One device, temporarily disconnect it from PC

Further Assistance

If you need further assistance using your Vonage Fax Service we are always available to help

Call us at 1-VONAGE-HELP (1-866-243-4357) or visit www.vonage.com

OBJECTIVE

To get started, click placeholder text and start typing. Be brief: one or two sentences.

SKILLS

Explain what you're especially good at. What sets you apart? Use your own language—not jargon.

EXPERIENCE

JOB TITLE/COMPANY
Dates From – To
Summarize your key responsibilities, leadership, and most stellar accomplishments. Don't list everything; keep it relevant and include data that shows the impact you made.

JOB TITLE/COMPANY
Dates From – To
Think about the size of the team you led, the number of projects you balanced, or the number of articles you wrote.

EDUCATION

DEGREE / DATE EARNED
School
You might want to include your GPA and a summary of relevant coursework, awards, and honors.

VOLUNTEER EXPERIENCE OR LEADERSHIP

Did you manage a team for your club, lead a project for your favorite charity, or edit your school newspaper? Go ahead and describe experiences that illustrate your leadership abilities.

Test fax

Ok, sometimes you might need to send a fax document in some legal, financial, medical or government agency and you don't want to pay 1-2 or 3 dollars a page at your local business copy center. You probably don't want to sign up for those free e-mail fax services over the internet either, because they'll likely place advertising on your fax or harvest your fax number and annoy you later for a subscription service. You can avoid all this with fax software and a fax modem, an older fax machine, or a fax that might be built into your All-In-One Printer. If you have fax software or a fax machine that you haven't used for a while you might want to test it first with a real fax number. Here is a list of free fax numbers that are setup specifically for testing your fax machine or fax software within the USA or Canada.

These test fax numbers will work on any fax machine, All-In-One Printer with fax, or any type of fax software using a fax modem such as FaxTalk. These numbers are subject to change without notice.

Testing fax sending only

A web site at faxtry dot net is available that will allow you to send a fax test. Send a fax toll free to **+1-855-330-1239** or **+1 213-294 2943** (Los Angeles, CA USA)

NOTE: Faxes sent to this number are publicly displayed for all to see on the Web site faxtry dot net -- Do not fax any private, sensitive, confidential or offensive material.

Hail Mary:

Today begins the 90th Anniversary of the apparition of the Virgin of Fatima :

When you receive this email say a Hail Mary and ask for a special favor.

"Hail Mary, full of grace. The Lord is with thee. Blessed art thou among women and blessed is the fruit of thy womb, Jesus. Holy Mary, Mother of God, pray for us sinners, now and at the hour of our death, Amen.? (your request)

Please do not break the Novena , send it to 12 people you think deserve justice, peace, love, health, prosperity and truth. When you are down to nothing, God is up to something. This has been traveling since 5/13/07!

telemarketers and phone scammers? Get PhoneTray!

Ultimate call blocker for your phone line

- Zap telemarketers and block unwanted calls
  Stop annoying robocalls
- Reject anonymous and out-of-area calls
- Automatically block 10 000+ telemarketers in our database

Get PhoneTray Now!
(Vendez!)

Block all unwanted calls, phone scam, telemarketing, political robocalls, surveys, collection agencies and more.

PhoneTray works with any phone service

Regular land line from Bell, AT&T, Verizon or CenturyLink

Digital phone line like AT&T U-verse or Verizon FiOS

Cable phone service like Comcast XFINITY or Time Warner Cable

Internet VoIP phone service like Vonage, MagicJack or Ooma

Wireless mobile phone plans: AT&T, Verizon or Straight Talk

How PhoneTray works:

PhoneTray software runs on your computer and monitors your phone line. Using a Internet service (VoIP voice modem). When a call comes in, PhoneTray checks its' unique database to see if the person is listed. If it's an unwanted call, PhoneTray blocks the call and plays a message to the caller. All legitimate calls are passed through to your phone.

You set and edit "number disconnected" messages and the call will work that your number has been disconnected and will stop bothering you. It works with robocalls and human callers as well!

Latest News

August 2017: PhoneTray Pro 7.0

We have released PhoneTray 7.5 with many new features including 10 new skins. Please refer to our blog
(http://blog.voycall.com/2017/08/new-version-7-5-0-has-been-released/) for the full list of new features.

August 2017: New support system

We have a new web-based support system
Please visit support.phonetray.com
(https://support.phonetray.com/) if you have any questions or problem with PhoneTray

What our customers say about PhoneTray Pro:

"You and your team do fantastic with the software. It's thanks to you that I'm still sane from telemarketer calls. Thank you again for your awesomeness guys, very highly appreciated!"
– Henry, Colorado

I just want to say I have been using PhoneTray for a year now and it is without a doubt the single most useful piece of utility software I have. It works flawlessly and has eliminated probably 95% of telemarketing calls. Many thanks."
Peter, Texas

Good afternoon

I was able to get my Nuvi 660 to acquire satellites by using an external antenna. I would, however still like to be able to register the serial number

Sincerely,

David A. Giesselman

Testing Your HP Fax Machine with the HP Fax Test Service

Print Feedback

Contact HP

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service. Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

Product Quick Launch (QCLS)

Question Keywords

Test your fax machine

To test the capability of your fax machine, follow the directions below:

NOTE: Be sure that your phone number is not Caller ID blocked by your telephone company prior to performing a fax, as send and receive (Fax, In, Scan). **All** before dialing the toll free, may also will prohibit the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking, or call privacy features.

1. [illegible]
2. [illegible]

NOTE: Whenever [illegible] shipping a fax over it is good practice to set the Automatic Reports option to **Every Error** before attempting a test fax. This way, even if the test fails, an error code will be generated that will assist you in future troubleshooting. This option is available in different places on different products, consult the product User's Guide for specific steps.

1. Send a one page blank (no white text) fax to **1-800-hpfaxme** (1-800-473-2963).
2. When your faxes received by the HP Fax Test Service, we will generate a return fax to you within two minutes, confirming that we received your fax. This confirms that you can both send and receive a fax with your fax machine.

If you did not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE: The most common cause of failure is that the fax number with the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the Fax Header contains the full 10 digit telephone number of the fax machine, including the area code.

For more information or assistance, click **Contact HP** at the top of this page.

Gunda Schmidt, a native of Germany, holds a B.S. from the Universität Mannheim and an M.A. from the University of New Orleans. She brings to Veritext Translation a rich understanding of the German language and culture. Gunda's varied background as business translator, public and private school teacher and technical writer has uniquely prepared her to translate documents dealing with many aspects of the business, legal, and technical fields.

Brad Taylor a United States native, received his B.S. from the State University of New York and has completed extensive graduate coursework in Information Science. He has worked professionally as a photographer and printer and brings to Veritext Translation a solid understanding of the publishing business. Brad has worked for many years in government as a writer researcher, and editor specializing in the fields of law and information science. He has strong computer skills on a variety of operating systems and applications software products.

Recurring Direct Debit Authorization Form

ONLY complete if you want your premium automatically deducted from your bank account.
DO NOT complete both sides of this form.

Member Name:	Member ID Number:
Type of Account: ☐ Checking ☐ Savings	

TAPE VOIDED CHECK HERE

If you are using a checking account, you MUST tape ONLY a voided check here.
If you are using a savings account, you MUST tape ONLY a voided deposit ticket here.
DO NOT attach both. This will cause a delay in processing your request.

Thank you.

— TEST PAGE —

I hereby authorize [redacted] Insurance Company and [redacted] plan sponsor to deduct from my bank account listed above my monthly [redacted] premium amount due, and if applicable my late enrollment penalty amount due, but no more than the total of two (2) months premium in any given month. In the event my monthly premium is lower than the expected monthly premium due to overpayments or adjustments, I authorize [redacted] Insurance Company to automatically deduct my bank account for the lower amount due. This automated deduction must go through my bank approval process; therefore I understand the first deduction could take up to 45 days to process. Once approved, this deduction will occur once per month and will continue as long as I am enrolled in this [redacted] plan or until I select another payment method. I understand this authorization will remain in effect regardless if my annual premium changes at any time during my enrollment unless I verbally or in writing revoke this authorization. If the monthly premium amount changes, I will be notified in writing prior to any changes in the amount deducted from my bank account.

FEDERAL TAX LAW

Section 6039E of the Internal Revenue Code (26 USC 6039E) requires you to provide your Social Security Number (SSN) if you have one when you apply for a U.S. passport or renewal of a U.S. passport. If you have not been issued a SSN, enter zeros in box #5 of this form. If you are residing abroad, you must also provide the name of the foreign country in which you are residing. The Department of State must provide your SSN and foreign residence information to the Department of Treasury. If you fail to provide the information you are subject to a $500 penalty enforced by the IRS. All questions on this matter should be directed to the nearest IRS office.

NOTICE TO CUSTOMERS APPLYING OUTSIDE A STATE DEPARTMENT FACILITY

If you send us a check, it will be converted into an electronic funds transfer (EFT). This means we will copy your check and use the account information on it to electronically debit your account for the amount of the check. The debit from your account will usually occur within 24 hours and will be shown on your regular account statement.

You will not receive your original check back. We will destroy your original check, but we will keep the copy of it. If the EFT cannot be processed for technical reasons, you authorize us to process the copy in place of your original check. If the EFT cannot be completed because of insufficient funds, we may try to make the transfer up to two times and we will charge you a one-time fee of $25 which we will also collect by EFT.

REMITTANCE OF FEES

Passport service fees are established by law and regulation (see 22 USC 214; 22 CFR 22.1; and 22 CFR 51.60-66) and are collected at the time you apply for the passport service. If the Department fails to receive full payment of the applicable fees because, for example, your check is returned for any reason or you dispute a passport fee charge to your credit card, the Department of State will take action to collect the delinquent fees from you under 22 CFR Part 34 and the Federal Claims Collection Standards (see 31 CFR Parts 900-904). In accordance with the Debt Collection Improvement Act (Pub. L. 104-134), if the fees remain unpaid after 180 days and no repayment arrangements have been made, the Department will refer the debt to the Department of Treasury for collection. Debt collection procedures used by Treasury may include referral of the debt to private collection agencies, reporting of the debt to credit bureaus, garnishment of private wages and administrative offset of the debt by reducing or withholding eligible federal payments (e.g. tax refunds, social security payments, federal retirement, etc.) by the amount of your debt, including any interest, penalties or other costs incurred. In addition, non-payment of passport fees may result in the invalidation of your passport. An invalidated passport cannot be used for travel.

OTHER USES OF SOCIAL SECURITY NUMBERS

Your Social Security Number will be provided to Treasury used in connection with debt collection and checked against lists of persons ineligible or potentially ineligible to receive a U.S. passport, among other authorized uses.

PAPERWORK REDUCTION STATEMENT

Public reporting burden for the collection of information is estimated to average 85 minutes per response, including the time required for searching existing data sources, gathering the necessary data, providing the information and/or documents required and reviewing the fine collection. You do not have to supply the information unless this collection displays a currently valid OMB control number. If you have comments on the accuracy of this burden estimate and/or recommendations for reducing it, please send them to: A/G SKAS, Room 2400 SA-22, U.S. Department of State, Washington, DC 20522-2202.

IMPORTANT NOTICE TO APPLICANTS WHO HAVE LOST OR HAD A PREVIOUS PASSPORT BOOK AND/OR PASSPORT CARD STOLEN

A United States citizen may not normally hold more than one valid or potentially valid U.S. passport book or more than one valid or potentially valid U.S. passport card at a time. Therefore, when a valid or potentially valid U.S. passport book or U.S. passport card cannot be presented with a new application, it is necessary to submit a Form DS-64, Statement Regarding a Lost or Stolen Passport. Your statement must detail why the previous U.S. passport book or U.S. passport card cannot be presented.

The information you provide regarding your lost or stolen U.S. passport book or passport card will be placed into our Consular Lost or Stolen Passport System. This system is designed to prevent the misuse of your lost or stolen U.S. passport book or passport card. Anyone using the passport book or passport card reported as lost or stolen may be detained upon entry into the United States. Should you locate the U.S. passport book or passport card reported lost or stolen at a later time, report it as found and submit it for cancellation. If you have not been issued a passport book or passport card, you may not use that passport book or passport card for travel.

PROTECT YOURSELF AGAINST IDENTITY THEFT! REPORT YOUR LOST OR STOLEN PASSPORT BOOK OR PASSPORT CARD!

For more information or to report your lost or stolen passport book or passport card by phone, call NPIC or visit our website at travel.state.gov.

External Serial Modems

Almost without exception external serial faxmodems will work with HylaFAX. External Modems are nice because they generally have some type of display which indicates activity. This can be useful when troubleshooting. External modems use external power sources and cabling so it is important that they be located where they are not likely to be bumped or jostled. Because the modem can be power-cycled independently there is some risk of the modem "losing" its initialization and staying uninitialized if care is not taken to address that scenario (usually by "writing" the initialized state to be used by default after a reset). However, this also can be useful in that a hung modem may be power-cycled without rebooting the server. Unless you are using external modems on a multiport serial card (you're using the system board's built-in serial ports), and because HylaFAX's faxgetty continually accesses the modem (unable to share the IRQ) you are generally limited to a combination of only two external serial or internal ISA faxmodems.

Internal ISA Hardware (Jumpered or PnP) Modems

As with external serial modems, internal ISA hardware faxmodems work with HylaFAX almost without exception. There need be no fear of power or data cables being jostled with internal modems, but there are no lighted displays. Further, and power-cycling a hung one requires a system reboot. Because non-PnP hardware ISA modems use the same memory addresses and IRQs as external serial modems, the same limitation to only two applies. However, if your system supports Plug-n-Play, then ISA hardware PnP faxmodems will likely work as well, and these PnP modems may provide a means to go beyond that limitation. Be cautious when purchasing a new ISA modem since many new ISA modems are Windows-software-driven and do not have a hardware serial controller. Consequently it may not be able to be "spoken" to as noted above. US Robotics/3Com ISA Winmodems are a good example of what not to buy.

Additional comments re: POC Plan.	Pt able to improve use of cane so can progress to PWB use c cane + CGA completing transfers without fear even if no supervision. Should then be increased to CGA to assist w/ steering wheeled RW. Pt's prognosis is fair related to pt's risk factors high to moderate.

1.4 Convenient function settings

By registering destinations that you fax often in the Address Book destinations or Group destinations, and registering Program destinations for fax transmission settings that are used often, the registered details can be recalled by simply touching the registered button.

Address Book destinations
By registering destinations that you fax often in the Address Book destinations, you can recall destinations by simply touching the registered button.

Refer to "Registering the Address Book" on page 9-4 for details regarding registering abbreviated destinations.

Group destinations
When sending the same fax to multiple destinations, by grouping together and registering destinations registered in the Address Book destinations, multiple destinations can be recalled by simply touching the group destinations button.

Refer to "Registering Group destinations" on page 9-15 for details on registering group destinations.

Program destinations
By registering destinations that you fax often and transmission settings you use often in your program destinations, the registered details can be recalled by simply touching the program button.

Refer to "Registering Program destinations" on page 9-21 for details on registering program destinations.

PRESSURE CYCLING SYSTEM

"HPV" — HIGH PRESSURE VAPOR LEAVING COMPRESSOR.

"HPL" — VAPOR IS COOLED DOWN BY CONDENSER AIR FLOW AND LEAVES AS HIGH PRESSURE LIQUID.

"LPL" — ORIFICE METERS THE LIQUID R-12 INTO EVAPORATOR, REDUCING ITS PRESSURE, AND WARM BLOWER AIR ACROSS EVAPORATOR CORE CAUSES BOILING OFF OF LIQUID INTO VAPOR.

"LPV" — LEAVES EVAPORATOR AS LOW PRESSURE VAPOR AND RETURNS WITH THE SMALL AMOUNT OF

"lpl" — LOW PRESSURE LIQUID THAT DIDN'T BOIL OFF COMPLETELY BACK TO THE COMPRESSOR TO BE COMPRESSED AGAIN.

Fig 18-13-CCOT System Components

eyes. Any liquid Refrigerant-12 which may accidentally escape is approximately 21°F (-6°C) below zero. If liquid Refrigerant 12 should touch the eyes, serious damage could result. Always wear goggles to protect the eyes when opening refrigerant connections. If Refrigerant 12 liquid should strike the eye:

a. Call a doctor or eye specialist immediately and obtain treatment as soon as possible.

b. DO NOT RUB THE EYE. Splash the affected area with quantities of cold water to gradually get the temperature above the freezing point.

c. The use of an antiseptic oil is helpful in providing a protective film over the eyeball to reduce the possibility of infection. Should liquid Refrigerant 12 come into contact with the skin, the injury should be treated the same as skin which has been frostbitten or frozen.

All Refrigerant 12 drums are shipped with a heavy metal screw cap. The purpose of the cap is to protect the valve

REFRIGERANT — 12 PRESSURE — TEMPERATURE RELATIONSHIP

The table below indicates the pressure of Refrigerant — 12 at various temperatures. For instance, a drum of Refrigerant at a temperature of 80°F (26.8°C) will have a pressure of 84.1 PSI (579 kPa). If it is heated to 120°F (51.8°C), the pressure will increase to 187.5 PSI (1154.9 kPa). It also can be used conversely to determine the temperature at which Refrigerant — 12 boils under various pressures. For example, at a pressure of 30.1 PSI (207.5 kPa), Refrigerant — 12 boils at 32°F (0°C).

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known

to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere

Imprimatur
Most Rev. George. W. Ahr
Bishop of Trenton

Resistors | 2.6uF Cap | 0.1uF Cap | Si Diode

My First Tester

My first attempt at building one of these worked out pretty good e enough I'd make some changes if I was building one. The pin straight to the right shown in the diode test is a resistor. Note that the trace is rotated in the opposite direction as shown in the examples. Apparently the Y-axis in my old Heath kit scope is wired opposite of that used in those examples.

Note CLEARLY EXPLAIN ALL VARIANCES ON THE INVENTORY REPORTS AND CORRECTIVE ACTIONS TAKEN TO ELIMINATE/REDUCE THEIR RECURRENCE

Whenever troubleshooting a fax issue, it is good practice to set the ***Automatic Reports*** option to **Every Error** before attempting a test fax. This way, even if the sent fax fails, an error code will be generated that will guide you in future troubleshooting. This option is available in different places on different products; consult the product *User's Guide* for specific steps.

1. Send a one page black and white text fax to **1-888-hpfaxme** (1-888-473-2963).
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE.

The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code.

For more information or assistance, click **Contact HP** at the top of this page.

Loading Instructions

Step 1 Inlead new roll into dispenser with notch as an end of roll lined up with notched roll cup (Figure A) on right-hand side of dispenser.

Step 2. Thread paper over white tabs (Figure B) and under bar (Figure C). Grasp tab of paper upward (Figure D). Push Emergency Feed (Figure E) to start paper.

Instrucciones de instalación

Paso 1 *Inserte el rollo nuevo en el dispensador con la ranura al extremo del rollo alineados con el portarrollos ranurado (Figura A) al lado derecho del dispensador.*

Paso 2. *Enhe el papel sobre las lengüetas blancas (Figura B) y debajo de la barra (Figura C). Doble la punta del papel hacia arriba (Figura D). Presione Emergency Feed (alimentación de emergencia) para empezar el paso del papel.*

Stub Roll Transfer

Step 1 Remove stub roll from roll supports leaving the paper threaded through dispenser. Lift bar (Figure C) and place stub roll paper under white tabs (Figure B). Place stub roll in bottom of dispenser.

Step 2. Then, load new roll according to "Loading Instructions" to the left.

Transferencia del resto del rollo

Paso 1 *Retire el resto del rollo de los soportes, dejando el papel enhilado en el dispensador. Levante la barra (Figura C) y coloque el papel del resto del rollo debajo de las lengüetas blancas (Figura B). Coloque el resto del rollo en el extremo inferior del dispensador.*

Paso 2 *Luego, instale el rollo nuevo siguiendo las "Instrucciones de instalación" a la izquierda.*

Telephone (03 69 3046 Rebs to attn

Dear Parents of Seniors:

We allow seniors to leave campus for lunch on Monday Tuesday Thursday and Friday subject to your qualifications and approval

A student is a senior who

1 Is in good standing both academically and behaviorally
2 is within seven credits of graduation at the beginning of the school year
3 Has a clear plan in place to earn the credits needed for graduation,
4 Continues to maintain that plan by successfully completing courses
5 Continues to progress on his or her senior exhibition.

If you give your written permission, seniors may drive themselves to go with other seniors off campus for lunch between 12 15 and 12 55 pm. They must adhere to all school rules including the no smoking rule during this time. Seniors must adhere strictly to the time limits, and they must sign out. If any senior leaves early or arrives late or breaks a rule they lose the privilege.

I encourage you only to grant permission if you are confident about your child' s ability to abide by the above conditions. You should not hesitate to withhold permission or to grant permission with limitations, such as only to drive solo or only with students specified by you. If you are comfortable with your child traveling only with a specific driver then please indicate that. You also have the option of allowing your child to leave only on specific days In this case, your child would receive permission to leave only after you called Valeria.

Please let us know your wishes by completing the form below

John H. Potter Headmaster

I _____ the parents of _____

Please Check

_____ Do not wish my child to leave campus for lunch.

_____ Give permission for my child to drive with or rides with any student.

_____ Give permission for my child only to drive alone

_____ Give permission for my child to drive only under the following conditions

Test Print

This machine is now ready for printing

To start Quick Toolbox, click the icon found in Dock

* If Quick Toolbox is installed and the shortcut icon is not added in Dock, an icon will not be displayed

Quick Toolbox is a shortcut menu that lets you access the functions you want to use with one click

After installing utilities compatible with Quick Toolbox, they will be added to this menu.

The Quick Toolbox provides a convenient way to quickly launch added utilities for making machine settings and doing other management tasks.

* The screen display varies depending on your machine

Online Manual

The Online Manual is an instruction manual on the website. It contains the latest information needed for operations such as printing. You can also use it for troubleshooting when problems arise.

* An Internet connection is necessary

We Recommend Using Canon Genuine Inks

Canon genuine consumables (inks / printing paper) are developed especially for Canon ink jet printers. We recommend using Canon genuine consumables to maintain printer performance and ensure consistency.

Mortgage Credit Certificate Programs

What is an MCC?

An MCC could save you up to $2,000 a year! If you are one of the growing number of individuals and families considering where to buy a home, NOW is the time. As a MCC holder you will receive a direct dollar-for-dollar federal income tax credit and save 30% of the interest paid on your own mortgage loan every year.

The income tax credit often may result in approximately $150 in monthly savings or up to $2,000 a year as an additional income tax refund. The actual IRS benefit varies according to the,

- Income of the buyer;
- The amount of the loan and
- The mortgage loan interest rate.

Simply put, it is a reduction of the federal income taxes owed, or an increase to refund. If you need help qualifying, the MCC also can work in your favor. A federal recapture tax may be required if you sell your residence within nine years of purchase.

The program is open to those individuals and families who:

- Meet the new income and home purchase price requirements,
- Qualify for a mortgage loan and will use the home as their principal residence;
- Will use the loan for the home purchase but not for refinance.

Maximum Income Limit:

- Size of family 1-2 members - 576,560 or 3-4 members - $89,320.
- **Maximum Purchase Price Limit** $316,177.00

Clara Barton's Glen Echo home is a monument to how intertwined her life was with her work. Clockwise: The Red Rose is dominated by offices for the American Red Cross. The Red Cross flag flies above the building's façade. The symbol for the American Red Cross decorates clerestory windows in a small sitting room on the third floor.

which was used as a Union hospital and where she assisted doctors alongside fellow volunteer nurse and poet Walt Whitman. While there, the surgeon in charge of the wounded on the south bank of the Rappahannock River sent a messenger to Barton to come across with her assistants and supplies at once. In referring to the incident, she wrote, " the bullets and shells were hissing and exploding in the river on either side of me. "

Today, the rangers and staff at Fredericksburg are happy to teach visitors about Barton's work during the battle and to point out the specific locations through out the national park where she served. Knowing where she was helps you understand why she was so important.

For those willing to travel farther south, a trip to Charleston, South Carolina, brings Barton's political activism into light. For it was here in 1864, at the Siege of Fort Wagner that she treated wounded soldiers of the 54th Massachusetts, an African American regiment (The Academy Award-winning film *Glory* tells the story of this particular battle.) She is credited with saving the lives of two generals and one colonel, John J. Elwell, who on waking from his injuries, noted "Clara Barton was there an angel of mercy doing all in mortal power to assuage the miseries of the unfortunate soldiers."

From the rolling hills of Virginia to the shores of the Coral sea, the city streets of Washington, D.C., to the bucolic suburbs of Maryland, all corners of the Mid Atlantic region have been touched by the life and work of Barton as have its people. And as will the people of America for generations to come.

"Clara Barton died 100 years ago, but her legacy is something that is still with us today," says Aaron LaBrosse, supervisory park ranger for the Clara Barton National Historic Site. "The way that the American Red Cross responded to disasters while it was run by her is the same way that it

Photos by Eric Taylor

responds to disasters today. The use of volunteers, the use of donations, the use of the press in drumming up support for those relief efforts. Those were the things that she put in place, and it's still the same practice today. And that's what makes Clara Barton's story relevant."

2008
KANSAS INDIVIDUAL INCOME TAX
and/or FOOD SALES TAX REFUND

114508

Your First Name	Initial	Last Name
Spouse's First Name	Initial	Last Name
Mailing Address (Number and Street, including Rural Route)		Social Security No.
City, Town, or Post Office	State	Zip Code

Enter the first four letters of your last name. Use ALL CAPITAL letters.

Your Social Security number

Enter the first four letters of your spouse's last name. Use ALL CAPITAL letters.

Spouse Social Security number

If your name or address has changed since last year, mark an "X" in this box

If taxpayer or spouse (if filing joint) died during this tax year, mark an "X" in this box

Farming designee number

Mark the box if you are filing this as an AMENDED 2008 Kansas return.
NOTE: This form cannot be used for tax years prior to 2008

Reason for amending your 2008 original Kansas return

Amended affects Kansas only

Amended Federal tax return

Adjustment by the IRS

Filing Status (Mark ONE)

Single

Married filing joint
(Even if only one had income)

Married filing separate

Head of household (Do not mark this box if you are filing a joint return)

Residency Status (Mark ONE)

Resident

Nonresident or Part-year resident
from ___/___/___ to ___/___/___
(Complete Schedule S, Part B)

Exemptions

Number of exemptions claimed on your 2008 federal return

If filing status is head of household, add one exemption

Total Kansas exemptions

If amount is zero/-0- mark the check (-) box. Example: –

1. Federal adjusted gross income
2. Modifications (from Schedule S, line A19). **Enclose Schedule S.**
3. Kansas adjusted gross income (line 2 if blank or subtracted from line 1 see instructions, page 15)
4. Standard deduction OR itemized deductions (see instructions, page 15)
5. Exemption allowance ($2,250 x number of exemptions claimed).
6. Total deductions (add lines 4 and 5)
7. Taxable income (subtract line 6 from line 3. If less than zero, enter 0)
8. Tax (from Tax Tables or Tax Computation Schedules beginning on page 25)
9. Nonresident allocation percentage (from Schedule S, line B35). If 100%, enter 100.0000. Enclose your completed Schedule S with this form.
10. Nonresident tax (multiply line 8 by line 9)
11. Kansas tax on lump sum distributions (residents only - see instructions, page 18)
12. TOTAL INCOME TAX (Residents: add lines 8 & 11. Nonresidents: enter amount from line 10).

More Positive Results For Chiropractic Headache Relief

One of the most common types of patients seen by a chiropractor are those who suffer from headaches. While tens of thousands of chiropractors know the huge positive impact chiropractic care has on providing headache relief, researchers recently reviewed all controlled clinical trials published through August 2009 to identify studies conducted on chiropractic care and headaches, and their outcomes. These findings included the recommendation of spinal manipulation (the most common form of treatment utilized by chiropractors) for the management of episodic or chronic migraine headaches. Additionally, another common type of headache, the cervicogenic headache, also benefited significantly from spinal manipulation therapy. If you're suffering from headaches, consider the safe and effective care offered by chiropractic. Research has shown it effective for many headache types and unlike drugs and surgery, it's completely natural and non-invasive.

Moderate To Intense Exercise Protects The Brain

New research indicates moderate to intense exercise in the elderly may be effective at reducing dementia and strokes. In comparing MRIs of the brain in those who exercised more intensely, researchers identified considerably less brain damage caused by blocked arteries as compared with those who exercised for less intensely. Interestingly, there was no difference in the brains of those who exercised with light intensity as compared with those who did not exercise at all. Although this study did not directly evaluate exercise intensity to the rates of dementia and stroke, the findings of increased brain blood flow and less brain damage strongly suggests moderate to intense exercise should significantly lower the incidence of dementia and stroke suffered by the elderly. According to the American Heart Association, 150 minutes of moderate-intensity or 75 minutes of vigorous-intensity exercise is recommended each week.

Dear Doritos,

Thank you for your amazing chips. They are crunchy and cheesy like a cheesy, crunchy chip of some kind.

I would like to suggest a new flavor of chip I call it "EL Facade"!!! It's still nacho cheese flavor, but more along the lines of the Nacho Cheese sauce that they serve in baseball stadiums, theaters, and some cheap carnivals. It is my belief that people enjoy this flavor because they continually consume large quantities of it, or so I have observed.

I also think you should have more product placement in films. I was watching Ender's Game the other day and thought, "Ender would be even more likeable with a bag of Doritos in his hand." A saw Cheetos in Toy Story 2, so you guys are slackin'!

PS Why triangles?

"Antigonish"

As I was walking up the stair
I met a man who wasn't there
He wasn't there again today
Oh how I wish he'd go away

When I came home last night at three
The man was waiting there for me
But when I looked around the hall
I couldn't see him there at all!
Go away go away, don't you come back any more!
Go away, go away, and please don't slam the door

Last night I saw upon the stair
A little man who wasn't there
He wasn't there again today
Oh how I wish he'd go away

TERMS AND CONDITIONS

4. BILLING; Customer will purchase from Company Company's bottled water, mixed, to drink water base, and other beverage products and related products ("Products") as ordered by Customer from time to time. Company reserves the right to establish all orders to a minimum delivery requirement of either ten (10) or any five Products as determined by Company from time to time per delivery. Cancellations of any bases, fees or surcharges. All orders are subject to credit approval. Where a customer receives its initial Equipment (defined below) and makes any more than two (2) deliveries in the twelve month period(s) beginning with the month of initial service hegins, Company reserves the right to charge that customer a "Safe Fee" of $4.95 per month for each shipped month after the second delivered month" Service may not be available in all areas.

5. LEASED EQUIPMENT. Customer requests, Company will lease to Customer and Customer will buy Company's water dispensers, bottle coolers, dispenser systems and/or equipment as agreed between Company and Customer ("Leased Equipment"). Customer agrees and acknowledges that this is a true lease. If Customer terminates a placement Prime Company Customer will be responsible for all repair or replacement costs unless otherwise agreed to in writing by Company. If any Accessories items includes standard installation of up to one hour's labor and 20 feet of standard installation equipment Customer is responsible for all additional labor and materials costs. Installation will begin at the point Customer designates. Company's responsibility and equipment ends only that point to the Accessories delivery point, which will be designated by Customer. Customer will provide any construction necessary for alteration to the premises to aid in delivery.

6. EQUIPMENT FOR CERTAIN PLANS. If Customer has selected a plan that includes use of equipment, Company will provide the equipment listed above for Company ("Included Equipment") at no charge to Customer. Company will provide, at no additional charge to Customer, normal maintenance and repair of the Included Equipment. Company will not provide any equipment to Customer's Competitors and may remove any Included Equipment from Customer's premises if Customer provides Competitor's equipment.

7. USE OF LEASED EQUIPMENT INCLUDED EQUIPMENT AND COMPANY'S BOTTLES. Company will provide the Leased Equipment or Included Equipment, as applicable ("Equipment") in good working condition and clean and sanitary condition. Customer will only use Company's Products and will not resell or refill Bottles for any purpose whatsoever. Customer will at all times operate and maintain the Equipment and Bottles in a safe, sanitary and proper manner in accordance with Company's instructions and rules and maintain the Equipment periodically and at least once per month, as reasonably appropriate and in the manner Company requires. Customer will not remove the Equipment from Customer's location without Company's prior written consent, (a) will not alter the Equipment in any manner; (b) will permit only employees of Company to repair the Equipment; and will notify Company immediately if the Equipment or any Bottles are stolen, lost, damaged or destroyed, and (e) will use the Equipment only for the purpose for which it was designed. Company may order Customer to cease using any water cooler, bottle and/or equipment that Company reasonably believes is unsafe. Customer must not use any Equipment for any purpose other than dispensing Company's Products. Customer may not make any modifications to Equipment and may not allow any persons other than Company employees to do so. Customer shall not remove the Equipment from the State of installation. A Customer who transfers Equipment without Company's prior written consent, (a) will not alter the Equipment in any manner; (b) will permit only employees of Company to repair the Equipment; and will notify Company immediately if the Equipment or any Bottles are stolen, lost, damaged or destroyed, and (c) will use the Equipment only for the purpose for which it was designed. Company may order Customer to cease using any water cooler, bottle and/or equipment that Company reasonably believes is unsafe. Customer must not use any Equipment for any purpose other than dispensing Company's Products. Customer may not make any modifications to Equipment and may not allow any persons other than Company employees to do so. Customer shall not remove the Equipment from the State of installation. A Customer who transfers Equipment and/or Bottles without Company's prior written consent will be charged $50.00 per item. Customer will not refill Company's Bottles with any product or substance other than Company's Products and will not deface or remove any Company identification on the Equipment or Bottles. Customer will not permit any lien or security interest to attach to the Equipment and will keep the Equipment free and clear of Company's rights. Customer will indemnify Company for any loss or damage to the Equipment, ordinary wear and tear excepted. If Customer fails to return any Equipment and/or Bottles, Customer will pay Company the then current replacement charge for such Equipment and/or Bottles.

8. TERM. The Initial Term of this Agreement will start on the date that the Equipment is installed. Company or Customer may end the Agreement as provided in the Termination section below. The Initial Term will be for one year from the date of first delivery. Upon completion of the Initial Term, this Agreement will continue in effect on a month to month basis until terminated by either Company or Customer on 30 days' written notice. Notwithstanding the foregoing, this is a "at will" agreement and Customer may terminate it at any time after the completion of the Initial Term by ceasing to order Products from Company. Customer's obligations to pay for Products and Equipment and/or Bottles shall survive termination.

9. PRICES. Company will charge Customer the prices set forth in Company's then current price list for Products, fees and other charges. Company may change its prices at any time upon thirty (30) days' notice to Customer. Customer will pay Company for Products and Equipment and/or Bottles at the prices in effect when Company delivers them. Customer will pay all taxes, duties and other charges imposed by any federal, state or local authority on the Products, Equipment and/or Bottles, or their sale, delivery or use, except taxes on Company's net income. Customer will pay Company the amount of any increase in taxes or other charges imposed after the date of this Agreement. Customer will pay Company a fuel surcharge of $1.50 per delivery. Company may change the fuel surcharge at any time upon thirty (30) days' notice to Customer.

10. PRICES TO SPECIFIC CUSTOMERS. Leased equipment rental fees and license water and ready to drink tea prices will not be increased during the first six months of or during the Initial Term of this Agreement, whichever is shorter. Any price increases during the balance of the Initial Term will not exceed Company's then current regular increase and/or surcharge percentage. Company will not increase prices to Customer during any Renewal Term of this Agreement. Any rental fee increases during the balance of the Initial Term will not exceed $5.00 per month. (5) ALL CUSTOMERS: Prices for Products and rental fees are subject to change at any time on thirty (30) days notice subject to the periods enumerated in the Section 8 if any. Prices of commodities such as corrugated, sugar based and petroleum products are subject to change without notice.

11. CHARGES, SURCHARGES, FEES, DEPOSITS AND REFUNDS. Customer will pay all charges for Products, fees, leased equipment, and all applicable surcharges, taxes and fees. Customer will pay a delivery charge of $4.95 per delivery. Customer will pay a fuel surcharge of $1.50 per delivery. Company may change the fuel surcharge at any time upon thirty (30) days notice to Customer. Company may change its administrative, customer service and delivery charges at any time upon thirty (30) days notice to Customer. Customer will pay Company the greater of (i) a late fee not to exceed $25 per month, or (ii) interest of 1.5% per month on any unpaid amount from the invoice date until paid. If the late fee or interest rate exceeds the maximum rate allowed by law the late charge will be equal to such maximum rate. Customer will pay Company a service charge of $25.00 for any check returned for insufficient funds. Company may change its administrative and delivery charges at any time upon thirty (30) days notice to Customer. Company may, at its sole discretion, apply payments received to any unpaid charges, regardless of any instructions from Customer. Any charge that remains unpaid for thirty days will be subject to collection activity by Company or its agents, and Customer will pay all collection costs and attorneys' fees incurred by Company in connection with such activity. Company may refuse to accept any Customer check that Company reasonably believes is unsafe. Company may require Customer to pay a deposit for Equipment and Bottles. Company will refund Customer's deposit for Equipment and Bottles, less any amounts owed by Customer, within sixty (60) days after Customer returns the Equipment and Bottles to Company. Company may charge Customer a fee for any Equipment and Bottles that Customer fails to return.

12. RISK OF LOSS. Customer assumes risk of loss or damage to the Equipment and Bottles. A Customer's possession is and is responsible for all liability resulting from their use and possession of the Equipment and Bottles. Customer will keep the Equipment and Bottles in Customer's possession and control at the address specified in this Agreement. Customer will not move the Equipment or Bottles from that address without Company's prior written consent. Customer will keep the Equipment and Bottles free and clear of all liens and security interests. Customer will not permit any lien or security interest to attach to the Equipment and Bottles. Customer will keep the Equipment and Bottles in good condition and repair and will not alter them in any manner. Customer will not permit any person to repair the Equipment and will notify Company immediately if the Equipment or any Bottles are stolen, lost, damaged or destroyed, and (c) will use the Equipment only for the purpose for which it was designed. Company may order Customer to cease using any water cooler, bottle and/or equipment that Company reasonably believes is unsafe. Customer must not use any Equipment for any purpose other than dispensing Company's Products. Customer may not make any modifications to Equipment and may not allow any persons other than Company employees to do so. Customer shall not remove the Equipment from the State of installation. A Customer who transfers Equipment and/or Bottles without Company's prior written consent will be charged $50.00 per item. Customer will not refill Company's Bottles with any product or substance other than Company's Products and will not deface or remove any Company identification on the Equipment or Bottles. Customer will not permit any lien or security interest to attach to the Equipment and will keep the Equipment free and clear of Company's rights. Customer will indemnify Company for any loss or damage to the Equipment, ordinary wear and tear excepted. If Customer fails to return any Equipment and/or Bottles, Customer will pay Company the then current replacement charge for such Equipment and/or Bottles.

13. TERMINATION. Company CUSTOMERS: Leased equipment rental fees and license water and ready to drink tea prices will not be increased during the first six months of or during the Initial Term of this Agreement, whichever is shorter. Any price increases during the balance of the Initial Term will not exceed Company's then current regular increase and/or surcharge percentage. Company will not increase prices to Customer during any Renewal Term of this Agreement. Any rental fee increases during the balance of the Initial Term will not exceed $5.00 per month. (5) ALL CUSTOMERS: Prices for Products and rental fees are subject to change at any time on thirty (30) days notice subject to the periods enumerated in the Section 8 if any. Prices of commodities such as corrugated, sugar based and petroleum products are subject to change without notice.

14. DEFAULT BY CUSTOMER; COMPANY'S REMEDIES. Customer will be in default if Customer: (a) fails to pay any amount when due; (b) fails or partially or violates any other material obligation under this Agreement and does not cure the same within ten (10) days after the occurrence or (c) abandons or misuses the Equipment or any Bottles. Upon default, Company will have the right to terminate this Agreement without notice to Customer, to require Customer to return the Equipment and Bottles, to enter Customer's premises to repossess the Equipment and Bottles, to sell or otherwise dispose of the Equipment and Bottles, to charge Customer a reasonable fee for cleaning and refurbishing the Equipment and Bottles prior to sale or disposition, to charge Customer a reasonable fee for collection costs, and to exercise any and all of the following cumulative remedies and any other rights or remedies it may have at law or in equity: (i) terminate this Agreement without notice to Customer; (ii) accelerate and require Customer to pay immediately all amounts owed under this Agreement; (iii) require Customer to pay Company the greater of the Equipment and Bottles' fair market value or the Equipment and Bottles' depreciated value plus the balance of this Leased Equipment rental term at the end of the term, and/or (iv) repossess the Equipment and Bottles. Customer waives notice, legal process, or lawsuit for trespass or other damages Company may incur as a result of Company's enforcement of its rights under this Agreement. In any action by Company to enforce any rights under this Agreement, a person who is not a lawyer may represent Company. Customer will pay Company's reasonable collection and/or attorneys' fees, as a result of Customer's default or the exercise of Company's remedies.

15. MOBILE MESSAGING DELIVERY SERVICE. Company may use a mobile messaging service ("Mobile Messaging Service") to tell Customers The Mobile Messaging Service is offered to provide information to Customers via their mobile phones about upcoming delivery of their purchased. Text messages or phone calls may be made using an auto dialer or prerecorded voice. If Customer wishes to receive the Mobile Messaging Service, Customer must provide Company with Customer's mobile phone number and prerecorded voice. If Customer wishes to receive the Mobile Messaging Service, Customer must provide Company with Customer's mobile phone number. Customer agrees that Company may make phone calls or send text messages through Customer's wireless provider. Customer agrees that Company may make phone calls or send text messages through Customer's wireless provider. Customer agrees that Company may make phone calls or send text messages through Customer's wireless provider. IMMEDIATELY TERMINATE THIS AGREEMENT. Company does not charge customers to receive text messages, however, wireless carriers may apply standard text messaging charges to Customer's wireless account. Customer agrees that Company is not responsible for any charges Customer may incur as a result of receiving text messages. Customer agrees to indemnify, defend and hold harmless Company, its officers, directors, employees, agents, licensors and suppliers from and against all losses, expenses, damages and costs, including reasonable attorneys' fees, resulting from or arising out of Customer's use of the Mobile Messaging Service, or from Customer's failure to provide Company with any information necessary for the proper use of the Mobile Messaging Service, or from Customer's failure to promptly update any information provided to Company relating to the Mobile Messaging Service. Customer agrees that Company will not be liable for delay, interrupted, or misdirected delivery of any information sent through the Mobile Messaging Service, any errors in such information, or any Customer delay or inability to rely on the information or Mobile Messaging Services, or any interruption of the Mobile Messaging Service. Company may terminate this Agreement at any time.

16. ELECTRONIC BILLING AND MOTOR CAUTIONS. Customer agrees that Company may provide Customer with information regarding this Agreement by providing the information in Customer's account on the Reader/Readywise.com website. Customer agrees that Company may provide Customer with notices regarding this Agreement by e-mail. Customer has the right to receive a paper copy of any document provided by Company and provide Customer with paper copies upon request. Customer agrees that Customer must have minimum access and a computer device with a compatible browser software capable of viewing PDF files, and the ability to print or download and save PDF files. Customer confirms that Customer is able to receive, view and retain electronic documents. Customer may withdraw Customer's consent to electronic delivery by notifying Company in writing.

17. MISCELLANEOUS. Customer may not modify or indirectly assign any of its rights under this Agreement and will not allow any third party to take possession of the Equipment or Bottles without Company's prior written consent. Company may assign this Agreement to any Company affiliate or successor. Customer's failure or delay in exercising any right will not constitute a waiver of that right. Customer's use of the Mobile Messaging Service from Customer's wireless provider's wireless network may be subject to certain limitations and restrictions. Customer is solely responsible for Customer's use of the Mobile Messaging Service in violation of any applicable laws, regulations or Customer agreements with Customer's wireless provider. Customer agrees that Company will not be liable for any delays in the content, or for any actions you may take in reliance thereon. Customer agrees that Company may terminate this Agreement or Customer's use of the Mobile Messaging Service at any time without notice. Customer agrees that Company may modify the Mobile Messaging Service at any time without notice. Customer agrees that Company may charge Customer fees for the Mobile Messaging Service without notice to Customer, except that Company will inform Customer in advance of any charges. Customer agrees to pay all charges that are billed to Customer's wireless account in connection with the Mobile Messaging Service. Customer agrees that Company will not be liable for any charges Customer may incur as a result of using the Mobile Messaging Service, including those charges related to roaming or overage charges

Test

The Swimming Hole

An old farmer in Nebraska had owned a large farm for several years. He had a large pond in the back, fixed up nice; picnic tables, horseshoe courts, and some apple and peach trees. The pond was properly shaped and fixed up for swimming when it was built.

One evening the old farmer decided to go down to the pond, as he hadn't been there for a while, and look it over. He grabbed a five-gallon bucket to bring back some fruit. As he neared the pond, he heard voices shouting and laughing with glee.

As he came closer he saw it was a bunch of young women skinny-dipping in his pond. He made the women aware of his presence and they all went to the deep end of the pond.

One of the women shouted to him, "We're not coming out until you leave!"

The old man frowned. "I didn't come down here to watch you ladies swim naked or make you get out of the pond naked." Holding the bucket up he said, "I'm here to feed the alligator."

Financial Maintenance at Renewal

Important Notice: This form only needs to be completed if your household's share of the monthly expense for housing exceeds 70% of the total gross income for all household members. Most consumers are not required to complete the form below. It has been added to this Renewal Application booklet only in case you need to complete it.

For example: If you are earning $1 000 per month with a rent/mortgage expense of $500 per month you only have a 50% ($500/$1000) expense level and do not need to complete this form. However, if you are earning $1 000 per month with a rent/mortgage expense of $800 per month you have an 80% ($800/$1000) expense level and need to complete this form.

If you know that this form applies to you, please complete and sign it now. If you are not sure, you can choose to complete or you can leave it blank. If you leave it blank and we determine that it is required from you, we will send you another form. We will suspend our processing of your case for up to 14 days while we await your response. If we do not receive your response within these 14 days we will not be able to renew your coverage and your case will be closed.

Monthly Living Expenses		Explanation of Expenses
If you have any of the following monthly living expenses, please check (☑) the box in front of it and write-in the monthly amount spent on each item		Explain how you pay for each of the monthly living expenses (such as cash on hand, chequing/savings account monies income/wages, credit cards, help from others). List the names and relationship to you of anyone providing help, or make a note if the expense has not been paid and for how long it has not been paid

Applicant/Recipients must read the following and sign Page 3 of this booklet

By having signed Page 3 of this Renewal booklet, I certify that all of the above information (if any) is true and correct. I understand that this information is to be used to determine eligibility for Public Health Insurance Programs. I also understand that if I intentionally misrepresent my situation, I may have to repay benefits received and may be subjected to prosecution under State law.

Facilitated Enrollers (if assisting consumer) must read the following and sign Page 3 of this booklet

By having signed Page 3 of this Renewal booklet, I certify that the information reported on this form was provided solely by the applicant/recipient. I did not modify the information in any way. I understand that if I intentionally falsified information on this form or if I assisted the applicant/recipient in falsifying any information, I may lose my job and be prosecuted under State law.

Test

Test

Align the print head. Does that fix the problem?

- ○ Yes
- ○ No

Follow these steps to align the print head.

1. Load a few sheets of plain paper in the sheet feeder.
2. Open the Applications folder.
3. Open **EPSON Printer Utility3**.
4. Select **WF-610 Series** and click **OK**.
5. Select **Print Head Alignment**.
6. Follow the on-screen instructions to print an alignment sheet.

   Note:
   Do not press the **Stop/Clear Settings** button to cancel printing of the alignment sheet.

7. Check the printed alignment pattern and compare it to the alignment criteria on your screen.
8. If necessary, enter the number of the best pattern and click **Next**.

FAX

With power on, open the toner access main door. You will get a "Cover is Open" message on the LCD.

Press the "Clear/Back" button and you will be taken to the toner "Reset Menu".

You can then scroll through the reset options for the printer's toner cartridges:

B TNR-S – Black toner small cartridge (TN-110)

B TNR-H – Black toner high-capacity cartridge (TN-115)

C TNR-S – Cyan toner small cartridge (TN-110)

C TNR-H – Cyan toner high-capacity cartridge (TN-115)

M TNR-S – Magenta toner small cartridge (TN-110)

M TNR-H – Magenta toner high-capacity cartridge (TN-115)

Y TNR-S – Yellow toner small cartridge (TN-110)

Y TNR-H – Yellow toner high-capacity cartridge (TN-115)

Select the cartridge type you have and the color you want to reset, and press OK. Since I had small cartridges, I used the S option for all three colours.

Each cartridge must be reset individually. Press "1" to reset.

Press "Clear/Back" to get out of the menu, then close the door.

EDUCATIONAL ASSISTANCE PROGRAM
Course Approval Guidelines

- For courses **not** involving sports, games or hobby activities
  - If a course is taken at a community college, 4-year college or graduate school then it is reimbursable
  - If a course is taken at a 2-year technical or trade school, community-based adult education source, or for-profit training source, then it is reimbursable only if it is related to an employee's current or future work duties with the company
    - Employee must obtain advance written approval from their supervisor or a member of the Benefits Department

- For courses involving sports, games or hobby activities, **at least one** of the following three conditions must be met
  1. Course must be part of a degree program offered by a community college, 4-year college or graduate school
  2. Course will potentially help the employee perform their current or possible future duties with the company
  3. Course is related to the company's business and will help the employee better understand that business

  The course must also be taken at a community college, 4-year college or graduate school

- Courses required as part of a degree program offered at a community college 4-year college or graduate school are automatically eligible for reimbursement
  - Advance approval is not required when taking this type of course as long as the course is taken at a community college, 4-year college or graduate school
  - If this type of course is **not** taken at a community college, 4-year college or graduate school written confirmation from the educational institution is required indicating that the course is transferable towards completion of one of their degree programs
  - You cannot be reimbursed for the same class you have taken in a previous term and already been reimbursed for

- Courses **NOT** taken at a community college, 4-year college or graduate school are **NOT** eligible for reimbursement if they
  - Provide any training to the employee that would help them qualify for self-employment or employment by someone other than the company, such as:
    - Pilot training
    - Real estate licenses
    - Cosmetology careers
    - Masseuse careers
    - etc

4

Bk

Meaty Baked Ziti

Ingredients

2 tablespoons EVOO – Extra Virgin Olive Oil
1 teaspoon fennel seed
1/2 pound ground beef
Salt and pepper
1/2 pound sweet or hot Italian Sausage
3 sprigs rosemary, chopped
1 small onion, diced
4 cloves garlic, chopped
1/2 cup dry white wine
2 28-oz cans San Marzano tomatoes
cup beef or veal stock
pound ziti rigate
pound fresh mozzarella
cup grated Parmigiano-Reggiano cheese

Yields: 6

Preparation

Bring a large pot of water to a boil for pasta.

Heat EVOO in Dutch oven over medium-high heat. Add fennel and beef and season with salt and pepper. Add sausage and brown and crumble both until caramelized, breaking meats up into small bits. Add rosemary, onions and garlic and cook partially covered about 5-7 minutes, stirring occasionally to soften the onions. Deglaze the pan with a little wine, add broth and tomatoes and simmer 30 minutes.

Cook pasta about 8 minutes, drain and rinse. Toss pasta with sauce and pour in casserole. Top with slices of mozzarella and sprinkle with parm. Bake from room temperature at 400°F until cheeses melted and bubbly, 20 minutes. If cooking from all fresh and not frozen, allow pasta comes to room temp, cover with foil and bake 30 minutes then uncover to lightly brown, another 15-18 minutes.

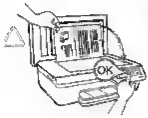
Important

Your appointment letter will indicate a specific date and range of time for you to call in to conduct your interview. This is to ensure all our customers scheduled that day do not call at the same time.

We will make every effort to answer your call as quickly as possible. Please stay on the line and the next available caseworker will be with you.

To ensure any benefits you are eligible for continue without delay, you must return the enclosed JFS 7204 form and any verifications noted that pertain to your case.

Your patience is appreciated.



IMPORTANT:

You must scan this alignment page for best print quality:

STEP 1 Lift the lid. Place this alignment page face down on the right front corner of glass. Close the lid.

STEP 2 Press OK

Welcome to
Windows® Fax and Scan

Get started sending and receiving faxes and scans

Fax You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of faxes you receive.

To set up a fax account

1. Connect your computer to a phone line.

   If you use a dedicated phone line for faxing, connect the phone line to the modem on your computer. If you share a phone line with a telephone, connect the phone line to the modem on your computer, and then connect the telephone to the computer.

2. On the toolbar, click **New fax**.

3. Follow the instructions in the setup wizard to complete the fax setup. If you are unsure of any of the information you need to enter, contact your system administrator or the person who provided your computer. For more information about setting up a fax account, click the Help button on the toolbar.

To send a fax using the fax cover page template that you just set up, click **New fax** on the toolbar. Type the recipient's fax number and other information, and then click **Send**. You can also fax an e-mail message or file to someone else.

To receive a fax

1. Make sure your computer is turned on and connected to a phone line. If you have set up a dedicated fax line, make sure that the fax modem is set to answer incoming calls.

2. In the navigation pane, under **Fax and Scan**, click **Inbox**.

   On the toolbar, click **New fax**.

3. Click the down arrow next to **Receive a fax now**, and then click **Receive a fax now**.

To view, print, or forward a fax you've received, open the Inbox folder. Select the fax you want to work with, and then click the appropriate button on the toolbar.

MARCH 24 | 14

COLD AGAIN

Hi all!

Happy Faxing!

FAIRFIELD
LANE

A phone must be registered to an extension before you start setup. Refer to Register a Phone to an Extension for instructions.

NOTE Select Linksys ATA (T38) as the provisioning model when adding the device to your account.

Factory Reset the ATA Adapter

If the ATA was not purchased directly from Vonage Business or you wish to register the ATA to a different extension on your Vonage Business account, you will want to perform a factory reset to the device.

1. Plug in and power on the ATA before beginning. You will also need a paper clip or a toothpick to reset the device.
2. Check the back of the ATA, there is an indented button on the left with the word **RESET** below it.
3. Using the paper clip or tooth pick, press and hold the reset button for 10-15 seconds. The device should be reset to the factory settings.

SPA 122 Web User Interface (UI) Access

Both the SPA 112 and SPA 122 are configured the same; however, the SPA 122 requires some additional steps to access the Web UI. If you purchased the SPA 112, skip to section **Set Up the ATA Device** below.

If you purchased an SPA 122, follow the steps below to unlock the Web UI so the device can be provisioned from any computer on the network.

From a Computer (preferred)

1. Plug a computer into the Ethernet port on the ATA.

Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service. Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below

NOTE: Be sure that your phone number is not Caller ID blocked by your directions company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call waiting, or call privacy features.

NOTE: Whenever troubleshooting a fax issue, it is good practice to set the Automatic Reports option to **Every Error** before attempting a test fax. This way, even if the test fax fails, an error code will be generated that will assist you in future troubleshooting. This option is available in different places on different products, consult the product User's Guide for specific steps.

1. Send a one page black and white test fax to **1-800-bpfaxtest (1-866-473-2983)**.
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper Setup and configuration.

NOTE: The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full, 10-digit telephone number of the fax machine, including the area code.

For more information or assistance, click **Contact HP** at the top of this page.

WINDOW SYSTEMS
STYLES TO SUIT ALL HOMES

Whatever look you want to achieve for your home, your installer will ensure the design of your new window system blends in perfectly

Designs include:

- casement windows with internal or external beading
- key or bow casements
- French windows – ideal as fire escape windows
- 'tilt and turn' windows (great for easy cleaning from the inside)

Invisible' gaskets offer a better finish

REHAU Tribec window and door systems have been specially designed to feature low-level gaskets on both frames and glazing beads, which means your gaskets will be much less obtrusive than traditional ones. In fact, they're almost invisible.

REHAU also offers complementary profile and gasket colours. These include silver grey gaskets with white profiles, dark brown with Mahogany and Rosewood profiles and accent coloured gaskets for Golden Oak profiles.

A modern or traditional finish?

The contemporary look created by REHAU Tribec window systems suits most homes. But if you prefer a more authentic look, your REHAU Tribec system frames can also replicate traditional joinery features. These include sculptured sashes and matching sculptured glazing beads such homes and clip-on Georgian bars, for a nostalgic period look with all the benefits of a modern window. However, if you're looking for a modern window to complement your property, then chamfered sashes are the ideal choice.

BROKEDOWN PALACE

Fare you well, my honey, fare you well my only true one.
All the birds that were singing are flown, except you alone.

I'm Going to leave this brokedown palace,
On my hands and my knees, I will roll, roll, roll.
Make myself a bed by the waterside,
In my time,in my time, I will roll, roll, roll.

In a bed, in a bed, by the waterside I will lay my head.
Listen to the river sing sweet songs, to rock my soul.

River going to take me, sing sweet and sleepy,
sing me sweet and sleepy all the way back home.
It's a far gone lullaby, sung many years ago.
Mama, mama many worlds I've come since I first left home.

Goin' home, goin' home, by the waterside I will rest my bones,
Listen to the river sing sweet songs, to rock my soul.

Going to plant a weeping willow,
By the bank's green edge it will grow, grow, grow.
Sing a lullaby beside the water,
Lovers come and go, the river roll, roll, roll.

Fare you well, fare you well, I love you more than words can tell,
Listen to the river sing sweet songs, to rock my soul.

LABOR CLAIM STATEMENT

O'Reilly AUTO PARTS

WHEN MAY A LABOR CLAIM BE FILED?
When a part is installed by a Professional Service facility and the part fails within 180 days from the purchase date. Only the original purchaser of the part may file a labor claim.

WHAT IS O'REILLY AUTO PARTS' POSITION ON LABOR CLAIMS?
O'Reilly Auto Parts is not responsible for labor or any other expenses incurred when a part is defective or fails. O'Reilly, however, does assist the Professional Service facility in filing a labor claim with the manufacturer. There is no assurance that your claim will be accepted by the manufacturer as most manufacturers do not have a written labor claim policy.

WHAT ABOUT THE DEFECTIVE PART?
If/when it is necessary to send the defective part to the manufacturer for analysis, if the part is found to be defective within its warranty period, O'Reilly will replace the part or refund the amount originally paid for the part. If the core, where applicable, has already been returned, the core charge will also be refunded.

WHAT WILL THE MANUFACTURER DO?
Once the manufacturer receives the part, they will have their engineers analyze it to determine if the part is defective, what caused the part to fail, and if the failure occurred from a manufacturing defect or something outside of their control. If the manufacturer determines that the part failure is their fault, they will review the invoice and perform warranty and determine the amount, if any you are entitled to receive.

HOW MUCH COMPENSATION COULD YOU RECEIVE?
Most manufacturers remunerate according to the following computation: Mitchell Labor Guide repair times at $38 per hour. Other parts damaged because of the failure may also be considered. Some manufacturers have a maximum labor allowance as explained in their policy. Other expenses that you may incur including but not limited to towing, rental car, meal expense, mileage and loss of income are not the responsibility of the manufacturer or O'Reilly.

WHAT YOU CAN DO TO BE SURE THE MANUFACTURER UNDERSTANDS YOUR LOSS.
Complete the claim form including a detailed description of its cure and reason for the claim. Include all receipts, original repair order, application data, length of labor, part service and the failed part, etc. that are outlined on the form. Include any photos which may add value to the manufacturer's engineering analysis and/or serve as a backup for the claim. Be sure all documents are fully legible and labor provided is fully outlined. Manufacturers won't consider labor that is not specified on the paperwork. It is also helpful to include on this form a complete description of the work performed.

HOW LONG WILL IT TAKE TO RECEIVE COMPENSATION?
It usually takes 6 to 8 weeks to process a labor claim. O'Reilly Auto Parts will encourage the manufacturer to respond to the claim within 90 days.

Troubleshooting Steps

The steps below will help you resolve common faxing problems.

- Switch off fax machine and unplug power adapter from device and from wall outlet.
- Let fax machine remain off for 10 seconds.
- Try a different phone cord between the fax machine and the Vonage device.
- Eliminate any splitters between the fax machine and the Vonage device.

Further Assistance

If you need help or wish to setup your XXXXXXX Fax Service, we are always available to help.

Test LLC Begins Refreshing Tests

DALLAS--(BUSINESS WIRE)-- Test LLC today announced the beginning of refreshing tests.

"We're hoping these tests come with a nice ocean breeze and a drink in a coconut," one mildly confused desk toy reported. "And a hammock. A nap sounds lovely."

Other sources located nearer the window noted that Test LLC is located nowhere near the ocean and is much more likely to experience thunderstorms in the near future.

Vibrant Magazines

Enjoy over 400 magazines in brilliant HD display, with beautifully detailed illustrations and glossy full-color layouts. Double tap an article to easier reading view and starting next month tap the cover to go directly to an article and bookmark your favorite articles for future reference. Magazines include favorites such as Vogue, National Geographic, Maxim, Cosmopolitan, ESPN and Better Homes and Gardens.

Amazon Prime members can borrow 180,000 titles for free with the Kin Owners' Lending Library, as frequ book a month, with no due dates.

Exclusive Kindle Titles

Over 100,000 Kindle exclusive titles best-selling authors including Kurt Vonnegut, Stephen Covey, Andy and Karen McQuestion.

20 million songs and count

Huge Music Selection

With over 20 million songs from thousands of artists, Amazon's MP3 music store is home to one of the largest music libraries on earth. Music you buy from Amazon is saved to the cloud for free, and you can play or download it anytime.

Your Music, Everywhere

Import the rest of your music libra Amazon Cloud Player and play it wi on your Kindle Fire HD - just tap M the Home screen to get started. Br and search your library, create and playlists, play your music from the or download for offline playback. A Amazon MP3 purchases and your i imported songs are stored free.

SPECIALISTS IN IP COMMUNICATIONS

SENDING & RECEIVING FAXES THROUGH LINKSYS VoIP ADAPTORS

Reliably transmitting faxes using Voice-over-IP is difficult to achieve. The problem lies in the fact that both the sending & receiving fax machines need to run pretty much perfectly in time with each other, as the data sent to the receiving fax must arrive in the same order as it left the sending fax. Over an analogue (PSTN) telephone line this is fine as variations in bit rate between sections of data (known as jitter) is pretty much zero, it is also trivial over an ISDN line as there is very strict timing & less control. In both these examples data (including voice) is transmitted in an orderly fashion & arrives at the destination with the same order & timing as it was sent with.

However IP (Internet Protocol) was designed to carry non-time critical data such as web pages where it doesn't really matter what order the sections of data (called packets) arrive & if a packet is dropped along the way it can be re-requested without causing any problems. IP communications are also subject to high jitter caused by network congestion, timing drift or route changes. As soon as you try to send an analogue fax (or any type of modem communication such as a credit card payment machine) over IP these effects are disastrous. Additionally to improve voice quality over IP, methods such as echo cancellation, variable jitter buffers & silence suppression can be employed. Any one of these will cause fax to fail.

SENDING FAX USING A VOICE CODEC

One way of sending faxes using VoIP with Linksys adaptors is to use the common g.711a codec (A-LAW) which is normally used to transmit voice. This codec (including IP overheads) requires roughly 100kbps in either direction to work. In order to have a better chance of success the fax machine should be set to 14.4Kbps as any higher is unlikely to work over any VoIP connection.

The entire range of Linksys adaptors support fax pass-through using the g.711a codec. It is necessary to alter a few settings in the line tab of the web interface of the Linksys adaptor. You only need to alter the line the fax will be plugged into. The following settings will give the best results:

- Network jitter buffer: very high
- Jitter buffer adjustment: disable
- Call Waiting: no
- 3 Way Calling: no
- Echo Canceller: no
- Silence suppression: no
- Preferred Codec: G711a
- Use pref codec only: yes

There is no real way to guarantee this method of faxing is going to work all the time. A lot will depend on the quality of your Internet service from your ISP. As always with Voice-over-IP you will see more reliable results when using a router with Quality-of-Service functionality to prioritise voice traffic over data traffic on your Internet link.

SENDING FAX USING THE T.38 PROTOCOL

T.38 is the real-time Fax-over-IP protocol. Rather than just trying to use a voice codec to transmit an analogue fax signal, t.38 has been developed purely to allow fax or modem transmission over an IP network (such as the Internet). A gateway (such as a Linksys adaptor) that supports t.38 deals with all the delays, timing jitter, packet loss and isolates the analogue fax machine from these as far as possible. Also when t.38 sends faxes as image data rather than audio, the bandwidth requirements are half that of using g.711a (so roughly 50kbps in either direction).

The t.38 protocol is still a new technology & the range of devices supporting it well is very limited. Currently only the Linksys SPA-2100 adaptor has t.38 support & you must be using firmware version 3.1.5 onwards. At the time of writing, the SPA-2002 has sufficient memory capacity & processing power for t.38, the support is planned for a future firmware release from Linksys.

Sending or receiving a fax using t.38 is automatic when using the SPA-2100. It is necessary to set the "Fax Passthru Method" to "ReINVITE" for the line the fax is connected to.

The reliability of t.38 faxes should be much greater than using a voice codec but it is worth considering that the device you are sending a fax to or receiving a fax from, must also be a working t.38 device. If you are registered with a VoIP service provider who provide you with a PSTN phone number you want people to fax data to/fax to, you soon check that your provider supports t.38.

Form W-4 (2008)

Purpose. Complete Form W-4 so that your employer can withhold the correct federal income tax from your pay. Consider completing a new Form W-4 each year and when your personal or financial situation changes.

Exemption from withholding. If you are exempt, complete only lines 1, 2, 3, 4, and 7 and sign the form to validate it. Your exemption for 2008 expires February 16, 2009. See Pub. 505, Tax Withholding and Estimated Tax.

Note. You cannot claim exemption from withholding if (a) your income exceeds $900 and includes more than $300 of unearned income (for example, interest and dividends) and (b) another person can claim you as a dependent on their tax return.

Basic instructions. If you are not exempt, complete the **Personal Allowances Worksheet** below. The worksheets on page 2 adjust your withholding allowances based on itemized deductions, certain credits, adjustments to income, or two-earner/multiple job situations. Complete all worksheets that apply. However, you may claim fewer (or zero) allowances.

Head of household. Generally, you may claim head of household filing status on your tax return only if you are unmarried and pay more than 50% of the costs of keeping up a home for yourself and your dependent(s) or other qualifying individuals. See Pub. 501, Exemptions, Standard Deduction, and Filing Information, for information.

Tax credits. You can take projected tax credits into account in figuring your allowable number of withholding allowances. Credits for child or dependent care expenses and the child tax credit may be claimed using the **Personal Allowances Worksheet** below. See Pub. 919, How Do I Adjust My Tax Withholding, for information on converting your other credits into withholding allowances.

Nonwage income. If you have a large amount of nonwage income, such as interest or dividends, consider making estimated tax payments using Form 1040-ES, Estimated Tax for Individuals. Otherwise, you may owe additional tax. If you have pension or annuity income, see Pub. 919 to find out if you should adjust your withholding on Form W-4 or W-4P.

Two earners or multiple jobs. If you have a working spouse or more than one job, figure the total number of allowances you are entitled to claim on all jobs using worksheets from only one Form W-4. Your withholding usually will be most accurate when all allowances are claimed on the Form W-4 for the highest paying job and zero allowances are claimed on the others. See Pub. 919 for details.

Nonresident alien. If you are a nonresident alien, see the instructions for Form 8233 before completing this Form W-4.

Check your withholding. After your Form W-4 takes effect, use Pub. 919 to see how the dollar amount you are having withheld compares to your projected total tax for 2008. See Pub. 919, especially if your earnings exceed $ 90,000 (Single) or $180,000 (Married).

Personal Allowances Worksheet (Keep for your records.)

Roasted Cocoa Cauliflower

If you think cauliflower and cocoa powder sound like odd bedfellows, think again. The cauliflower not only gets lovely brown, but has a nice, subtle cocoa powder and chile bouquet and a earthy undertone that doesn't taste

You'll also need, plus 3 tablespoons for drizzling:

2 tablespoons unsweetened cocoa powder

1½ teaspoons chile powder

2 teaspoons kosher salt

1 head cauliflower, leaves removed, stem trimmed, cut into florets

1. Preheat oven to 350 degrees. Combine oil, cocoa powder, chili powder, and salt in a large mixing bowl. Transfer as much of the mixture as possible into a container, but do not clean the bowl.

2. Place cauliflower florets side down in the bowl. Drizzle 2 tablespoons of oil mixture over the florets and toss to coat. Flip florets so they are stem side down.

3. Then scrape half of the cocoa-oil mixture over the stalk to season the interior of the cauliflower. Turn the cauliflower over and drizzle the rest of the cocoa-oil mixture on top. Distribute and rub the mixture evenly with the palms of your hands. Finally, drizzle and rub the remaining 1 tablespoon of oil on top of the cauliflower.

4. When ready to roast, set the cauliflower, florets side up, in a cast-iron skillet. Bake the cauliflower until the stem is tender in the middle, about 1½ hours.

1-888 477-65

Initial Settings and Adjustments

You can send information to the other party when transmitting or receiving is the document. This information is shown on the display of the other machine and printed as a report. The following information can be sent:

Important

- You can confirm programmed settings from the User Parameter List. It is recommended that you print and keep the User Parameter List when you program or change settings. See p.172 "Printing the User Parameter List", *Facsimile Reference <Advanced Features>*

Fax Header

The Fax Header is printed as the header of every fax you send. You should include your name in the Fax Header.

You can program Fax Header1 or Fax Header2. When you send originals using the destination list, you can select which Fax Header is printed on the document received by the other party.

Important

- In the USA, the Fax Header must contain the telephone number of the line your machine is connected to. It will be printed on the header of every page you send. Required in the USA.

Note

- You can register up to 32 characters in the Fax Header.
- You can use characters, symbols, numbers, and spaces.
- You can set whether or not to print a Fax Header using [Fax Header Print] under Options. See p.74 "Fax Header Print", *Facsimile Reference <Advanced Features>*
- In program No. 1, you can register a preference about whether or not the Fax Header is always printed. You will then switch the setting using the Fax Header Print function only when necessary. See p.130 "Registering a priority function using a program", *Facsimile Reference <Advanced Features>*.
- In the USA, law requires that your fax number be included in the Fax Header. Program the fax number and switch on Fax Header Print.

Own Name

The Own Name is sent to the other party when you send or receive a fax using a G3 line. This name should include your name. The Own Name is shown on the display of the other machine and printed on a report.

Limitation

- Own Name works only if the other machine is of the same manufacturer and has the Own Name function.

Note

- You can use characters, symbols, numbers, and spaces.
- You can register up to 20 characters as an Own Name.

Test Fax

Who

Should Attend This Free Event?

Everyone with an interest in keeping abreast of the current innovations in equipment and solutions related to vacuum technology and a variety of other R&D and advanced manufacturing areas is welcome and encouraged to attend. The 2012 AVS/New Mexico Chapter Vendor Exhibit will be an excellent opportunity to see products and services offered by the national and local participating companies

What

Exhibit Topic Areas

The vendor show will be relevant to engineers, technicians, scientists, purchasing professionals and others in the following fields:

Plasma Processing, Thin Films, Surface Science, Vacuum Technology, Materials Characterization, Electronic Materials, as well as other high tech areas

Advanced Manufacturing, Aviation & Aerospace, Electronics, Microelectronics & Microsystems, Optics & Photonics and Renewable Energy

When

Tuesday, May 22, 2012

Show Hours: 9:30 am to 3:30 pm

COMPLIMENTARY LUNCH BUFFET

Enjoy a delicious lunch while leisurely examining the latest and greatest in equipment and services in the exhibit area from 11:30 am to 1:30 pm.

Where

Sheraton Albuquerque Airport Hotel

2910 Yale Boulevard S.E.
Albuquerque, NM 87106

Why

Attend because of the availability of the Vendors to answer your product questions and

You will be able to interact with others in your field, and

You will be supporting the New Mexico Chapter of AVS

From the AVS Website

As an interdisciplinary professional Society, AVS supports networking among academic, industrial, government, and consulting professionals involved in a variety of disciplines... chemistry, physics, biology, mathematics, all engineering disciplines, business, sales, etc. through common interests related to the basic sciences, technology development, and commercialization of **materials, interfaces, and processing** area.

THIS IS JUST A TEST FAX. WEEEEEEEEEEEEEEEEEEEEEEEE!

HP Support

HP Fax Products - Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document explains how to test your HP fax machine using the HP Fax Test Service.

Before this document, be sure that you have plugged in your **Printable Version** button at the upper right corner of the page.

Test your fax machine

To test the capability of your fax machine, follow the steps below.

Step 1

Be sure that your phone line is connected to the port labeled **1-LINE** on the back of your HP fax machine. If you have a dedicated fax line, this is usually the only phone line connected to your HP fax machine. If you have a shared line for voice and fax, you may have a phone connected to the port labeled **2-EXT** on the back of your HP fax machine. For more information, see the setup poster that came with your HP fax machine.

Step 2

Before you begin, be sure that your HP fax machine is set to use the **automatic** answer mode. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 3

Be sure that your HP fax machine is set to detect a dial tone before dialing. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 4

Be sure that your HP fax machine is set to include a fax header. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 5

Be sure that your HP fax machine is set to the correct country/region. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 6

Be sure that your HP fax machine is set to the correct date and time. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 7

Be sure that your HP fax machine is set to the correct fax header. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 8

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 9

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 10

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 11

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 12

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 13

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 14

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 15

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 16

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 17

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 18

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 19

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 20

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 21

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 22

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 23

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 24

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 25

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 26

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 27

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 28

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 29

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 30

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 31

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 32

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 33

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 34

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 35

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 36

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 37

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 38

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 39

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 40

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 41

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 42

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 43

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 44

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 45

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 46

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 47

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 48

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 49

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 50

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 51

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 52

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 53

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 54

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 55

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 56

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 57

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 58

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 59

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 60

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 61

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 62

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 63

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 64

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 65

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 66

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 67

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 68

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 69

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 70

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 71

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 72

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 73

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 74

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 75

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 76

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 77

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 78

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 79

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 80

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 81

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 82

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 83

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 84

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 85

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 86

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 87

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 88

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 89

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 90

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 91

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 92

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 93

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 94

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 95

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 96

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 97

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 98

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 99

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 100

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 101

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 102

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 103

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 104

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 105

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 106

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 107

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 108

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 109

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 110

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 111

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 112

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 113

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 114

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 115

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 116

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 117

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 118

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 119

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 120

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 121

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 122

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 123

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 124

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 125

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 126

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 127

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 128

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 129

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 130

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 131

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 132

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 133

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 134

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 135

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 136

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 137

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 138

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 139

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 140

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 141

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 142

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 143

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 144

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 145

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 146

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 147

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 148

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 149

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 150

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 151

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 152

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 153

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 154

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 155

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 156

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 157

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 158

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 159

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 160

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 161

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 162

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 163

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 164

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 165

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 166

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 167

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 168

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 169

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 170

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 171

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 172

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 173

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 174

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 175

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 176

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 177

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 178

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 179

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 180

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 181

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 182

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 183

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 184

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 185

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 186

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 187

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 188

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 189

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 190

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 191

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 192

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 193

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 194

Be sure that your HP fax machine is set to the correct fax number. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

Step 195

Be sure that your HP fax machine is set to the correct fax name. This is usually the default setting. For more information, see the setup poster that came with your HP fax machine.

How Can I Test My Fax M
fax machine test m
fmanswers.com
Exclusively at Merit
Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:
To test the send functionality of your fax machine, send a one-page fax to 1-888-87-FAXTO (a toll-free number in the United States). When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.
To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully...it will automatically answer and sort out the test fax.

Random Stuff Sent From Your Fax Machine

Fax something interesting to! Free to 1-855-330 1239 or 1 213 294-2943

To the right are pages that folks have faxed us recently. Click any thumbnail to see the large version and rate it for interestingness.

You can fax something interesting to 1 855-330 1239 (your fax will never ring, ever) or 1 213 294-2943 (long distance to Los Angeles, California) and it should appear here within a couple of minutes. (It's a toll free number if you're in the USA.) Keep it clean & legal.

Fax a ruple page documents with no cover sheet. If you fax more than one page only the last page will appear here. We try to snip off the ten few inches of the page where your company name and fax number should appear, but make no promises that this will actually work.

Privacy policy: We hate spam and junk faxes, and will absolutely not send you any unsolicited e-mail or faxes. We won't share your information with marketers or anyone else

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing

- ***Anyone, anywhere*** can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents
- PDF files ***always print correctly*** on any printing device.
- PDF files always display ***exactly*** as created, regardless of fonts, software, and operating systems. Fonts, and graphics are not lost due to platform, software and version incompatibilities.
- The free Acrobat Reader is easy to download and can be freely distributed by anyone
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web

This is a sample PDF document

Let's Fax it with the Interfax web service!

HP Color LaserJet 2600n printer

Create high-impact color documents with this surprisingly affordable network-ready laser printer

- Create professional, high-impact color documents and brochures with HP's ImageREt 2400 technology
- Fast printing with Instant-on Technology and up to 8 ppm color/8 ppm black, your print jobs is finished before many printers have even started printing
- Easily set up, use, manage and maintain this space-saving printer
- Built-in networking for easy printer sharing
- HP engineered to provide sharp text and graphics and consistent color quality over the life of the printer

Use genuine HP LaserJet printing supplies for professional-quality color every time

- HP's complete printing system—printers, print cartridges and paper—engineered to work together precisely for optimal quality, reliability and productivity
- HP LaserJet toner is engineered to be smaller and more uniform in shape to deliver unmatched excellence and consistency
- HP Smart printing technology makes it easy to monitor toner levels and cartridge performance
- HP SureSupply makes re-ordering supplies easy
- HP professional-quality everyday and specialty papers are designed for the way you work.

[1] Using genuine HP supplies ensures availability of all HP printing features. SureSupply program availability varies by region.

HISTORICAL HAPPENINGS

1928 Charles Lindbergh is presented Medal of Honor by President Coolidge for his first trans-Atlantic flight. **1963 Alcatraz**, a federal penitentiary on an island in San Francisco Bay, closes (see trivia).
1965 Martin Luther King Jr leads 3,200 people on the start of the third and finally successful civil rights march from Selma to Montgomery, Alabama.

Doctor: I have some bad news and some very bad news
Patient: Well, might as well give me the bad news first

Doctor: The lab called with your test results. They said you have 24 hours to live.
Patient: 24 HOURS! That is terrible! WHAT could be WORSE? What is the very bad news?
Doctor: I've been trying to reach you since yesterday

New Orleans lawyer sought an FHA loan for a client. He was told the loan would be granted if he could prove satisfactory title to a parcel of property being offered as collateral. The title to the property dated back to 1803, which took the Lawyer three months to track down.

After sending the information to the FHA, he received the following reply:

"Upon review of your letter adjoining your client's loan application, we note that the request is supported by an Abstract of Title. While we compliment the able manner in which you have prepared and presented the application, we must point out that you have only cleared title to the proposed collateral property back to 1803. Before final approval can be accorded, it will be necessary to clear the title back to its origin."

Annoyed, the lawyer responded as follows:

"Your letter regarding title in Case No. 189156 has been received. I note that you wish to have title extended further than the 194 years covered by the present application. I was unaware that any educated person in this country, particularly those working in the property area, would not know that Louisiana was purchased, by the U.S. from France in 1803, the year of origin identified in our application.

WEEK STARTING DECEMBER 1

Song 48 and Prayer

❑ **Congregation Bible Study:** *lr* chap. 16 ¶18-22, box on p. 167 (30 min.)

❑ **Theocratic Ministry School:**

Bible reading: De Testimony 32:34 (30 min.)

No. 1: Deuteronomy 32:22-33 (4 min. or less)

No. 2: At Death, Neither Soul Nor Spirit Continues Living—*lr* p. 327 ¶4-p. 329 ¶6 (5 min.)

No. 3: Adultery—To Commit Adultery Is to Sin Against God—*lr*-1 p. 53 ¶4 p. 54 ¶1 (5 min.)

❑ **Service Meeting:**

Song 128

10 min: Offer the Magazines During December. Discuss an illustrative sample presentations on this page. After each presentation, invite comments from the audience on why the subject being featured may appeal in some in the territory.

10 min: Local needs

10 min: How Did We Do? Discussion. Invite publishers to comment on how they benefited by applying points from the article "Improving Our Skills in the Ministry —Showing Personal Interest." Ask the audience to relate good experiences

Song 119 and Prayer

Announcements

■ **November and December:** *What Does the Bible Really Teach?* or *Would You Like to Know the Truth?* **January and February:** *Good News from God* or *Was Life Created?*

■ Donations for the worldwide work that are sent directly to the branch office should be made payable to "Watchtower." The branch office's financial address is Watchtower, c/o Accounting, Office 25 Columbia Heights Brooklyn, NY 11201-2483. If you would like to donate electronically ask your congregation secretary about the July 8, 2015 letter to all congregations in the United States, Puerto Rico, and the U.S. Virgin Islands.

Sample Presentations

To Start Bible Studies on the First Saturday in December

"We are here as a public service to families. Many parents want their children to love God. Do you think this is something that parents can teach their children, or must children learn to love God on their own?" Allow for response. Show the back of the December 1 *Watchtower* and consider together the material under the first question and at least one of the cited scriptures. Offer the magazines, and arrange to return to discuss the next question.

Watchtower, December 1

We are making brief visits to talk about God. We know that everyone has his own opinion about God. Do you think that most people view him as an impersonal force of nature or as a friend who cares about them personally? [Allow for response.] This Bible verse tells us what kind of relationship God wants us to have with him. [Read James 4:8a.] This magazine outlines three things that we can do to feel closer to God."

Awake! December

"We are visiting briefly because of concern over a common health problem. According to the World Health Organization, mental disorders such as depression, will affect one in four people at some point in their lives. Do you think that mental disorders are becoming more common? [Allow for response.] The Bible gives us hope that in the future life on earth will be free of illness and pain. [Read Revelation 21:3, 4.] This magazine outlines a few things that can help us all look after our mental health."

Field Service Highlights

From January through May 2014, publishers sharing in the special meal-and-in-public preaching project have shared over 5,295,000 bible studies and distributed 29,000,000 books and 1,487,537 magazines. As of May 20, 4 field programs were active in the following 13 cities: Atlanta, Boston, Chicago, Indianapolis, Los Angeles, Miami, Orlando, New York City, Philadelphia, San Francisco, San Juan (Puerto Rico), and the Spanish Town (Jamaica) and Washington, D.C. May we individually take advantage of every opportunity to preach the good news. Ram 10:13

4. Facsimile Features

This chapter describes user tools in the Facsimile Features menu. For details on how to access Facsimile Features see "Accessing User Tools (System Settings)"

General Settings/Adjustment

This section describes the user tools in the General Settings/Adjustment menu under Facsimile Features.

- **Memory / Immed. Transmission Switch**
  Specify the Transmission Mode for document transmission.
  The default setting is **Memory Transmission**

- **Text Size Priority**
  Specify the character size of your originals for scanning.
  The default setting is **Standard**

- **Original Type Priority**
  Specify the type of originals for scanning.
  The default setting is **Text**.

- **Auto Image Density**
  Use this function to prioritize automatic Image Density for scanning your originals.
  The default setting is **On**.

- **Adjust Scan Density**
  Specify the scan density of your originals
  The default setting is **Level 4**.

- **Select Title**
  Use this function for selecting the title to be shown on the destination list
  The default setting is **Title 1**

- **Change Initial Mode**
  Select whether contents registered in program No.1 are to be used as the initial settings after the power is turned on or the **[Clear Modes]** key is pressed
  The default setting is **Standard**
  You cannot select Program No 1 if program No.1 has not been programmed with priority functions

- **Adjust Sound Volume**
  Adjust the sound volume during On Hook Mode and Immediate Transmission
  The default settings for each sound volume are **Level 2**.

MY Test Page

Is Better than Your Test Page

LOUD TV OR OTHER SOUND PRODUCING DEVICES.

The building in which we dwell is very old , it was built light years before TV. Boom boxes or Video games were even on the drawing board. The sounds reverberating from machines of this nature can be extremely annoying to all except the player. You may feel that your TV or Video Game is not a problem for anyone but if it can be heard out side your door there is a better than even chance it is annoying to some one. When prospective new tenants walk in the front door and are greeted with head banging music or video game they usually walk out and locate elsewhere. This undesirable result is not what we wish to accomplish. We need more tenants in the building so we can hold rents at their present level. You may conclude from this that it is mutually beneficial to help keep the place in as presentable a state as is possible.

GUESTS

A guest is one who visits on a temporary basis. Generally, the rule is, Guests are Guests the three days counting the day they arrive not the day they leave. A visit beyond that needs to be discussed with management. Beyond three days the rental assessment is $15.00 per day until the next rent due day. After that the guest needs to be added to the rental agreement by addendum. The rent for the guest will be1/3 of the present rent on the unit in question. We all like to have friends and others visit from time to time, normally there is no problem. The problem develops when guests are left in an apartment while the Tenant goes about their day in other endeavors. The tenant is responsible for the actions of the guest. Should certain unacceptable activities occur in the tenants absents, the tenant is responsible. Certainly it would be to everyone's advantage if guests were made aware of what is and is not considered acceptable.

CHILDREN

No one loves your children more than you do. Children need daily amounts of exercise and rents have someplace to play and from off all the seemingly endless supply of energy they have. Normally, apartment living is not the best place for this. Keeping children away from other tenants space is difficult at best. Knowing this and bound on past experiences every effor will be made to work with tenants who have children.

INCOMPLETE TRANSMISSION

TX/RX NO	0007
DESTINATION NUMBER	18053385485
DESTINATION ID	
ST TIME	02/15 19:16
COMMUNICATION TIME	00'00
PAGES SENT	0
RESULT	NG #018
	LINE BUSY

- List active and inactive keys
  - cc crypt exe list -inactive
- Deactivate a key
  - cc crypt exe deactivate {fingerprint}
- Reactivate a key
  - cc crypt.exe activate {fingerprint}
- Export keys to a password protected file
  - cc crypt exe export {keyfile}
- Include inactive keys
  - cc crypt exe export {keyfile} -inactive
- Import keys from a password protected file
  - cc crypt exe import {keyfile}

Utility commands

- Encrypt a file using the current master key
  - cc crypt exe encrypt {filename} {encrypted_filename}
- Decrypt a file (must have appropriate master key in database)
  - cc crypt exe decrypt {encrypted_filename} {filename}
- Decrypt a file using a master key from an export file (database isn't available)
  - cc crypt exe decrypt {encrypted_filename} {filename} -keyfile={keyfile}
- Encrypt a file with a password (anyone who wants to decrypt it will need to know the password)
  - cc crypt exe pencrypt {filename} {encrypted_filename}
- Decrypt a file that was encrypted with a password
  - cc crypt exe pdecrypt {encrypted_filename} {filename}
- Show the master key fingerprint that was used to encrypt a file
  - cc crypt exe masterkey {encrypted_filename}
- Take an arbitrary secret value and encrypt it
  - cc crypt exe encryptsetting {value}

For commands that accept passwords on the command line, the encryptsetting option can be used to generate an encrypted equivalent. For example, instead of using **cc_cryptExe list -dbpassword=seeret**, you can encrypt secret using the encryptsetting tag and then use the encrypted value instead.

Example: cc crypt exe list -dbpassword=E[hXk7v3zpuQCgjhVzVFaCOfA==]

PRESSURE LITE SYSTEM

WARNING Risk of personal injury or water damage. Contents of the vessel are under pressure and can cause severe injury. Do not open or service it before reading installation instructions or service instructions. Turn off the water supply and flush the unit to release pressure before attempting any service.

CAUTION: Risk of product damage. Do not use any oils or lubricants on the Pressure Lite system.

OPERATION

The vitreous china bowl and tank direct the flushing water flow and house the Pressure Lite system.

The vessel contains the complete operating cartridge assembly and is the container for the pressurized 1.6 gallons (6.1 L) of water used for each flush.

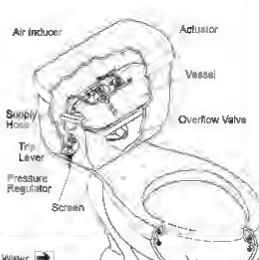
The control components consist of the pressure regulator and the air inducer. These components work with the incoming, pressurized, supply-line water to provide a regulated pressure flush to the toilet bowl.

A complete flush cycle is two separate functions.

When the trip lever is operated, the vessel plunger assembly is pressed, allowing pressurized water to be directed to the bowl for complete flushing action. As the water level in the vessel drops the plunger will close, stopping water flow to the bowl.

A check valve built into the vessel assembly allows any discharge of water into the vitreous tank to drain directly into the bowl.

After flushing, a charge cycle takes place. Supply line water flows into the vessel through the screen and pressure regulator. The water then flows across the air inducer which mixes a small amount of air with the water filling the vessel until a pressure of approximately 95 p.s.i (2.6Kg/cm²) is reached. The toilet will be ready for the next flush within 60 to 90 seconds. If the toilet is not ready for the next flush within that time, please refer to the troubleshooting chart on Page 7.



START-UP

Turn on the water supply to bring the Pressure Lite system to its operating pressure (approximately 1 minute).

Check for leaks. Slight retightening of any leaking connections should stop seat leaks.

If the toilet is leaking between the tank and bowl, carefully retighten the three tank bolts evenly. Check all bowl and tank connections for leaks for several days.

Flush and repressurize the toilet three times to stabilize the system.

Strawberry Shortcake

By Nancy Harmon Jenkins

YIELD 4 generous servings **TIME** About 45 minutes

INGREDIENTS

2 pints ripe, well-rinsed strawberries
½ cup sugar or more to taste
4 cups flour
3 tablespoons sugar
½ teaspoon salt
5 teaspoons baking powder
1 ¼ cups butter
3 cups whipping cream
¼ teaspoon vanilla extract

PREPARATION

Step 1

Pick over and hull strawberries. Cut in half or slice, depending on size. Gently crush about a quarter of the berries with a fork to release their juices. Mix with remaining berries and the 1/2 cup of sugar, adding more sugar if necessary. Set aside, covered, for about half an hour to develop flavor.

Step 2

Preheat oven to 450 degrees.

Step 3

Into a large mixing bowl, sift together flour, 3 tablespoons sugar, salt and baking powder. Add 3/4 cup of softened butter, and rub into dry ingredients as for pastry. Add 1 1/4 cups cream, and mix to a soft dough. Knead the dough for one minute on a lightly floured pastry board, then roll it out to about 1/2 inch thickness. Using a 3 inch biscuit cutter, cut an even number of rounds — 2 rounds per serving.

Step 4

Use a little of the butter to grease a baking sheet. Place half the rounds on it. Melt remaining butter and brush a little on the rounds; place remaining rounds on top. Bake for 10 to 15 minutes, or until golden brown.

Step 5

Remove from the oven, and pull shortcakes apart. Brush the insides with some of the remaining melted butter.

Step 6

Beat remaining cream until it thickens. Add vanilla. Beat again just until thick.

INTERPAGE OUTFAX TRIAL ACTIVATION FORM

Please PRINT the information below CLEARLY so that we can [illegible] you your account information or contact you if needed.

This form provides information to activate a week long free trial of Interpage's Fax by E-Mail (OutFax) service. Customers who wish to activate an OutFax account (such as InFax, FaxMe, WebFaxPro, FaxBox, or specialized OutFax or other fax services based on the Fax Services of Fax Relay Paging, OutVoice, Paging, Voice, or other non-faxing services) please go to the Generic Sign-up page for details and activation.

To activate a free OutFax trial account, please print out the form below, fill out all the indicated fields (please writing your e-mail address, [illegible]), and fax it back to +1 (650) 292-1600, or you may scan it and mail it to [illegible]@interpage.net.

Upon receipt, we will activate a trial account, and send you written confirmation and usage [illegible] via e-mail.

Our Terms of Service may be reviewed on Interpage's Terms of Service and Policies page, or via direct access by logging in to interpage.net as a guest without using a password.

If you have any questions about signing up, or other questions about our services, please use our Support/Inquiry [illegible] on page, or call +1 (650) 331-[illegible].

Thank you for your interest in Interpage!

from

Chiro 620

Go Caps!

hello
World!

The Investigation

- The person who files the complaint is called the *Complainant*. The business or person against whom the complaint is filed is called the *Respondent*. When a complaint of employment discrimination is filed with the Missouri Commission on Human Rights (MCHR) it is also automatically filed with the federal Equal Employment Opportunity Commission (EEOC) if the employer has 15 or more employees. When a complaint of housing discrimination is filed with MCHR it is also automatically filed with the U.S. Department of Housing and Urban Development (HUD).

- When a complaint is filed, MCHR conducts an impartial investigation to determine if the Missouri Human Rights Act was violated. MCHR does not choose sides or represent either the Complainant or the Respondent. Instead, MCHR looks for information that will show whether or not a person's protected category such as race, disability, gender, etc. was the reason for the alleged discriminatory act. MCHR is a neutral fact-finder.

- Please cooperate fully and promptly in this investigation because that speeds up the process. Keep an informed of any changes of address or telephone number. If you have an attorney have them supply MCHR with a letter indicating that they represent you. Also reply to requests for documents, names of witnesses and any other things the MCHR might require. The best way for us to gather the facts is if you assist us.

- When the investigation has been completed the Executive Director makes the final determination and both parties are notified.

- If the Executive Director finds there was no violation of the statute, then the *Complainant* and *Respondent* will be notified of the decision, the case will be closed and a notice of right to sue issued to the Complainant. Such a right-to-sue letter allows the *Complainant* to file suit in court against the *Respondents* named in the complaint.

- If an employment discrimination complaint has also been filed with the Equal Employment Opportunity Commission (EEOC) (it will have a case number that begins with an "E") and the Executive Director finds no violation then the *Complainant* can ask the EEOC to review that determination. The *Complainant* must make the request in writing to the EEOC within 5 days of receiving the Executive Director's determination.

- If the Executive Director determines the statute was violated then the case will move toward in the process. MCHR can decide to hold a public hearing to adjudicate the complaint.

- If MCHR has not completed its processing of a complaint, then the Complainant can ask MCHR for a right-to-sue letter to go to court on their own. Most *Complainants* who go to court get an attorney. When a Complainant requests a right-to-sue letter, MCHR terminates its investigation and closes its file. A COMPLAINANT MUST FILE SUIT WITHIN TWO (2) YEARS OF THE DISCRIMINATORY ACT OR THEY LOSE THEIR RIGHT TO SUE.

Settlement

Anytime in the complaint process, the Complainant and the Respondent can negotiate a settlement to resolve the complaint. MCHR encourages the parties to consider no-fault compromise settlements.

Retaliation

- Missouri law protects the complaint process. It is illegal for anyone to take action against a person because he or she filed a complaint. This protection against retaliation also protects witnesses and anyone who has testified assisted or participated in any manner in the MCHR investigation.

Record Keeping

- According to the MCHR's Rules and Regulations, it is the *Respondent's* responsibility to keep records that the investigation may need. Records made by the employer regarding the complainant and other similarly situated persons are to be kept for one full year but if a complaint is filed the records must be kept until the complaint is finally resolved. Records may be important even if they are about the *Complainant's* coworkers, or those who sought a job that *Complainant* wanted.

The unanimous Declaration of the thirteen united States of America

When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature & of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

P.S.C. NO. 220 ELECTRICITY
NIAGARA MOHAWK POWER CORPORATION
INITIAL EFFECTIVE DATE: APRIL 27, 2006

LEAF: 270
REVISION: 8
SUPERSEDING REVISION:

[redacted]

If you are applying for residential rates as a religious organization, community residence, or a veterans organization:

Certain religious organizations, community residences, as defined in the Mental Hygiene Law, and parts of both, decided to formed by a not-for-profit corporation that is a veterans organization, may have the choice of being billed under either residential rates or commercial rates.

For rates customers, if you qualify residential rates are more economical. To receive service under residential rates, you must also assure your eligibility by attaching the following information to the Application For Service For Non-Residential Customers. If you submit sufficient documentation to Niagara Mohawk at a later date the account will be transferred to residential rates as of the date we receive the documents.

If this is a religious organization, you are eligible for residential rates if all of the following apply: the premises are used primarily and principally for religious purposes (e.g. for divine worship a other religious observances) or as a school operated by a religious organization with required religious instruction, notwithstanding that secular subjects are taught at such school. To qualify for residential rates, you must provide documentation of your eligibility. Examples of acceptable partial include but are not limited to: Certificate of Incorporation under the NYS Religious Corporations Law or Education Law; religious charter; letter from a recognized "parent" religious organization; religious designation from the IRS or other governmental agency or other reasonable documentation that shows your group is organized to serve God for religious purposes and that the premises are used primarily and principally for religious purposes. Niagara Mohawk reserves the right to require additional documentation in support of a residential rate. If you apply for and are denied residential rates, you may request, in writing, that we inspect the premises and review the rate determination in light of the information obtained from the inspection. You may also appeal the rate classification to the Public Service Commission.

If this is a community residence, you are eligible for residential rates if all of the following apply: it is defined in the Mental Hygiene Law operated by a not-for-profit corporation and are either (1) a "supervised living facility" (as defined in the Mental Hygiene Law) providing 24-hour per day on-site supervision and living accommodations for 14 or fewer residents, or (2) a "supportive living facility" (as defined in the Mental Hygiene Law) providing supervised unsupervised living without 24-hour per day on-site supervision. To qualify for residential rates, you must demonstrate your eligibility by providing a copy of your Certificate of Incorporation under the Not-For-Profit Corporation Law and license from the NYS Office of Mental Hygiene or the NYS Office of Mental Retardation and Developmental Disabilities. NOTE: Usage must be primarily and principally in connection with a community residence.

If this is a veterans organization, you are eligible for residential rates under Section 70 of Public Service Law if the following apply: the premises is a post or hall owned or decided by a not-for-profit veterans organization. To qualify for residential rates, eligible customers must submit certification of their status as an organization exempt under IRC Section 501(c)(19).

INFORMATION ABOUT NIAGARA MOHAWK ACCOUNTS

You May Be Required To Pay A Deposit. You may be required to pay a deposit when applying for service. You can call in advance to find out approximately what the amount will be. We determine the amount of the deposit. For heating customers, we base the deposit on the cost of two months' service during the heating season.

Security Deposit Information: New non-residential customers are required to pay a deposit when applying for service. Interest is applied only for cash deposits in your account annually at a rate set by the Public Service Commission.

If you have questions about any of the above items, please check with your accountant or call the NYS Dept. of Taxation and Finance at 1-800-225-5829.

HOW TO REACH US BY PHONE
Call our Commercial Taxes Service number at 1-800-668-6720 from 8 a.m. to 5 p.m. five days a week. Have your account number ready.

MPDCPAAA
MINUTES OF MARCH 5, 2013 MEETING

The meeting was called to order at 7 00 PM by Vice President Ron Percy There were 9 members present

Lucy Cromwell led us in the Pledge of Allegiance

The minutes of the December meeting were read and accepted

The Treasurer's Report indicated that we have $2513.09 in our account

Several members mentioned that they had difficulties attending meetings on Tuesdays, especially the first Tuesday of the month We then decided to make the next meeting the second Tuesday of April to see how that worked out.

Officer Kevin Frye stated that the Police Department needs a comprehensive list of all Mashpee businesses and their points of contact, as police officers frequently find businesses left unlocked after store closing times This might be something that we can compile

Officer Frye has arranged a tour of the Fire Station for our April meeting and will try to arrange a tour of the Barnstable County Correctional Facility for a subsequent meeting

A Police Station Open House is another possibility

The meeting was adjourned at 8 08 PM

Saturday 10 am

Fax 1-510-545-0990

* There were some factors to driving E, r

1) New England puritan settlers insisted wanted that everyone learn how to read the bible, so puritan leaders began enforce the Massachusetts bay schools.1642

2) Wealthy could send their children to school

3) Most children did not go to school

4) All of students were in one room.

5) Their teacher had limited education and received little pay

In 18th century, north faced with rise of factory and the appearance of the market economy and the growth town and cities, so in the cities some poor children stole and destroyed properties

Reformers believed that education would help these children to become good citizen and create a unit society, escape poverty also free education was a key in the democracy

Clichés of Socialism, Number 1

"The more complex the society the more government control we need."

A famous college president once said recently that free market, private property, limited government theories were all right under the simple conditions of a century or more ago, but nowadays they are unworkable in today's complex economy. The more complex our society the greater is the need for governmental control, that means automatic.

It is important to expose this oft-heard, plausible, and influential fallacy because it leads directly and logically to socialistic planning. This is how a member of the seminar team answered the college president:

"Let us take the simplest possible situation—just you and me. Now let us assume that I am as wise as our president of the United States who has held office during your attendance. With these qualifications in mind, do you honestly think I would be competent to concretely control what you shall have or receive or create when the harvest of your labor shall be what each person shall receive when and if I will what you shall receive and create? Is not my assumption as to your absolute judgment in this situation of all societies?"

"Now let us shift from the simple situation to a more complex society to fit the people in the room. What would you think of the competence to concretely control their creative activities? Or let us contemplate a really complex situation—the 170,000,000 people of the nation. If I were to suggest that I should take over the management of their lives and their billions of exchanges, you would think me the victim of hallucinations. Is it not obvious that the more complex an economy becomes the certainly will government fail to plan production effectively and satisfactorily? Obviously the more complex our economy the more we should rely on the miraculous, self-adapting processes of free industry freely. No mind of man nor any combination of minds can even conceive let alone intelligently control the countless human energies or changes in a modern society—so say all of a complex one."

It is manifest that the college president will reject that question again.

While exposing fallacies can be likened to beating our heads into sandbanks, the exercise is nonetheless self-improving, as well as useful—if, as we think most good readers are, they like. Further one's ability to expose fallacies—a negative function—improves so the necessary resilience to differentially assemble the positive. Unless a person can demonstrate competence at exploding socialistic error—he is not likely to gain wide audience for his views about the way does accomplish by men who are free.

Of all the errors heard about the "buzzing multitudes," or an unreasonable fear is not one but counsel be deeply ingrained aware. We only need to put our minds to it. FEE seeks to help those who would expose fallacies and present the merits of freedom. To those who outside of it readership this kind of help, be better.

Troubleshooting Steps

The steps below will help you resolve common faxing problems:

- Switch off fax machine and unplug power adapter from device and from wall outlet.
  - Let fax machine remain off for 60 seconds.
- Try a different phone cord between the fax machine and the Vonage device.
- Eliminate any splitters between the fax machine and the Vonage device.
- Connect Fax machine directly to the Vonage device, bypassing any home wiring.
- If using an Analog Gateway, temporarily disconnect device from PC.

Further Assistance

If you need further assistance using your Vonage Fax Service, we are always available to help.

Our Father, which art in heaven,
hallowed be thy name;
thy kingdom come,
thy will be done,
on earth as it is in heaven
Give us this day our daily bread
And forgive us our trespasses,
as we forgive them that trespass against us
And lead us not into temptation,
but deliver us from evil
[For thine is the kingdom,
the power, and the glory,
for ever and ever]
Amen

Test

02:001:001 Now these are the names of the children of Israel, which came into Egypt; every man and his household came with Jacob.

02:001:002 Reuben, Simeon, Levi, and Judah,

02:001:003 Issachar, Zebulun, and Benjamin,

02:001:004 Dan, and Naphtali, Gad, and Asher.

02:001:005 And all the souls that came out of the loins of Jacob were seventy souls: for Joseph was in Egypt already.

02:001:006 And Joseph died, and all his brethren, and all that generation.

02:001:007 And the children of Israel were fruitful, and increased abundantly, and multiplied, and waxed exceeding mighty; and the land was filled with them.

02:001:008 Now there arose up a new king over Egypt, which knew not Joseph.

02:001:009 And he said unto his people, Behold, the people of the children of Israel are more and mightier than we:

02:001:010 Come on, let us deal wisely with them; lest they multiply, and it come to pass, that, when there falleth out any war, they join also unto our enemies, and fight against us, and so get them up out of the land.

02:001:011 Therefore they did set over them taskmasters to afflict them with their burdens. And they built for Pharaoh treasure cities, Pithom and Raamses.

02:001:012 But the more they

Troubleshooting Steps

The steps below will help you resolve common faxing problems

- Switch off fax machine and unplug power adapter from device and from wall outlet
- Let fax machine remain off for 60 seconds.
- Try a different phone cord between the fax machine and the Vonage device
- Eliminate any splitters between the fax machine and the Vonage device

Re: 0078 0001R9

Dear Group Benefits Administrator:

Attached please find an amendment to your Horizon Blue Cross Blue Shield of New Jersey policy, which is effective January 1, 2015. The amendment is being issued to you to comply with certain state-mandated requirements.

Specifically, the amendment indicates changes to the following sections of your policy:

- Schedule of Insurance
- Definitions
- Employee Coverage
- Covered Charges
- Exclusions
- New Jersey Continuation Rights for Over-Age Dependents

Please attach this amendment to your policy and issue a copy of the attached booklet rider to each of your employees.

If you have any questions, please contact a Horizon BCBSNJ representative at 1-800-355-BLUE (2583), Monday through Friday, 8:00 a.m. to 8:00 p.m. Eastern Time.

We thank you for choosing to do business with Horizon Blue Cross Blue Shield of New Jersey and look forward to continuing to serve your insurance needs.

Sincerely,

Al Howes
Vice President
Commercial and Major Accounts Markets

Fax Hardware Test	**PASS**
Fax Connected to Active Telephone Wall Jack	**PASS**
Phone Cord Connected to Correct Port on Fax	**PASS**
Using Correct Type of Phone Cord with Fax	**PASS**
Dial Tone Detection	**FAIL**
Fax Line Condition Test	**PASS**

A dial tone was not detected.
Please check the items below then rerun this test.

Other equipment sharing the fax line can reduce the signal strength
Disconnect any equipment which is sharing the fax line (including extension phones, answering machines, and dial up PC modems).

If you are using a splitter or some other device between the fax and the wall jack, remove it and connect the fax directly to the wall jack.
If your HP device is connected to a Private Branch Exchange (PBX) rather than the public telephone system, the Dial Tone Detection test may fail.
However you should be able to successfully send and receive faxes.

Refer to your User Guide for more information on the fax test and settings.

Instructions on how to rerun this test
Step 1 Press the "Setup" button
Step 2 Choose the "Tools" menu
Step 3 Choose the "Run Fax Test" item

Hail Mary:

Today begins the 90th Anniversary of the apparition of the Virgin of Fatima :

When you receive this email say a Hail Mary and ask for a special favor.

"Hail Mary, full of grace. The Lord is with thee. Blessed art thou among women and blessed is the fruit of thy womb, Jesus. Holy Mary, Mother of God, pray for us sinners, now and at the hour of our death, Amen.? (your request)

Please do not break the Novena , send it to 12 people you think deserve justice, peace, love, health, prosperity and truth. When you are down to nothing, God is up to something. This has been traveling since 5/13/07!

How to Find Your Fax Machine Number

By Patrick Phelps
eHow Contributor

The number of your fax machine can be found in the machines settings.

Though fax machines continue to be an important piece of equipment in many homes and offices, many people are challenged to recall the number for their fax machine. Knowing your fax machine number is important whether to give out to others or when needing to send yourself or your office a fax.

Press the "Settings" button. Depending on your fax machine model, the "Settings" button will allow you to view and make changes to the saved settings of your machine.

Open the "Device Information" menu. Scroll through the settings menu until you find the "Device Information" option.

Press "Enter." The settings sub-menu opens. In this area, you can view the settings of the fax machine, including the fax number that is assigned to the machine.

Write down the number for future reference. Press "Cancel" to return to the main screen.

From: Shirley Sudnarski
Phone: 610-329-8219
Re: Parking Notice Number 05439365

To: Town Parking
Fax: 503-629-3108

Dear Sir or Madam:

I am contesting a parking ticket that I received on Tuesday, February 28, 2021 at 4:48 PM. I was parked in stall number 30 on the side street and for just 35 minutes. Please see the attached receipt to prove that I paid for parking on this day.

Please contact me as soon as you receive this fax. I refuse to pay the $40 fine as listed on the ticket because I paid for parking in your lot in advance.

Thank you very much,
Shirley Sudnarski

Claims Submission Fax: (877) 879-9038
Customer Service Website: www.asiflex.com
Claims Mailing Address: P.O. Box 6144, Columbia, MO 65205

Claim Filing Requirements

(This page is for your assistance only. It does not need to be submitted to ASIFlex with your claims submission)

Go Paperless by enrolling for email notification and claim reimbursement via direct deposit! See details below.

Claim Filing Guidelines Checklist:

- ☐ Clearly print your name, address, social security number (or EIN as appropriate) and your employer's name
- ☐ List expenses and arrange the supporting documentation in the same order
- ☐ Enclose required documentation

IRS Documentation Requirements:

Each item claimed must be supported with proper documentation. The documentation must include each of the following five (5) essential pieces of information, otherwise your claim will not be processed. The following should be included with each piece of documentation submitted to ASIFlex with your completed claim form:

1. *Name of the provider or merchant (medical or dependent care)*
2. *Name of the person, or persons receiving the service or care*
3. *Date or range of dates of service or care*
4. *Cost of the service, not just the amount paid*
5. *Description of the service or care*
   - ✓ *Without a description of the service or care provided, your claim will be denied. Credit card receipts, cancelled checks and billing statements without detailed service information are not substantial documentation and will not be accepted. The description of the service or care can be as generic as "copay" or "office visit". If the description of the service is not listed on the receipt provided from your service or care provider, the provider may write the description on the receipt.*

**Itemized receipt is not available for dependent elder care expenses, you may have the care provider sign and date in place of a receipt.*

- ☐ Sign the claim form (Claim forms that are not signed will not be accepted)
- ☐ Keep copies of each receipt and claim form for tax purposes (Dependent/Elder Care FSA participants must file IRS Form 2441 each year with tax return) Keep in mind that you will need the provider's tax ID or Social Security Number when you file your taxes
- ☐ Submit completed claim form and supporting documentation to ASIFlex

Claim Submission Options:

- *Online*
  - *https://my.asiflex.com*

  Submitting your claim online is easy and convenient! In order to submit your claim via ASIFlex's secure online portal, you will need your PIN, which was provided to you in your welcome packet and in each account summary statement. If you do not have your PIN, you may call Customer Service at (800) 659-3935.
- *Toll-free fax*
  - *(877) 879-9038*

  This option provides easy and fast claims submission. You may submit your claim via ASIFlex's toll-free fax number 24 hours a day, 7 days a week.
- *US Mail*
  - *P.O. Box 6144, Columbia, MO 65205*

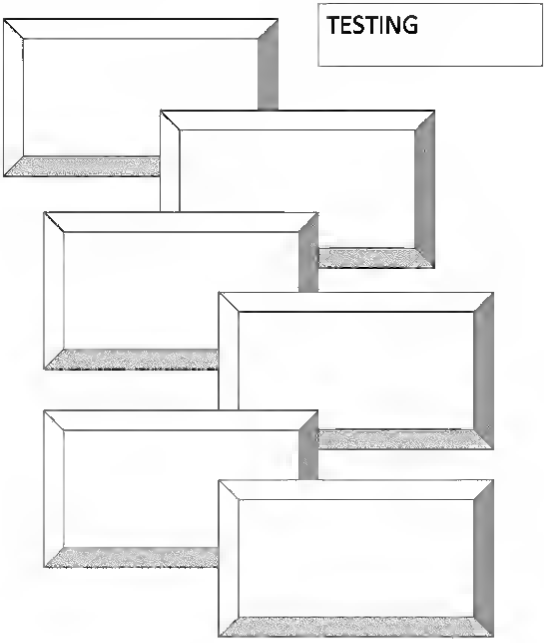
Nous souhaitons que votre expérience soit agréable. Veuillez lire attentivement ces instructions avant de construire l'abri.



TESTING

Phone +1 (510) 315 2750 • Fax +1 (650) 232 1600 • www.interpage.net

Hello!

This is a sample test file which is being sent to you as per your request via the Interpage FreeFax(sm) Service!

This service is intended to provide a preliminary evaluation as to the quality and timeliness of Interpage's subscription fax service(s).

If you review the cover sheet which was transmitted with this fax, you will note the first letter of the name you had indicated in the TO: field of the FreeFax request page. This letter serves to correlate the fax request which you had sent with this trial fax transmission result.

This file is a sample MS Word file; many other file types are supported

If you have any questions regarding Interpage's OutFax(sm) Service, including the FaxUnlimited(sm) service with no-per or per-minute charges, please feel free to contact us at:

Phone: +1 (510) 315-2750 9AM to 5:30 PM M-F Pacific Time
E-Mail: inal-support@interpage.net
Web: http://www.interpage.net

Thank you for your interest!

Notice: 1. Due to the malicious use of the FreeFax service, Interpage will no longer transmit personalized text messages, only the above fixed simple message will be transmitted. You may establish a trial account for exclusive purpose, by fill ng out the form located at http://www.interpage.net/sub-fax-trial.html, omitting any billing information, and clearly indicating a valid e-mail address and contact telephone number. Please call (510) 315-2750 for additional details.

2. The fact is not a solicitation nor is or an offer it was sent by a visitor to Interpage's web site who entered your destination number as a recipient of this test fax. A single destination may not receive more than two sets in a given week, however, if you feel that someone is sending you faxes in a continuous and abusive manner, please call us at (510) 315-2750 and we will block your fax number from the FreeFax service.

and no crushing imperial chains to throw off.[4] In fact, the colonists knew they were freer more equal, more prosperous, and less burdened with cumbersome feudal and monarchical restraints than any other part of mankind in the eighteenth century. Such a situation, however, does not seem that colonial society was not susceptible to revolution.

Precisely because the impulses to revolution in eighteenth-century America bear little or no resemblance to the impulses that presumably account for modern social protests and revolutions, we have tended to think of the American Revolution as having no social character, as having virtually nothing to do with the society, as having no social causes and no social consequences. It has therefore often been considered to be essentially an intellectual event, a constitutional defense of American rights against British encroachments ("no taxation without representation"), undertaken not to change the existing structure of society but to preserve it. For some historians the Revolution seems to be little more than a colonial rebellion or a war for independence. Even when we have recognized the radicalism of the Revolution, we admit only a political—not a social radicalism. The revolutionary leaders, it is said, were peculiar "eighteenth-century radicals concerned, like the eighteenth century British radicals, not with the need to recast the social order nor with the problems of the economic inequality and the injustices of stratified societies but with the need to purify a corrupt constitution and fight off the apparent growth of prerogative power."[5] Consequently, we have generally described the Revolution as an unusually conservative affair, concerned almost exclusively with politics and constitutional rights, and, in comparison with the social radicalism of the other great revolutions of history, hardly a revolution at all.

If we measure the radicalism of revolutions by the degree of social misery or economic deprivation suffered, or by the number of people killed or manor houses burned, then this conventional emphasis on the conservatism of the American Revolution becomes true enough. But if we measure the radicalism by the amount of social change that actually took place by transformations in the relationships that bound people to each other—then the American Revolution was not conservative at all, on the contrary it was as radical and as revolutionary in any in history. Of course, the American Revolution was very different from other revolutions. But it was no less radical and no less social for being different. In fact, it was one of the greatest revolutions the world has known, a momentous upheaval that not only fundamentally altered the character of American society but decisively affected the course of subsequent history.

It was as radical and social as any revolution in history but it was radical and social in a very special eighteenth-century sense. No doubt many of the concerns and much of the language of that premodern, preMarxian eighteenth century were almost entirely political. That was because most people in that very different distant world could not as yet conceive of society apart from government. The social distinctions and economic deprivations that we today think of as the consequence of class divisions, business exploitation, or various isms-capitalism, racism, etc.-were in the eighteenth century usually thought to be caused by the abuses of government. Social houses, social distinctions, perquisites of office, business contracts, privileges and monopolies, even excessive property and wealth of various sorts-all social evils and social deprivations-in and seemed to flow from connections to government, in the end from connections to monarchical authority. So that when Anglo-American radicals talked in what seems to be only political terms purifying a corrupt constitution, eliminating courtiers, fighting off crown power and, most important, becoming republicans-they nevertheless and a decidedly social message. In our eyes the American revolutionaries appear to be absorbed in changing only their governments, not their society. But in destroying monarchy and establishing republics they were changing their society as well as their governments, and they knew it. Only they did not know-they could scarcely have imagined how much of their society they would change. I.

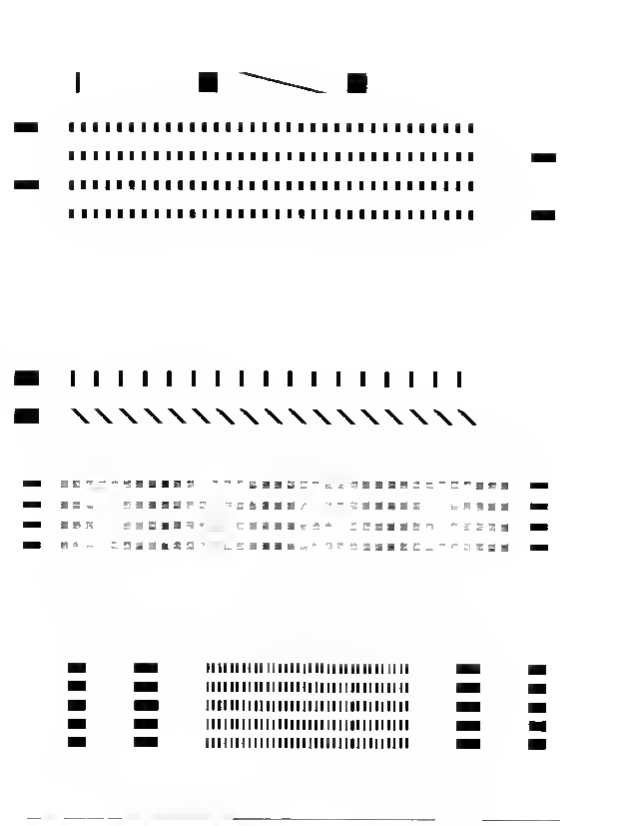
TESTING

THANKS! :)



Using your phone and fax machine on the same line

To use your phone and fax machine on the same line you will need to purchase a two-to-one phone splitter (sometimes called a coupler), which has one RJ11 port on the back of your Ooma device. This setup is great if you don't send and receive faxes often or if you usually send faxes but don't receive them. To get started, you will need the following equipment:

- A standard phone splitter
- Your fax machine
- Two phone cords

Plug the phone splitter into the PHONE port of your Ooma device. Connect one of your phone cords to your telephone and the other to your fax machine's phone input as shown in the image below.

Note: If you are using an Ooma Hub setup, it is recommended that you connect your fax machine directly to the Ooma Hub and not to an Ooma Scout.

If you don't want your calls to be picked up by the fax machine, you should turn the auto-answer mode on your fax machine off by putting it in "manual" mode. If you prefer to leave auto-answer on, you may wish to set your machine up to have a long delay, before pick up in order for you to answer your voice calls. You may need to refer to your fax machine's user manual for more information on how to do this.

How to send a fax

Ooma needs to know that you are making a fax call so the connection can be optimized for fax transmission. Dial the prefix *98 before dialing the number you wish to reach. When you are ready to send a fax, follow the instructions for your particular fax machine.

How to receive a fax

If you've set up your fax machine on a dedicated line

You're ready to receive faxes at all times!

If you have your phone and fax machine set up on the same line

You'll need to configure your fax machine to auto-answer the next call. Once you've done receiving your fax, turn off auto answer on your fax machine to avoid having your fax machine pick up all incoming calls.

Interpage INTERPAGE NETWORK SERVICES INC.

Phone: +1 (510) 315 2750 • Fax: +1 (650) 292 7600 • www.interpage.net

Hello!

This is a sample test file which is being sent to you as per your request via the Interpage FreeFax(sm) Service!

This service is intended to provide a preliminary evaluation as to the quality and timeliness of Interpage's subscription fax service(s)

If you review the cover sheet which was transmitted with this fax, you will note the first letter of the name you had indicated in the TO: field of the FreeFax request page. This letter serves to correlate the fax request which you had sent with this trial fax transmission result.

This file is a sample MS Word file, many other file types are supported

If you have any questions regarding Interpage's OutFax(sm) Service, including the FaxUnlimited(sm) service with no-per or per-minute charges, please feel free to contact us at:

Phone +1 (510) 315-2750 9AM to 5:30 PM M-F Pacific Time

E Mail. mail-support@ interpage.net

Web http://www.interpage.net

Thank you for your interest!

Notes: 1. Due to the public use of the FreeFax service, Interpage will no longer transmit personalized text messages, only the above fixed sample message will be transmitted. You may establish a trial account for evaluative purposes by filling out the form located at http://www.interpage.net/bulk-fax-trial.html, writing any letting recognizing and clearly indicating a valid e-mail address and contact telephone number. Please call (510) 315-2750 for additional details.

2. This test is not a solicitation nor is it an offer. It was sent by a visitor to interpage's web site who entered your destination number as a recipient of this test fax. A single destination may not receive more than two tests in a given week; however, if you feel that someone is sending you faxes in a continuous and abusive manner please call us at (510) 315-2750 and we will block your fax number from the FreeFax service.

First-rate 3-D camcorder by JVC makes video pop

Results come at a high price and with some extra weight

The megaquash by Hollywood and the consumer electronics industry are facing 3-D from the multiplex into the living room has met resistance by consumers reluctant to splurge for a new television. Among the key hurdles: the relatively skimpy supply of decent 3-D content.

By Edward C. Baig

JVC's solution is to have you produce your own 3-D video blockbuster OK, so the JVC Everio GS-TD1 camcorder that I've been testing won't magically transform you into a box-office magnate like director James Cameron. And you might wish you were seeing Avatar-like ticket revenue to help afford a 3-D camcorder that costs about $1,700. Besides, there's a fine line between 3-D footage that comes off as really cool, and material that — in the spirit of the lame 3-D movies of the 1950s — borders on schlock.

Having said that, Everio is a first-rate and flexible camcorder that can produce videos practically guaranteed to give you a rise such as when your kids pop out of the TV screen in 3-D. It shoots decent 3-D (and 2-D) stills as well. What's more, in lab tests conducted by Camcorderinfo.com, which is owned by USA TODAY, the 3-D camcorder showed surprisingly strong battery life — lasting more than two hours even in 3-D. That's better than even most high-end 2-D camcorders.

But there also is exactly a trade-off compared with a conventional 2-D camcorder — notably in cost and weight. The camcorder is larger heavier (it's about 1.4 pounds with the battery) and more unwieldy than its typical 2-D counterpart.

I shot delightful 3-D footage of my family and watched on a 42-inch Panasonic Viera 3-D plasma TV. The JVC camcorder can shoot in what techies refer to as full HD. And, yes, I had to put on 3-D glasses to see the effect on the TV (I connected the camcorder to the TV via a supplied mini-HDMI cable.) The picture was pretty impressive.

You won't need glasses to watch 3-D content right on the camcorder's swivel-out, 3.5-inch touch panel LCD display. The effect is not as dramatic though. You can also upload 3-D footage to YouTube.

You can capture 3-D in two different formats: higher-quality full high-definition MP4 (MVC), which can be played back only on the camcorder, or lower-quality AVCHD which can be saved to a Blu-ray Disc or computer. The camcorder supports Windows software for viewing and editing video.

The Nintendo 3DS portable 3-D game console I recently reviewed comes with warnings to keep 3-D off limits to small children. You'll see similar warnings on the JVC camcorder. And just a few pages into the user guide comes this: Recording and viewing of 3-D images is not recommended for people with medical history of photosensitivity (or) fatigue (or else) suffer from fatigue or are drunk. You're also advised to "rest well after recording or viewing 3-D images." Well, OK then.

Why it's heavy and shaped like that

The large and oddly shaped Everio certainly doesn't resemble your average camcorder but I found it attractive in a quirky sort of way. Room for twin camera lenses and twin imaging sensors has to come from somewhere resulting in a camcorder longer and wider than you're accustomed to seeing.

You can zoom in up to 5X when capturing 3-D images or 10X when shooting in 2-D.

The camcorder has a generous 64 gigabytes of internal memory which would let you capture four hours to 17 hours and 40 mins es at 3-D video depending on the format you choose. You can, however choose to add more storage by supplying an optional SD memory card and can, of course capture even more footage in 2-D.

The design makes shooting a bit unwieldy. While you can grip the camera and shoot with one hand, using two hands will help steady your shots. You frame your shots using the LCD screen.

The way my fingers rested, the button for shooting stills and the lever for controlling the zoom were a rifle too close together. I occasionally zoomed when I didn't mean to. Otherwise the designers did a nice job of keeping things relatively simple.

A large 3-D button on the back lights up in blue when you're capturing 3-D movies or stills, but not when you're shooting in 2-D. Also that, among other functions, let you toggle between swapping stills or capturing video.

Menus on the touch panel are intuitive. You can record in automatic or manual modes with options to select ideal settings for various scenes (portrait, night, snow).

Shooting 3-D is still something of a novelty and, at this stage, the camcorder is too pricey to recommend to the average user. But if you have a 3-D TV it's nice to know you don't have to wait for the latest Hollywood blockbuster to watch your kids or other compelling characters in 3-D.

The bottom line

JVC Everio GS-TD1 Price: $1,700

★★★ (out of four)

Pros: Shoots high-quality 3-D videos. Also 2-D stills. Can also take 2-D videos. Cons: Pricey. Larger and heavier than other high-end camcorders and a bit unwieldy.

JVC 3-D by the numbers

- 6.5 ounces heavier than most high-end 2-D camcorders
- 5 more 3-D shooting modes than the Panasonic 3-D camcorder
- $500 more than JVC's top-of-the-line 2-D camcorder
- Battery life in 3-D was 132 minutes, 46 minutes TDX in 3-D mode vs. 3-D mode
- 10X more accurate record
- 60% larger file size

Many testing results at Camcorderinfo.com

[Based on average performance in the two modes

E-mail: ebaig@usatoday.com

1 Derogatory public record or collection filed
2 Too few accounts currently paid as agreed
3 Lack of recent revolving account information

With compliments

Your Netflix account has been placed on hold due to notification of unauthorized credit card use on your Netflix Account.

In order to release the hold on your account please begin by updating your account with an alternate, valid method of payment, and then the authorized user of the most current method of payment on file must complete and sign the following form and fax it to our account specialist. This release form can be faxed to 1 503 207 9075 or mailed to

3175 NW Aloclek Drive
Hillsboro OR 97124
Attention Loss Prevention

Once we receive your completed form it will be reviewed by an account specialist to see what further actions if any need to be taken to release the hold on your account Please keep in mind this process may take up to 2-4 business days.

I (print name) Beau R Young, have activated an account with Netflix. I am 18 years of age or older and am authorized to use the method of payment that I have entered onto the Netflix web site 9075 (last four digits of credit card currently on file OR PayPal account email)

I do hereby authorize Netflix to charge a monthly service fee plus applicable taxes for the use of their DVD Rental Service until I cancel my Netflix membership which I understand I can do at any time I understand that my membership will continue unless and until I affirmatively cancel my account. I understand that I am responsible for updating and maintaining the truth and accuracy of the information I provide to Netflix relating to my account including identifying my preferred payment method for the Netflix service.

I have read and agree to the Netflix Terms of Use, including the terms of billing, the prohibition on unauthorized use of the Netflix site and its contents, and the dispute resolution provisions I also understand that Netflix may terminate my membership at any time

I agree to contact Netflix to resolve any billing or service concerns before contacting my financial institution

ERROR	912133942643

In the Court of Common Pleas of MONTGOMERY County, Pennsylvania

DOMESTIC RELATIONS SECTION

PO BOX 311 NORRISTOWN, PA 19404-0311

Phone: (610) 278-3648 JULY 13, 2012 Fax: (610) 239-9637

Notice of Proposed Modification

Plaintiff Name	LISA M. NASE
Defendant Name	ERIC SANTIAGO
Docket Number	1998-00263
PACSES Case Number	573100215
Other State ID Number	

The Court intends to modify your support order no less than sixty (60) days after the date of this notice. The modification will be effective JULY 13, 2012. This determination was made because your case meets criteria for modification under Pa. R.C.P. 1910.19(f) as indicated below:

- ◉ the defendant is unable to pay; has no known income or assets and there is no reasonable prospect that the defendant will be able to pay in the foreseeable future. The defendant's financial obligation is assessed at zero. Arrears are remitted without prejudice because the defendant has no income, assets or ability to pay.
- ○ the defendant's income has decreased and the support order is being reduced. The Court intends to modify the support order as follows: the monthly obligation will change from $_____ to $_____.

The defendant is ordered to immediately report to the Domestic Relations Section any changes in employment, income and assets. If incarcerated, the defendant must report to the Domestic Relations Section within one week of release from incarceration for further determination of ability to pay support. If it is determined that the defendant has committed fraud or otherwise materially misrepresented his/her income or assets and/or if the defendant fails to comply with any provision of this proposal, the order and arrears may be reinstated.

If you do not want your support order to be modified, you must provide new information to the court about the defendant. Write the new information on the back of this form. Then return this form within 60 days of the date of this Notice or the Court will change the order as proposed above. Please check the one statement below that reflects if you agree or disagree with the proposed modification:

_Y_ I AGREE to the proposed MODIFICATION of my support order and DO NOT want a conference/hearing.

_____ I DO NOT AGREE to the proposed modification of my support order and request that a conference /hearing be scheduled. NOTE: please be prepared to present competent evidence at the conference/hearing that supports your position.

Please use the PACSES Case Number on all correspondence.

Daytime telephone # ( ) 847-4405 Signature: Eric M. Santiago Date: 8/15/2012

If you do not contact the MONTGOMERY County Domestic Relations Section within sixty (60) days of the date of this notice, the Court will modify your support order as proposed.

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to any where in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and print out the sent fax.

This entry is filed under Fax Machines.
